9. Projects from Sector Departments	382

Foreword by the Executive Mayor: Cllr E.M Mokatsane

The final plan as reviewed is a product of robust engagement with different stakeholders ranging from municipal officials, councillors and most importantly members of the broader community.

Let me take this opportunity to appreciate amongst others ward 7 residents who put up the most robust engagement with us, followed by a petition. It really is encouraging to observe how informed, and enquiring is our people on issues that affect their daily lives.

As we tabled the draft plan on the 04 April 2025, we made a commitment to adhere to the developmental duties of our municipality as prescribed by Section 153 of the Constitution of the Republic of South Africa, Act 103 of 1996 as amended, which stipulates that; a municipality must

- (a) structure and manage its administration and budget planning processes to give priority to the basic needs of the community, and to promote the Social and economic development of the community, and
- (b) participate in national and provincial development programmes.

It is based on this that we remain committed to the National Medium Term Development Plan Strategic priorities which we elaborated on in the tabled draft plan.

We have committed to maintain our growing relationship and confidence of our people by addressing issues raised by the Auditor General from the 2023/24 audit report and ensure that all repeat findings are addressed.

Our basic infrastructure more especially in industrial areas is in devastating state and needs urgent attention which is why we have committed to ensuring that our maintenance budget is spend exclusively for that. We are forging relations with industries to have partnerships that will enable us to develop and maintain that infrastructure to attract the much-needed foreign direct investment.

Kroonstad remain the focus area for investment and our commitment to its development is supported by other spheres of government, to mention but its role on the N1 development and Kroonpark as the regional holiday resort which has a huge potential to contribute to the municipal growth and domestic product.

We call upon all our people to work together with our municipality to ensure that given all other challenges our unity works for us.

Cllr M E Mokatsane
EXECUTIVE MAYOR

Executive Summary by The Municipal Manager

Being appointed as the Accounting Officer of this municipality, although temporarily, at this critical juncture in the calendar of our system of local government, has always meant that we must hit the ground running. We believe that the confidence shown by the political principals, both within Council and the provincial government, should be reciprocated with much dedication on our part.

We further believe that during this period, this municipality will have to live up to our constitutional ethos of inter-governmental relations as captured in Chapter 3 of our Constitution, Act 108, of 1996, as amended.

We are aware of the challenges facing us, and we also believe that they need to be confronted head-on, if Moqhaka is to be a force to be reckoned with. We understand the role of government everywhere to be two-fold, 1) democratic interface; and 2) service delivery.

Whilst we may see these challenges as a mammoth task, we are also conscious of the peculiar challenges facing this municipality. We are aware of the two main critical challenges in this municipality, namely, the protracted labour matter between Council and its Accounting Officer, and the prolonged vacancies, particularly in the senior management and in critical and funded positions.

We commit ourselves to assisting and working closely with Council to ensure that these challenges are addressed, because we believe that it is only through them that the municipality will turn the corner. Whilst concentrating on these issues as strategic challenges of the municipality, we will also be addressing the following, among other issues:

- Shortage of vehicles and other tools of trade;
- Addressing internal controls;
- Review of the organisational structure;
- Skills audit to address the mismatch between skills and positions;
- Prudent management of finances and other resources;
- Maximisation of performance management and reporting;
- Effective communication with stakeholders;
- Ensuring good governance and the involvement of communities in the matters affecting;
- Driving the economic and social development of the area; and
- Promoting a safe and healthy environment.

Our view that addressing the above-mentioned and other challenges, Moqhaka will be in a position to attract skilled employees and also undermine the trajectory of a declining population. This budget and IDP is the final document that serves as our plan for the period under review. We hope it makes for an interesting read and basis of engagement with stakeholders.

L MANELE (MR)
Acting Municipal Manager

Chapter 1

1.1 Background

The Local Government: Municipal Systems Act, Act (No.32) of 2000 requires that local government structures prepare Integrated Development Plans (IDPs). The IDP serves as a tool for the facilitation and management of development within the areas of jurisdiction. In conforming to the Act's requirements Moqhaka Municipality's Council has delegated the authority to the Municipal Manager to manage the process of reviewing the plan,

Moqhaka Municipality's (MLM) commitment to developing an investment destination has been the focal point of the 2022/27 IDP, with a specific emphasis to translate the Municipality's strategy into action.

The aim of the new 5-Year IDP for Moqhaka is to present a coherent plan to improve the quality of life for people living in the area. The intention of this IDP is to link, integrate and co-ordinate development plans for the municipality which is aligned with national, provincial and district development plans and planning requirements binding on the municipality in terms of legislation.

Moqhaka Municipality is a category B municipality – comprising Kroonstad, Maokeng, Viljoenskroon, Rammulotsi, Steynsrus, Matlwangtlwang in the Fezile Dabi District.

This second review of the fifth generation Integrated Development Plans takes into account a number of challenges that were highlighted as experienced by municipalities during the development of the 2022-2027 plan and its first review which include;

- Poor integration of national and provincial sector plans in the IDPs.
- Poor alignment between planning, budgeting, implementation, monitoring, and reporting processes.
- Lack of appreciation for the importance of IDPs as intergovernmental planning instruments.
- Current planning platforms do not provide an opportunity for municipality to engage timeously with sector departmental plans to be able to adequately incorporate them into their IDPs.
- The National Development Plan identified the lack of an effective system for IDP to gain the national and provincial support they require to be meaningful.

It is against this backdrop that this plan will endeavour to address these challenges while recognising other challenges that might be identified along this term of office.

The Integrated Urban Development Framework is a Strategic response to the rapid urbanisation that was identified around 2013. It is a policy framework on how the South African urban system can be reorganised for our cities to be more inclusive, resource efficient and good places to live, work, shop and play in.

Our shared history of racial segregation and separate development has created urban areas characterised by fragmented residential settlement patterns, underdeveloped business areas in townships and long travel times between home and work. The objective of this framework is to ensure spatial integration, improve access to services and promote social and economic inclusion.

It is government policy position to guide the future growth and management of urban areas to advance transformation vision premised on the following overall strategy goals:

- Spatial integration –to forge new spatial forms in settlement, transport, social and economic areas.
- Inclusion and Access –to ensure people have access to social and economic services, opportunities, and choices.
- Growth to harness urban dynamism for inclusive, sustainable economic growth and development.
- Government to enhance the capacity of the state and its citizen to work together to achieve spatial and social integration.

In its executive summary the Integrated Urban Development Framework contends that; "These strategic goals inform the priority objectives of the nine policy levels ,which are premised on the understanding that(1)integrated urban planning forms the basis for achieving integrated urban development ,which follows a specific sequence of urban policy actions (2)integrated transport that informs (3)targeted investments into integrated human settlement underpinned by (4) integrated infrastructure network system and (5)efficient land governance, which all together can trigger (6) economic diversification and inclusion and(7) empowered communities all of the above will demand effective (8) governance and (9) financial reform to enable and sustain these policy actions."

This is the correct direction that our Spatial Development Framework talks to these policy levels to ensure that the overall municipal development including its land use is the right direction. This will further ease intervention and assistance needed from sector departments and ensure alignments.

President Cyril Ramaphosa declared Gender Based Violence as High Risk after Covid -19 and this in itself tells how this pandemic is ravaging on communities and destroying families as basic units of society.

It is a fact that National Frameworks and ACTS governing local government that is,

- IDP Framework Guide
- Municipal System ACT
- Municipal Structures ACT
- White Paper on Local Government
- Municipal Finance Management ACT

Do not provide any perspective on gender issues, but this does not mean gender violence is not a municipal business, but is everybody's business.

The Provincial Department of Local Government Progress report on engendering IDP's and institutionalisation of special programmes units for fighting GBV and creating safe zones in local government provides a tool be used to ensure that this pandemic is planned for in a municipal space.

The report list five fundamental principles that should guide this exercise that is,

- Gender sensitive language e.g., LGBTQIA, people with disability and albinism, gender conforming attendance registers and South African sign language and Braille,
- Gender Specific Data Collection and Analysis e.g., Data is collected by Gender, Social Dimension e.g. Age, Ethnicity, Income and Level of Education.
- Equal Access to and Utilisation of Basic Services e.g., Community By-Laws Water, Electricity, Sanitation, Refuse Removal, Roads Light, Tree Felling and Grass Cutting etc. (who has most Access which Group is suffering).
- Equal treatment is integrated into steering process e.g., Gender Budgets.
- Women, men, children, youth, elderly, persons with disability, LGBTQIA+ and Persons with Albinisms are equally involved in decision –making during Public Participation and reviewing of IDP's and by-laws of municipalities.

To build and add on existing plans and policies our council and accounting officer must develop and sign off

- Gender Policy
- Disability Policy
- Reasonable and assistive devices
- Revise Employment Equity Policy
- Revise Sexual Harassment Policy and fight GBV in communities with Local Government Strategies to mention but a few.

Our work to develop and build on our existing policies GBV Key performance Indicators must start immediately and should be coordinated within the office of the Executive Mayor to ensure that work is done during the first quarter of the 2022/23 planning year and subsequent years. No work has been reported, on since then but we need to commit for the remaining period to 2027.

The IDP is a strategic development plan reviewed annually to guide all development in a municipal area and to inform municipal budgeting and allocation of resources as prescribed by the Municipal Systems Act, No 32 of 2000.

Moqhaka Municipality is committed to ensure that members of the community are informed about developments in their wards. Developmental local government is further enhanced through closer and more focussed and robust interaction with other spheres of government. This truly fosters a culture of partner in development and is enabling the Moqhaka Municipality to deliver more comprehensively on the delivery priorities as identified in the IDP.

A stakeholder and community engagement to determine and undertake development priorities forms the cornerstone of the IDP. It is through these engagements that the review of the IDP is necessitated. Needs are dynamic and by virtue of its changing nature, has to be reviewed. This process is assisting the Municipality to further enhance its service delivery outputs and outcomes and through the Performance Management System, employed by the Municipality, ensuring that the Municipality remains accountable to the local community and business alike.

The Municipal Council ensures that its oversight role is sufficiently mandated by the populace voice of its local community. Competing interests are carefully weighed to ensure that development priorities balance even with community needs and expectations. This is being achieved through a functioning Ward Committee System and regular communication with the community through public meetings, community newsletters, radio and various other print media and electronic media including the Municipal Website.

Chapter 4 of the IDP provides for the public to inform the five (5) year plan of the Municipality. It is this plan that guides and focuses the Municipality's attention on the development priorities as identified by the community and businesses.

The Long Term Financial Plan also provides significant insight into the financial commitment to development and the allocation of resources to priorities identified and agreed upon in the IDP. It pays specific attention to infrastructure investment which is an important development component of Integrated Development Planning.

It outlines the municipal financial strategies, policies and programmes that the municipality will undertake to address a variety of challenges and mandates within the planning space.

Chapter 8 lists the projects that is envisaged by each department as necessary on the short term. A complete 5-year project list indicating capital projects, own funded projects and activities must be developed and included in this Chapter.

Over and above competing needs which needs to be balanced with available resources, the Municipality is comfortable that it will meet its deliverable objectives as stated in this revised IDP. Reviewing the IDP holistically will give the reader invaluable insight into the mechanical make-up, commitment and responsibility of the Municipality which guides and facilitates development.

1.2 Policy and Legislative Context

The IDP is compiled in terms of Chapter 5 of the Local Government: Municipal Systems Act (MSA) (Act 32 of 2000).

Section 26 of the MSA states that the following core components should be included in the plan:

- the municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs.
- an assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services.
- the council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;

- the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- National Development Plan (2012);
- back to basic programme for municipalities (2014);
- the integrated urban development framework (2016);
- the district development model (2019);
- a spatial development framework which must include the provision of basic guidelines for a land use management system.
- the council's operational strategies;
- applicable disaster management plans;
- a financial plan, which must include a budget projection for at least the next three years;
- the key performance indicators and performance targets;
- National Land Transport No.5 of 2009; and
- Department of Planning, Monitoring and Evaluation (DPME)'s Draft Planning Framework Bill.

Moqhaka Local Municipal Council will adopt the revised 2024/25 IDP as its "single, inclusive and strategic plan" that will guide and inform the development of our municipality.

1.3 Integrated Development Planning Process

Two processes are identified during compilation:

- ➔ **Drafting of the master plan** – this refers to the compilation of a long-term strategic plan for the municipal area (2022 - 2027) as prescribed in Section 25 of the MSA. This master plan is reviewed annually as it is a long-term plan and not an operational plan.
- ➔ **Annual Planning** – this refers to the review of the IDP as referred to in Section 34 of the MSA.

The process is schematically shown in the figure below:

FIGURE 1: IDP PROCESS

On the 04 September 2024, Moqhaka Municipal Council approved the IDP Process Plan and Budget Schedule, detailing the process for the IDP and Budget development for 2025/26.

The municipality utilizes its ward committees as the primary consultative structure about planning. Inputs of the ward committees, stakeholders and members of the civil society in all twenty-two wards including councillors and officials were considered during this process.

To guide this process, the Executive Mayor, as part of his responsibilities in terms of the Local Government: Municipal Structures Act, 1998 (Act 117 of 1998) (Structures Act) should conduct strategic workshops outlining the process for the review of the 5-year plan including the vision, mission and strategic objectives.

Drafting Integrated Development Plan requires a comprehensive planning process and the involvement of a wide range of internal and external role players. Such a process has to be properly organized and prepared. This preparation is the duty of the Municipal Manager and senior management. The preparation process will be referred to as the "Process Plan" and should contribute to the institutional readiness of the municipality to draft or review the IDP.

The elected Council is the ultimate IDP decision-making authority. The role of participatory democracy is to inform, negotiate and comment on those decisions, during the planning process.

In terms of the Council approved IDP and Budget process plan, Council should approve the final IDP before the start of the new financial year, that is, not later than 31 May annually.

In order for Moqhaka to prepare a credible IDP, several stakeholders have to be engaged to provide inputs and guide the final IDP. Stakeholder interventions (timeframes, resources, etc.) are outlined in the Table 2 below:

TABLE 1: MUNICIPAL IDP PROCESS ROLL-OUT

Planning Phase	Participation Mechanisms
Analysis Phase: Determine local issues, problems, relevant stakeholders, potentials and priorities.	- Stakeholder's/ Community Meetings - Stakeholder's/ Community Interviews - Sectoral Engagements - District IDP Managers Forum - Provincial IDP Manager's Forum
Strategy Phase: Determine vision and objectives, determine strategies, and participate in IGR Structures.	- Strategic Meetings with Senior Management Team - Strategic Workshop with Municipal Council District and Provincial Government - Engagements - Municipal Budget Steering Committee
Project Phase: Design projects per strategy	- Inter-departmental/ sectoral planning - Municipal Budget Steering Committee
Integration Phase: Agree on project proposals, and compilation of integrated programmes.	- Inter-departmental/ sectoral planning IGR Forum - District IDP Forum
Approval Phase: Adoption by Council (Provide opportunity for Stakeholder's comments)	- Council and Stakeholder's Meetings and Interviews - Approval of Main Budget - Consolidation of SDBIP
Monitoring & Evaluation: Ensure economic, efficiency and effective use of resources.	- Meeting with Senior Management Team - Representatives of Stakeholders/ Ward Committees - Executive Mayoral Committee / Portfolio Committees - Internal Audit - Audit Committee - Council - Public

The IDP drives the strategic development of the municipality. The municipality's budget is influenced by the strategic objectives identified in the IDP. The Service Delivery Budget Implementation Plan (SDBIP) ensures that the municipality implements programs and projects based on the IDP targets and associated budgets. The performance of the municipality is reported in its Annual Report.

In addition to the above, risk management, forms an integral part of the internal processes of a municipality. It is a systematic process to identify, evaluate and address risks on a continuous basis before such risks can impact negatively on the service delivery capacity of Moqhaka Municipality.

When properly executed risk management provides reasonable assurance that the institution will be successful in achieving its goals and objectives.

1.4 Roles and Responsibilities in the IDP process

1.4.1 Within the Municipality

TABLE 2: ROLES AND RESPONSIBILITIES IN THE IDP PROCESS

Role Players	Roles and Responsibilities
Council	▪ Approve and adopt the process and framework plans as well as IDP and budget ▪ Monitor the implementation and approve any amendments of the plan when necessary.
Executive Mayor and Mayoral Committee	▪ Consider the IDP and Budget timetable and Process Plan and submit to Council for approval. ▪ Overall management, coordination and monitoring of the IDP Process Plan. ▪ Assign and delegate responsibilities in this regard to the Municipal Manager. ▪ Submit the draft IDP to Council for approval. ▪ Submit final IDP and Budget to Council for adoption. ▪ Provide political guidance in IDP and Budget (in terms of section 53(a) of the MFMA Act 56 of 2003. ▪ Co-ordinate plans and Timetables for the Budget. ▪ Exercise close oversight on Budget Preparation Process. ▪ Chairs the IDP Steering Committee.
Speaker	▪ Overall monitoring of the public participation process. ▪ Exercise oversight of the ward committee system.
Ward Councillors and Ward Committees	▪ Form a link between the Municipality and residents. ▪ Link the IDP process to their respective Wards. ▪ Assist in the organising of public consultation and

Role Players	Roles and Responsibilities
	participation. ▪ Monitor the implementation of the IDP with respect to their particular wards ▪ Encourage residents to take part in the IDP process.
Municipal Manager	▪ Managing and coordinate the entire IDP process as assigned by the Executive Mayor. ▪ Chairs the IDP Technical Steering Committee Meetings. ▪ Fulfil the duties of Accounting Officer as set out in Sections 68 and 69 of the MFMA, Act 56 of 2003.
IDP Manager	▪ Prepare IDP process plan and monitor the timeously implementation thereof. ▪ Day to day management and coordination of the IDP process. ▪ Ensure stakeholder engagement in IDP process by organising and setting up meetings for engagement. ▪ Ensure that the IDP process is participatory, and planning is ward-based oriented. ▪ Respond to public and MEC comments on Draft IDP. ▪ Compilation of comprehensive, neat and presentable IDP document that complies with all legislator requirements. ▪ Amend the IDP document in accordance with the comments of the MEC
Directors	▪ Provide relevant technical, sector and financial information for analysis for determining priority issues. ▪ Provide technical expertise in consideration and finalisation of strategies and identification of projects. ▪ Provide departmental, operational and capital budgetary information. ▪ Preparation of project proposals, integration of projects and sector programs.
IDP–Technical Steering Committee	▪ Refinement and Quality check of IDP document to ensure compliance with legislation. ▪ Consist of Municipal Manager, Senior Management/Directors and IDP Coordinator.

Role Players	Roles and Responsibilities
Budget Steering Committee	▪ To provide technical assistance to the mayor in discharging the responsibilities set out in Section 53 of the MFMA. ▪ Consist of portfolio Councillors for Financial matters, the Municipal Manager, the Chief Financial Officer, Senior Managers/Directors and Head of Departments to give technical advice if necessary.
IDP Steering Committee	▪ Refinement and quality check of the IDP document to ensure credibility and compliance with legislation. ▪ Provide a platform for engagement with sector departments and other stakeholders. ▪ Provides a [platform for further inputs on the draft plan and scrutinize projects to be implemented in the municipality by sector departments. ▪ Comprise of Executive Mayor (Chair), members of the Mayoral Committee, Ward Councillors, Secretaries of Ward Committees, Elected members of the Representative Forum, Municipal Manager, Senior Managers/Directors, FDDM IDP Manager, Unit Managers, Moqhaka IDP Manager, PMS Manager and invited Guests from sector department and Private entities.
	▪
IDP Representative Forum	▪ Provide an organisational mechanism for discussion, negotiation and decision making between stakeholders. ▪ Represents the interest of their constituencies in the IDP process. ▪ Monitors the performance of the planning and implementation process. ▪ Comprises of the Mayor, Councillors, Ward Committees, Municipal Manager, Directors, representatives of various sectors, NGO's, Government Departments and specialised community members.

1.4.2 Distribution of Roles and Responsibilities between Municipality and External Role Players

TABLE 3: MUNICIPAL AND EXTERNAL STAKEHOLDERS ROLES AND RESPONSIBILITIES

Role Players	Roles and Responsibilities
Moghaka Local Municipality	▪ Prepare and adopt the IDP. ▪ Undertake the overall planning, management and coordination of the IDP process. ▪ Consider comments of the MEC on the IDP and adjust the IDP if necessary. ▪ Ensure linkage between the Budget and IDP.
Local Residents, Communities and Stakeholders	▪ Represents interest and contributes knowledge and ideas in the IDP process by participating in and through the ward committees. ▪ Keep constituencies informed on IDP activities and outcomes.
Fezile Dabi District Municipality	▪ Ensure alignment of the IDP between the municipality and the district municipality (Integrated District and Local Planning). ▪ Preparation of joint strategy workshops between municipality, provincial and national government.
Provincial Government	▪ Ensure horizontal alignment of the IDP between the municipality and the District municipality. ▪ Ensuring vertical and sector alignment between provincial sector departments/ provincial strategic plans and the IDP process at local/district level. ▪ Efficient financial management of Provincial IDP grants.

Role Players	Roles and Responsibilities
	▪ Monitor the IDP progress. ▪ Assist municipalities in compiling the IDP. ▪ Coordinate and manage the MEC's assessment of the IDP. ▪ Provincial Treasury must provide views and comments on the draft budget and any budget-related policies and documentation for consideration by council when tabling the budget. ▪ Conduct Medium Term Revenue and Expenditure Framework (MTREF) budget and IDP assessment.
Sector Departments	▪ Contribute sector expertise and knowledge. ▪ Provide sector plans and programs for inclusion in the IDP.
National Government	▪ National Treasury issues guidelines on the manner in which municipal councils should process their annual budgets, including guidelines on the formation of a committee of the council to consider the budget (Section 23(3) of the MFMA).

The review of Moqhaka's Integrated Development Planning and Budget preparation for 2024 – 2025 is a people-driven process, informed by ward-based planning including the prioritized needs of the ward community; an analysis of the status of service delivery and the environment; and various stakeholder engagements. This annual review is based on actual performance, revised community needs, budget availability and possible unique circumstances that exist.

Chapter 2: Situational Analysis

2.1 Introduction

This chapter provides a situational analysis of the existing trends and conditions in the Moqhaka Municipality, in accordance with the requirements of the Municipal Systems Act in developing an IDP.

This chapter will also reflect on the key statistics released by Statistics South Africa for Census 2011, Community Survey of 2016 and Census 2022 which provides information at Provincial level and provide an assessment of all critical services identified for the municipality according to the Local Government Key Performance Areas (KPA's). It will endeavour to respond to the following questions: *Who are we? Where are we with regards to the provision of services that relates to identified critical services?*

The status quo assessment will further highlight the challenges confronting the municipality and indicate the situation in the municipality in relation to the Local Government KPA's. It should however be mentioned that the current census report will change and/or affect this analysis when it is officially published, and it will require us to review this chapter and obviously others that will be affected by statistical information.

2.2 Moqhaka Geographic location

The area of jurisdiction of the Moqhaka Local Municipality is situated in the southern part of the Fezile Dabi District Municipality. The former Kroonstad, Steynsrus and Viljoenskroon Transitional Local Councils and sections of the Riemland, Kroonkop and Koepel Transitional Rural Councils are included in the Moqhaka Local Municipality.

The general tendency of migration from rural to urban areas is also occurring in the area, as is the case in the rest of the Free State Province. The majority of the rural population is active within the agricultural sector. Regarding the population distribution (see Table 1), the area is largely urbanized (78% urban and 22% rural). In comparison to the other municipalities within the Fezile Dabi District, it appears as if Moqhaka is significantly less urbanised. However, the large rural population of the concerned region is attributed to the fact that the population of the Vierfontein and Renovaal villages as well as the Vaal Reefs hostel complex and informal settlement (see Table 6) is included in the rural population of Moqhaka.

The Greater Kroonstad is the centre of a large agriculture community that plays an important role in the economy of the district. Industrial activities subsequently contribute significantly to the district's economy. The Department of Correctional Services and the School of Engineer's Military bases are situated in the town. Kroonstad has of late become a distinguished holiday destination due to the ultra-modern and popular holiday resort of Kroonpark, adjacent to the Vals River. The urban area is situated adjacent the N1 National

recreation potential adjacent the Renoster and Vaal Rivers. Development of the town is, however, extremely latent and only the proposed first phase of the town was established. According to Proclamation No. 167 of 1975, the concerned area represented by General Plan SG No. 459/1974, was proclaimed a township under the name Renovaal.

Vierfontein (referred to as “Vierfontein South”) is also a proclaimed town. The area was initially developed to provide residence for workers at the adjacent mine and electricity power station and was owned by Eskom. After mining activities ceased and the power station discontinued, a township establishment was done to formalize the existing town area during 1993. According to Proclamation No. 35 of 1995 (Provincial Gazette of 24 February 1995), the concerned area represented by General Plan SG No. 786/1993, was proclaimed a township under the name Vierfontein. The individual properties were sold and the majority of the inhabitants of Vierfontein are retired residents with a limited number of inhabitants that are employed in Viljoenskroon.

To the north of the town Vierfontein, a sectional title scheme was established that is referred to as “Vierfontein North”. As in the case of Vierfontein, this sectional title scheme also developed to provide residence for workers at the Vierfontein mine and power station, but most of the current inhabitants are also retired. The area was developed by the Dutch Reformed Church who was the initial property owner of the concerned farms. The concerned farms are currently the property of Vierfontein Developers Group Scheme who is also the current homeowner’s association.

The Vaal Reefs hostel complex subsequently exists adjacent the Vaal River and in close proximity of Viljoenskroon. The hostels were developed by Anglo Gold and is now owned by Harmony Gold. Although mining activities ceased on the Free State side of the Vaal River, the complex still exists and provides housing to a fluctuating number of residents.

Apart from the dominant role agriculture plays in the region, no other significant economic activity exists. The Moqhaka area, like the rest of the Fezile Dabi District, is not considered as a primary tourist destination, although the area is increasingly becoming a favourite weekend destination. The hunting and guesthouse industries displayed an exceedingly rapid growth the past few years. Recreation areas and facilities are predominantly confined to the urban areas. The Kroonpark recreation and holiday resort in Kroonstad attracts interest throughout the region.

The Vaal River borders Moqhaka to the west. The Vals and Renoster Rivers drain through the area towards the Vaal River. These rivers play a significant role in providing the raw water supply to Kroonstad, Steynsrus and Viljoenskroon respectively. The topography of the area is particularly homogeneous with no prominent features and the area is characterised by extremely moderate slopes. The western areas, in the vicinity of Viljoenskroon, are known for various shallow and non-perennial pans.

2.2.1 Urban Development: Hierarchy of Towns

- Kroonstad with its strong service character and prominent commercial and industrial components, will remain the main town and growth point of the region and will continue to render various services to the surrounding smaller towns and rural areas.
- Viljoenskroon is located in an area of agricultural significance and mainly provides services in this regard to the surrounding rural areas. Viljoenskroon functions as a satellite town for residential purposes due to its strategic location in the proximity of the Vaal Reefs mines as well as the Orkney/Stilfontein mining areas in the Northwest Province. These towns have the opportunity for future growth based on industrial development, mining and tourism.
- Steynsrus is located in an area of agricultural significance and mainly provides restricted services in this regard to the surrounding rural communities. Substantial future growth of this town is not foreseen.

2.2.2 Urbanisation

Future growth is attributed to the strong commercial and industrial component of the region. Growth is envisaged due to the weekend related tourism potential of the area. Future urbanisation will principally be attributed to farm workers that settle in the urban areas.

Due to the dominant regional role, Kroonstad plays as a regional service provider and industrial and commercial development, the focus of urbanisation will probably be in this area.

Smaller towns such as Viljoenskroon and Steynsrus primarily accommodate farm workers migrating to these towns.

Future directions for residential extension, predominantly in the high-density low cost residential areas, were identified for all urban areas and indicated on the Spatial Framework. These proposed directions for extension of the involved urban areas were discussed in detail and generally relates to the principles of land use development as pertained in the Development Facilitation Act and the National Environmental Management Act.

2.2.3 Growth Points

Kroonstad will remain a growth point in the region as indicated above.

Viljoenskroon and Steynsrus will continue to serve as small towns with limited economic growth potential focussing on tourism and providing a service to the agricultural community.

2.2.4 Employment Opportunities

Employment opportunities will mainly be created in Kroonstad as a continuous growth point, whilst opportunities in the other smaller towns, will remain limited and agricultural orientated.

2.2.5 Agricultural Opportunities

The agricultural potential of the municipality to develop and sustain enterprises cannot be underestimated given potential in the following:

1. Perennial crops
 - a. Almonds
 - b. Asparagus
 - c. Cactus pear fruit
 - d. Cape gooseberry
 - e. Kiwi fruit
 - f. Olives
 - g. Pecan Nut
 - h. Persimmon
 - i. Pomegranate
 - j. Walnut
2. Vegetables and melons
 - a. Carrots & beetroot
 - b. Cabbage
 - c. Garlic
 - d. Green beans, spinach, Lettice
 - e. Onions
 - f. Potatoes
 - g. Squashes, pumpkins
 - h. Watermelons
3. Grain, protein and oil seeds
 - a. Canola
 - b. Ground nuts
 - c. Maize
 - d. Sunflower
 - e. Sorghum
 - f. Wheat
 - g. Soya
 - h. Barley
4. Industrial crops
 - a. Biofuel sweeteners
 - b. Hemp

5. Pasture and fodder crops

- a. Cactus pear
- b. Digitaria eriantha
- c. Eragrotis curvula
- d. Labla purpureus
- e. Lucerne
- f. Sorghum

6. Livestock

- a. Beef cattle
- b. Milk cow (dairying)
- c. Sheep
- d. Goat milk
- e. Piggeries
- f. Broilers
- g. Bird layer unit
- h. Game

2.2.6 Influencing Factors

The following factors influence economic development and growth in the area:

- *Road Infrastructure:* An effective primary road network exists in the study area. The secondary road network provides effective access to the above primary road network.
- *Strategic Location:* The study area is situated strategically near the Gauteng and Northwest Provinces.
- *Tourism Potential:* The study area has a significant weekend related tourism potential that could, in future, contribute to the GDP of the district and should be further exploited.
- *Agricultural Sector:* The agricultural sector of certain areas in the district is extremely prominent and contributes largely to the GGP of the Fezile Dabi District, which emphasise the agricultural significance of this district. The latter results to industrial development that is agricultural orientated.
- *AIDS:* The impact of AIDS on economic growth patterns is still largely an unknown entity. An increase in mortality will, however, place a large burden on health services and the cost thereof that will influence future economic growth.
- *COVID-19:* COVID-19 has been declared a pandemic by the World Health Organisation so has the South African government and its impact on our daily lives has been enormous. Our economy has been hardest hit, and we could not realise the planned growth but instead we witnessed job losses, negative growth in our economy and most devastating loss of life.

- *Competition*: The impact of international trade and competition in agricultural products might result that the agricultural sector is internationally less competitive. The latter implies a negative effect on economic growth leading to a possible loss in employment.

2.3. Information from Census 2011 and Census 2022.

The table and figure below indicate that the population of the municipality has decreased by 4.4% from 167 892 in 2001 to 160 532 persons in 2011. The community survey conducted during 2016 indicated that the population once again decreased with 3.61% to 154 732. Contrary to the aforementioned, the number of households increased by 10.0% from 41 514 in 2001 to 45 661 and increased again with 17.39% to 53 601 according to the Community Survey results of 2022

TABLE 3. POPULATION AND HOUSEHOLD STATISTICS

	Census 2001	Census 2011	Community Survey 2016	Census 2022
Population	167 892	160 532	154 732	155 410
Households	41 514	45 661	53 601	42 789
Average Household Size	4	3.5	2.9	3.6

The decline in the population and the similarly increase in the number of households can be seen in the graph below.

TABLE: 3.2.2 POPULATION AND HOUSEHOLD STATISTICS

Figure 3.2.2 Shows the population distribution of age at Moqhaka local municipality population both census 2011 and Survey 2026 Census 2016, that a decrease in the proportion of youth for both males and females aged 15- 29

Total Population of Moqhaka Local Municipality by Age and Gender

Age	Male	Female	Total
0 - 4	6847	6574	13421
5 - 9	5873	6192	12065
10 - 14	6742	6939	13681
15 - 19	6270	6308	12578

Age	Male	Female	Total
20 - 24	6162	5857	12019
25 - 29	6050	5978	12028
30 - 34	6343	6358	12700
35 - 39	6004	5914	11919
40 - 44	5175	5252	10427
45 - 49	4169	4576	8746

55 - 59	3396	4219	7615
60 - 64	2786	3921	6707
65 - 69	2038	3245	5283
70 - 74	1356	2289	3645
75 - 79	765	1450	2215
80 - 84	385	889	1274
85+	210	778	988
Total	74579	80830	155409

Figure :3.2.3 Population pyramid – Census 2022

The population pyramid in Figure 3.2.3 shows the age-sex structure of the Moqhaka Local Municipality. The broad base structure is typical of the Moqhaka Local Municipality with high birth rates, although the base seems to have narrowed as reflected in age groups (0-9). Results further showed a decrease in the proportion of youth for both males and females aged 15- 29 for the period 2011-2022. The adult population in 2022 has increased for both males and females. The pyramid further depicts more female older persons compared to their male counterparts.

FIGURE :3.2.3 ACCESS TO WATER

Figure 3.2.3 Census defined piped water as:-

- Piped (tap) water inside the dwelling/house
- Piped (tap) water inside yard
- Piped water on community stand
- Neighbour’s tap
- Public/communal tap
-

The Community Survey results are shown in the graph below:

FIGURE 3.2.4: COMMUNITY SURVEY ON ACCESS TO WATER

The 2016 survey showed a $\pm 2\%$ increase from the 2011 Census.

Significant progress has also been made in respect of access to sanitation whereby households with flush/chemical toilets increased from 53.6% in 1996 to 88.5% in 2011. The percentage of households utilising pit latrines and bucket toilets declined in the past 15 years. The 2001 Census definition sanitation systems compared to that of the 2016 Community Survey is shown in the table below:

TABLE : 3.5.5 SANITATION STATSSA DESCRIPTION

Flush/Chemical Toilet	
2011 Description	2022 Description
• Flush toilet (connected to sewerage system) • Flush toilet (with septic tank) • Chemical toilet	• Flush toilet connected to a public sewerage system • Flush toilet connected to a septic tank or conservancy tank • Chemical toilet
• Pit toilet with ventilation (VIP) • Pit toilet without ventilation • Bucket toilet • Other	• Pit latrine/toilet with ventilation pipe • Pit toilet/toilet without ventilation pipe • Ecological toilet (e.g. urine diversion, Enviro Loo, etc.) • Bucket toilet (collected by municipality) • Bucket toilet (emptied by household) • Other

Due to the abovementioned changes to the descriptions used it was necessary to show the 2022 results in a different figure

TABLE 3.5.5.1. ACCESS TO SANITATION

Figure 3.5.5.1 Shows results is shown in the figure below and shows a further increase in access to sanitation.

TABLE : 3.2.7 ACCESS TO SANITATION: COMMUNITY SURVEY 2016

The 2011 Census information shows that more households utilise electricity for heating, lighting and cooking compared to the status quo in 1996. 93.3% (up by 34.3%) of households used electricity for lighting, 88.9% (+44.1%) for cooking and 64.8% (+26.8%) for heating in 2011 compared to 1996, the graph also shows that as at 2016 the 96% household are using flash toilet bucked system, 3% Pit toilet and 1% no toilet.

FIGURE: 3.5.5.2 HOUSEHOLDS USING ELECTRICITY

Figure:3.5.5.2 shows the households using electricity for lighting ,cooking and heating.

Figure 3.5.5.3

The 2016 descriptions used in the community survey for electricity is as follows: -

Connected to electricity (2022)

- In-house conventional meter
- In-house prepaid meter
- Connected to other source for which the household pays (e.g. connected to neighbour's line and paying neighbour, paying landlord)
- Connected to other source which the household is not paying for (e.g. connected to neighbour's line and not paying neighbour)

Other Sources for electricity

- Generator
- Solar home system
- Battery
- Other

CENSUS 2022 - ELECTRICITY ACCESS

In respect of access to refuse removal services 85.6% of households in 2011 had their refuse removed at least once a week showing a 16.6% increase compared to 1996. Households utilising their own or communal refuse dumps and with no access to refuse removal services show a comparative decline over the same period. That in 2022 increased to 98% refuse removal.

The figure below shows the information of the 2011 Census. and Census 2022

3.5.5.4: HOUSEHOLDS BY TYPE OF REFUSE REMOVAL

The figure below shows that percentage of households living in formal dwellings has increased from 72.1% in 1996 to 89.2% in 2011, whilst the percentage of households living in informal dwellings has decreased by 11.8% over the same period, and in 2022 informal dwellings has increased by 4%

The community Survey of 2016 indicates that that the percentage of households living in formal dwellings have decreased with 3.3% and the number of households living in informal dwellings have increased with 2.7%.

In the community Survey of 2016, a formal dwelling is defined as: -

- Formal dwelling/house or brick/concrete block structure on a separate stand or yard or on a farm
- Flat apartment in a block of flats
- Cluster house in complex
- Townhouse (semi-detached house in a complex)
- Semi-detached house
- Formal dwelling/house/flat/room in backyard
- Room/flatlet on a property or larger dwelling/servants quarters/granny flat/cottage)

An informal dwelling is defined as: -

1. Informal dwelling/shack in backyard
2. Informal dwelling/shack not in backyard (e.g. in an informal/squatter settlement or on a farm). A traditional dwelling is defined as a traditional dwelling/hut/structure made of traditional materials.

TABLE 2.5.5.5 HOUSEHOLDS BY TYPE OF MAIN DWELLING

TABLE 3.5.5.6 : TENURE STATUS

Figure 3.5.4.6 shows the tenure status of the Mophaka Local Municipality, rented from private individual and from Municipality and other Social Housing, as well as owned houses.

2.4 Service Delivery and Infrastructure Development

The information will indicate the existing level of development in the community, the names of settlements and their level of service in respect of water sanitation, waste management, electricity and energy, roads and stormwater, housing, etc.

2.4.1 Water

TABLE 6: WATER QUESTIONNAIRE

Status of sector plan (WSDP)?	The Municipality has no Water Services Development Plan
Availability and status of operation and maintenance plan?	day to day operations and maintenance plan not available (Consultant appointed for water services master plan)
Status of bulk supply and storage?	Water shortage in all three towns – 1. Kroonstad (a) Raw water shortage due to limited

	seasonal flow in River. (b) Additional reservoir capacity required to maintain 48-hour reserve 2. Steynsrus – (a) Raw water shortage due to limited seasonal flow in River. (b) Additional reservoir capacity required to maintain 48-hour reserve 3. Viljoenskroon (a) Upgrade of raw water system from Renovaal required. (b) Additional reservoir capacity required to maintain 48-hour reserve			
National target for water service?	- Supply target met as per Paragraph 3.6 of the Strategic Overview of the Water Sector in South Africa (DWS 27 May 2013) - Water loss to be reduced to between 15%-30%			
Is the municipality the service authority?	Yes	X	No	
If no, indicate the arrangements for the delivery of water.				
N/A				
Approved service level for municipality as informed by the Spatial Development Framework (SDF):				
➤ Formal areas	Minimum basic level as per Water Services Act. The minimum standard for basic water supply services is - (a) the provision of appropriate education in respect of effective water use; and (b) a minimum quantity of potable water of 25 litres per person per day or 6 kilolitres per household per month, - (i) at a minimum flow rate of not less than 10 litres per minute; (ii) within 200 metres of a household; and (iii) with an effectiveness such that no consumer is without a supply for more than seven full days in any year.			
➤ Informal areas	Water within 200m distance			
Number of HHs with/without access to water:				

<i>Total No of HHs</i>	<i>No of HH with RDP and above</i>	<i>No of HH Below RDP</i>	<i>No of HH without service</i>
34 625	34 625	0	0

Number of households without access at all, with below standard access and with access.						
Name of Area or Settlement	Total no. of HHs	Service Level			Reasons for lack of service (e.g. no reticulation infrastructure, no bulk infrastructure, etc.)	Intervention Required to address backlog
		No. of HHs at or above RDP	No. of HHs below RDP	No of HH with no Service		
Brentpark	833	833	0	0		
Kroonstad	4535	4535	0	0		
Maokeng	17071	17071	0	0		
Matlwangtlwang	1649	1649	0	0		
Steynsrus	221	221	0	0		
Viljoenskroon	620	620	0	0		
Rammulotsi	7660	7660	0	0		
Matlwangtlwang	205 Informal	205 Informal	0	0		

TABLE 7: SETTLEMENTS WITH UNRELIABLE SERVICE

Indicate all areas or settlements with an unreliable service						
Name of Area or Settlement	Total no. of HHs	Service Level			Reasons for lack of service (e.g. aging infrastructure, capacity to operate and maintain the service, etc.)	Intervention Required
		No. of HHs at or above RDP	No. of HHs below RDP	No of HH with no Service		
Viljoenskroon	620	620	0	0	Limited supply capacity and raw water shortage from Renovaal. Restricted supply from WTW to Reservoir To Town resulting in low pressure.	Upgrade system
Rammulotsi	7660	7660	0	0	Limited supply capacity and raw	Upgrade

Indicate all areas or settlements with an unreliable service						
Name of Area or Settlement	Total no. of HHs	Service Level			Reasons for lack of service (e.g. aging infrastructure, capacity to operate and maintain the service, etc.)	Intervention Required
		No. of HHs at or above RDP	No. of HHs below RDP	No of HH with no Service		
					water shortage from Renovaal. Restricted supply from WTW to Reservoir To Town resulting in low pressure.	system
Matlwangtlwang	1649	1649	0	0	Lack of raw water supply and aged infrastructure to transfer raw water	Upgrade raw water supply system and increase raw water storage capacity.
Steynsrus	221	221	0	0	Lack of raw water supply and aged infrastructure to transfer raw water	Upgrade raw water supply system and increase raw water storage capacity.

TABLE 8: FREE BASIC WATER

Status of the provision of free basic water:	Free basic water available to Indigents only
<i>Is there an approved FBS policy? (Yes/No)</i>	Yes
<i>If No, indicate the reason(s)</i>	
<i>How many HHs are benefitting from the Council approved FBS policy?</i>	13 222 as at 22 March 2023. Figure is subjected to change as additional indigents are registered and some people taken off the register)

Indicate other challenges not highlighted above:
Lack of skilled workers in supervisor positions (Artisans, special workmen and team leaders etc.)

- Lack of a drawing office (and related equipment such as plan copier / plotter that can accommodate up to A0 size paper) to maintain and update information relating to position of infrastructure
- Lack of vehicles and equipment, mostly due to old age of vehicles and vehicle types not suitable to function
- Silting up of river and dams resulting in loss of capacity. Requires resurvey and possible dredging.
- Shortage of raw water in all three towns as a result of current drought and seasonal flow in rivers that are affected by climate change resulting in less flow per year.
- Steynsrus raw water shortage on a permanent basis as a result of storage dam with limited capacity and dependence on seasonal flowing river.
- Old age of infrastructure (AC and Cast iron pipes that require replacement.)
- Old age of infrastructure (Pumps and electric motors / panels for which replacement parts are no longer available)
- Proclaimed areas without services: (Greenfields – See the table below)

TABLE 9: PROCLAIMED AREAS WITHOUT SERVICES

Extension	Description / Location	Number of stands	Erf numbers
Maokeng Ext 10	Next to Boitumelo - phase 1	2278	28760 – 31036
Maokeng Ext 13	Next to Boitumelo - phase 1 No electricity	2848	31038-33869
Brentpark Ext 12	Between Brentpark and Phomolong No electrity	326	17891-17896 (streets) 27464-27771 (Erven) 27773-27780 (Erven) 27781-27787 (Parks)
Kroonstad	Tuinhof – Above Retief Street Wildebees Slot (Next to N1 / Reitz Street extension	89 20	7114-7203 No services 7576-7594
Kroonstad	Heuwelsig	167	7346-7517
Kroonstad	Elandia (Between Chris Troskie / Vredefort road No electricity	200	66757-7550

Extension	Description / Location	Number of stands	Erf numbers
Viljoenskroon Ext 14	Between Kroonstad access road / Klerksdorp road No electricity Infrastructure	109	844-950

Matlwangtlwang Ext 2	Between spruit and Ventersburg road	605	1917-2521
Matlwangtlwang Ext 3	Vogelwei (Adjacent to Kroonstad road) No electricity	831	2531-3368

TABLE 10: AVAILABILITY OF WATER ON PUBLIC FACILITIES

Availability of water to other associated public facilities:	
➤ <i>Schools</i>	All in urban areas
➤ <i>Hospitals</i>	All
➤ <i>Clinics</i>	All
➤ <i>Police stations</i>	All in urban areas

2.4.2 Sanitation

Status of sector plan (WSDP)?	The Municipality has no Water Services Development Plan.
Availability and status of operation and maintenance plan?	A draft 5- year maintenance plan still needs to be approved.
Status of sewer treatment plants and related bulk infrastructure?	Kroonstad WWTW is under refurbishment for 2023/2026 and its capacity is challenged with the new development and occupation of 5300 sites in extension 10, 13 15 and Moakeng , Viljoenskroon WWTW and Steynsrus WWTW have insufficient capacity and needs urgent attention.
National target for sanitation service?	The national target for the eradication of basic

	services backlogs including sanitation was 2014.
Approved service level for municipality as informed by the Spatial Development Framework (SDF):	
➤ <i>Formal areas</i>	Minimum basic level as per Water Services Act. The minimum standard for basic sanitation services is - (a) the provision of appropriate health and hygiene education; and (b) a toilet which is safe, reliable, environmentally sound, easy to keep clean, provides privacy and protection against the weather, well ventilated, keeps smells to a minimum and prevents the entry and exit of flies and other disease-carrying pests. As per Paragraph 3.6 of the Strategic Overview of the Water Sector in South Africa (DWS 27 May 2013): A basic level of sanitation in South Africa is regarded as a Ventilated Improved Pit Latrine (VIP) which is a “dry” toilet facility. The preferred temporary sanitation solution is a chemical toilet. Bucket toilets are unacceptable.
➤ <i>Informal areas</i>	Not stipulated within the SDF or the Water Services Act

TABLE 11: HOUSEHOLDS WITHOUT ACCESS TO SANITATION

Number of HHs with/without access to Sanitation:			
<i>Total No of HHs</i>	<i>No of HH with RDP and above</i>	<i>No of HH Below RDP</i>	<i>No of HH without service</i>
34 029	34 029	200	0 to be verified with finance

Indicate the type of sanitation systems that are available in the municipality and areas where they are:		
<i>Type of sanitation system</i>	<i>Ward</i>	<i>Name of Area or Settlement</i>
Waterborne	1-22	Kroonstad, Maokeng, Viljoenskroon, Rammulotsi, Steynsrus, Matlwangtlwang
VIP	2	Matlwangtlwang
Septic Tanks	2 and other wards within Kroonstad	Steynsrus, Kroonstad plots
Enviro-loo (dry sanitation)	Ward 1 and 20	Matlwangtlwang and Rammulotsi

TABLE 12: NUMBER OF HOUSEHOLDS WITHOUT ACCESS AT ALL

Number of households without access at all, with below standard access and with access.						
Name of Area or Settlement	Total no. of HHs	Service Level			Reasons for lack of service (e.g. no reticulation infrastructure, no bulk infrastructure, etc.)	Intervention Required to address backlog
		No. of HHs at or above RDP	No. of HHs below RDP	No of HH with no Service		
Kroonstad	4535	4535	-	-		Verify 6 with finance
Maokeng	17071	17071	-	-		
Brentpark	833	833	-	-		
Viljoenskroon	620	620	-	-		
Rammulotsi	7660		-	98	No reticulation infrastructure	Funding
Steynsrus	221	221	-	-		
Matlwangtlwang	1649	1649	-	-		
Matlwangtlwang Informal Settlement	205	-	-		Informal Settlement, no reticulation infrastructure	Relocate informal settlers to formal stands. But formal stands still need to be surveyed and serviced. Funding will be needed to service the formal stands.

TABLE13: SETTLEMENTS WITH UNRELIABLE SERVICE

Indicate all areas or settlements with an unreliable service						
Name of Area or Settlement	Total no. of HHs	Service Level			Reasons for lack of service (e.g. aging infrastructure, capacity to operate and maintain the service, etc.)	Intervention Required
		No. of HHs at or above RDP	No. of HHs below RDP	No of HH with no Service		
Viljoenskroon	620	620	0	0	Limited supply capacity and raw water shortage from Renovaal. Restricted supply from WTW to Reservoir To Town resulting in low pressure.	Upgrade system
Rammulotsi	7660	7660	0	0	Limited supply capacity and raw water shortage from Renovaal. Restricted supply from WTW to Reservoir To Town resulting in low pressure.	Upgrade system and verify number
Matlwangtlwang	1649	1649	0	0	Lack of raw water supply and aged infrastructure to transfer raw water	Upgrade raw water supply system and increase raw water storage capacity.
Steynsrus	221	221	0	0	Lack of raw water supply and aged infrastructure to transfer raw water	Upgrade raw water supply system and Increase raw water storage capacity.

Indicate areas or settlements with good levels of service and Indicate areas with intermediate levels of service.

Name of Area or Settlement with good level of	Name of Area or Settlement with intermediate

service.	level of service.
Kroonstad CBD	Gelukwaarts (Maokeng ward 7)
Kroonstad Industrial area	
Suidrand (Kroonstad)	
Constantia (Maokeng-ward 10)	
Morewag (Kroonstad)	
Marabastad (Maokeng)	
Brandpark	
Thakamiso (Maokeng-ward 9)	
Khatliso Moeketsi (Maokeng)	

Status of the provision of free basic water:	Free basic water available to Indigents only
Is there an approved FBS policy? (Yes/No)	Yes
If No, indicate the reason(s)	-
How many HHs are benefitting from the Council approved FBS policy?	12 822 as at 28 February 2025. Figure is subjected to change as additional indigents are registered and some people taken off the register) stats to be verified

List the resources available for rendering the service:
- Limited plants and equipment (TLB, sewer rods, LDV;s) - Limited staff: special worksmen, team leaders, general workers - An appointed service provider who assist with cleaning sewer lines, unblocking, vacuuming sumps and manholes and septic tanks, etc. that the bought for municipality

TABLE 14: STATUS OF SEWER TREATMENT PLANTS AND RELATED BULK INFRASTRUCTURE

Status of the sewer treatment plants and related bulk infrastructure:	
Name of sewer treatment plant	Status of plant and related bulk infrastructure
Kroonstad Waste Water Treatment Works	Plant is currently under refurbished in 2023-2026, currently not in good working order. Total capacity of the plant is 20ML.
Viljoenskroon Waste Water Treatment Works	Refurbished in 2016, capacity is 3.6ML. Capacity is insufficient for the current demand.

Status of the sewer treatment plants and related bulk infrastructure:	
Name of sewer treatment plant	Status of plant and related bulk infrastructure
Steynsrus Waste Water Treatment Works	Refurbished in 2016, capacity is 1ML. Capacity will not be sufficient for the additional demand once the additional 1500 sites have been allocated. Convection was not completed.

Indicate the general challenges not highlighted above:
- Foreign objects that are thrown into manholes, leading to frequent blockages. - Shortage of staff - Shortage of vehicles (LDV, Vacuum Truck honey Sucker Combination Truck Jetting TLB and Crane truck) - Shortage of equipment - Old age of infrastructure (AC and Cast-iron pipes that require replacement.) - Old age of infrastructure (Pumps and electric motors / panels) often resulting in frequent sewer spillages and impacting on human health and polluting the environment. - Lack of a drawing office (and related equipment such as plan copier / plotter that can accommodate up to A0 size paper) to maintain and update information relating to position of infrastructure - Financial constrains - Only reactive maintenance on equipment - Pump station buildings require maintenance and refurbishment - Lack of personnel for effective maintenance training is currently provided for trade test - Prolonged repairing time due to lack of personnel - Proclaimed areas without services: (Greenfields – See Table below)

Extension	Description / Location	Number of stands	Erf numbers

2.4.3 Electricity

Status of sector plan (Energy Plan)?	The Energy Master Plan adopted in 2018 was last reviewed on 29 June 2023.
Availability and status of operation and maintenance plan?	Not available
National target for electricity service?	The new Household Electrification Strategy approved on 26 June 2016 set the following target: electrification of 97% of households by 2025. Moqhaka Municipality is currently in line with this target. Currently 98% of households have access to electricity within Moqhaka Municipality. Number of households with Free Basic Electricity as at 28 February 2025 is 12 822

Approved service level for municipality as informed by the Spatial Development Framework (SDF):	
➤ <i>Formal areas</i>	
➤ <i>Informal areas</i>	

TABLE 15: NUMBER OF HHs WITH/ WITHOUT ACCESS TO ELECTRICITY

Number of HHs with/without access to Electricity:			
<i>Total No of HHs</i>	<i>No of HH with RDP and above</i>	<i>No of HH Below RDP</i>	<i>No of HH without service</i>
35131	31287		3844

Number of households without access at all, with below standard access and with access.						
Name of Area or Settlement	Total no. of HHs	Service Level			Reasons for lack of service (e.g. no reticulation infrastructure, no bulk infrastructure, etc.)	Intervention Required to address backlog
		No. of HHs at or above RDP	No. of HHs below RDP	No. of HH with no Service		
Brentpark	885	885		0

2.4.4 Roads and Storm Water

Status of sector plan (Integrated Transport Plan)	Not in place
Availability and status of operation and maintenance plan	RRAMS available needs to be reviewed with IDP
Status of roads regarding public transport/major economic roads/roads leading to social facilities such as clinics, schools, etc.	Reasonable
Status of arterial roads/internal streets	Mostly reasonable but some bad
Approved roads service level/standard for municipality ¹ :	No approved Standards TMH Standards
<i>Formal areas</i>	Paved roads as well as gravel
<i>Informal areas</i>	Gravel roads

TABLE 16: AREAS WITH ACCESS/WITHOUT ACCESS (BACKLOG) IN RELATION TO THE SDF

Indicate areas with access/without access (backlog) in relation to the SDF			
Name of Area or	Service Level	Reasons for lack	Intervention Required to

¹ For example: tar roads, paved roads, graded roads, gravel roads, etc.

Settlement	No. of km's at or above RDP	No. of km's below RDP	No. of km's with no Service	of service	address backlog
Kroonstad/Maokeng	249.53	170,59	0	Lack of funding	Funding form Sector Departments/ National
Viljoenskroon/Rammulotsi	45,85	73,21	0	Lack of funding	Funding form Sector Departments/ National
Steynsrus/Matlwangtlwang	9.63	33,18	0	Lack of funding	Funding form Sector Departments/ National

What are the reasons for the backlogs in roads services?

Lack of funding
 Lack of Personnel
 Lack of maintenance material
 Lack of yellow machines
 Lack of equipment

Indicate the general challenges not highlighted above:

- Shortage of staff
- Shortage of vehicles (LDV,)
- Shortage of equipment
- Proclaimed areas without services: (Greenfields – See table below)

Extension	Description / Location	Number of stands	Erf numbers
Maokeng Ext 10	Next to Boitumelo - phase 1 There is gravel roads	2278	28760 – 31036
Maokeng Ext 13	Next to Boitumelo - phase 1	2848	31038-33869

2.5 Refuse/Waste Services

2.5.1 Waste Management

TABLE 17: STATUS OF THE INTEGRATED WASTE MANAGEMENT PLAN

Indicate the status of the Integrated Waste Management Plan	Reviewed plan is kept on hold until Supply Chain Management Processes for appointment of service providers are concluded.

Provide the percentage of people accessing the service.	100%
Indicate whether the service is rendered internally or externally.	Internally
Indicate strategies employed to reduce, re-use and recycle	
There are recyclers. not registered with DESTEA. We are putting efforts to making them to register and ultimately run formidable, formidable	

2.5.2 Waste Removal

National Norms Standard on refuse Removal	At least once per week for private household. Up to three times a week for business, commercial and industrial households depending on the volume of waste generated.
Indicate the service levels adopted in relation to the SDF	At least once per week for private household. Up to three times a week for business, commercial and industrial households depending on the volume of waste generated. Indigent Households benefiting from the scheme on refuse removal is 14 326.
<i>Formal areas</i>	Refuse picked up on the pavement
<i>Informal areas</i>	Refuse picked up at the end of the street depending on the accessibility of the street.

Indicate areas without solid waste removal at all and reasons for lack of access.				
Ward	Name of Area or Settlement	Total no. of HHs	No of HH without access	Reasons for lack of service
None				

TABLE 18: REFUSE REMOVAL SCHEDULE

Indicate areas with solid waste removal and frequency of removal and reliability of service.				
Name of Area or Settlement	Total no. of HHs	No of HH with access	Frequency of service (e.g. daily, weekly etc.)	Reliability of Service
Kroonstad	4800	4800	Once per week	On regular basis
Maokeng	16340	16340	Once per week	On regular basis
Marabastad	1534	1534	Once per week	On regular basis

Indicate areas with solid waste removal and frequency of removal and reliability of service.				
Name of Area or Settlement	Total no. of HHs	No of HH with access	Frequency of service (e.g. daily, weekly etc.)	Reliability of Service
Brentpark	883	883	Once per week	On regular basis
Viljoenskroon	754	754	Once per week	On regular basis
Rammulotsi	5463	5463	Once per week	On regular basis
Steynsrus	348	348	Once per week	On regular basis
Matlwangtlwang	2522	2522	Once per week	On regular basis

Indicate other challenges not highlighted above:
Break downs of refuse compactor trucks leads to refuse not being removed on time. At some points when the trucks are broken the refuse will be left over for the following day. This leads to illegal dumping of refuse as members of the community do not want to keep refuse on their premises after the day of removal.

2.5.3 Waste Disposal

Indicate the status of waste disposal in terms of: transfer stations, landfill sites (status regarding licensing, compliance with license conditions, etc.) and transportation mechanisms. The construction of new landfill site in Viljoenskroon is in progress and as soon as it is operational, the old one will be demolished and rehabilitated.	The Kroonstad landfill site is not meeting the minimum operational requirements due to lack of personnel and equipment. The Steynsrus landfill site is operated and managed by a service provider and has been issued with a new operations license in April 2022. The Viljoenskroon landfill site is operated and managed by a service provider. The landfill site is licensed for closure and rehabilitation. This will happen immediately when the new landfill site is operational.
Indicate the resources available to support the delivery of the service in terms of: personnel, skills and other related requirements.	There is no Equipment available at all three Landfill site we are using contracted services Requisite personnel has since been appointed.

Indicate other challenges not highlighted above:
Shortages of vehicles and personnel

TABLE 21: STATUS OF HOUSING BACKLOG

Facility	Total No.	Total Backlog ²	Location name of each facility)	Status of support services			
				Water	Sanitation	Electricity	Roads
Clinics	11		Bophelong clinic Koonstad	✓	✓	✓	✓
			Brentpark clinic Koonstad	✓	✓	✓	✓
			Hill Street clinic Koonstad	✓	✓	✓	✓
			Lesedi CHC Koonstad	✓	✓	✓	✓
			PAX CHC Viljoenskroon	✓	✓	✓	✓
			Rammulotsi Clinic	✓	✓	✓	✓
			Sedibeng Sa Bophelo Steynsrus	✓	✓	✓	✓
			Seisoville Clinic Koonstad	✓	✓	✓	✓
			Thusong Clinic Koonstad	✓	✓	✓	✓
			Tshepong Clinic Koonstad	✓	✓	✓	✓
			Ango Maseola Clinic	✓	✓	✓	x
Hospitals	2		Boitumelo Hospital	✓	✓	✓	✓
			Kroon Private Hospital	✓	✓	✓	✓

Indicate other challenges experienced:

Shortage of Health personnel more especially Doctors.

² Backlogs or needs in relation to national norms and standards

2.5.4 Education

TABLE 22: STATUS OF SUPPORT SERVICES FOR EDUCATION

Schools	Total No.	Total Backlog ³	Status of support services			
			Water	Sanitation	Electricity	Roads
Primary (Farm Schools)	0		Boreholes	VIP toilets	Only a few	Only those next to National Roads are accessible
Primary	0		Accessible	Waterborne Sewerage	Accessible	Accessible
Secondary	0		Accessible	Accessible	Accessible	Accessible

Indicate other challenges experienced:

Most Primary Schools on farms have no access roads.

Platberg primary is situated next to LIONS enclosure which is not safe for children and staff.

³ Backlogs or needs in relation to national norms and standards

2.5.5 Safety and Security (Traffic, Fire Services, Disaster Management)

TABLE 23: STATUS OF SERVICES ON SAFETY AND SECURITY

Service	Sector plan		Status service ⁴	Backlogs/Needs	Challenges
	Availability (Y/N)	Status			

⁴ Refer to personnel, equipment, facilities, etc.

Traffic Police	No	NA	The service exists in Kroonstad, Viljoenskroon and Steynsrus	Additional Vehicles and Traffic Officers to adequately cater for the Section to be able to cater for the needs of the entire municipal area (including Viljoenskroon and Steynsrus) Keeping up with the traffic infrastructure maintenance regarding traffic signs and road markings	Shortage of Patrol Vehicles. A proper road marking machine.

Indicate other challenges not highlighted above:

There is still a challenge of providing a Law Enforcement service for 24 hours 7 days a week.

Vehicles and a shortage of Traffic Officers is a Challenge that inhabits provision of adequate services through three towns more especially visible policing.

Vehicles and a shortage of personnel on the Technical Team responsible for road markings and traffic signs.

Impoundment area for the impounding of un-roadworthy vehicles and vehicles related to crime.

Maintenance of robots by the Electricity Section as this hampers law enforcement and contribute to accident statistics.

Establishment and equipping of disaster emergency call centre. Procurement of equipment and fleet Placement of personnel at right positions.	Disaster Management is local municipality competency in line with compliance of Disaster Management Amendment Act.

⁶ Refer to personnel, equipment, facilities, etc.

Indicate other challenges not highlighted above:

There is currently no properly resourced Centre for Disaster Management within Moqhaka Local Municipality

Service	Sector plan		Status of service ⁷	Backlogs/Needs	Challenges
	Availability (Y/N)	Status			
Security Services	No	None	Good	Gradual recruitment of Peace Officers/Security to establish internal Security Services and law enforcement by 2026-2027. Establishment of proper equipped control room to interface with the community on matters of law enforcement Electronic Security system be installed. Need for Vehicle	Financial Constraints • Vehicles • Purchasing of latest technology to address cable theft

Indicate other challenges not highlighted above:

Community participation by assisting to increase petrol visibility on policing law Enforcement and to prevent vandalism of municipal infrastructure

The Establishment of law enforcement that will incorporate traffic management

⁷ Refer to personnel, equipment, facilities, etc.

2.6 Public Participation and Good Governance

2.6.1 Governance Structures

The Governance Structure of Moqhaka Municipality is informed by the Municipal Structures Act (Act 117 of 1998). This Act stipulates different roles and responsibilities that each structure within the municipality should perform.

2.6.1.1 Political Structure

Section 53 of the Municipal Systems Act (Act 32 of 2000) stipulates inter alia that the respective roles and areas of responsibility of each political structure and each Political Office Bearer of the Municipality and of the Municipal Manager must be defined.

The council performs both legislative and executive functions. They focus on legislative, oversight and participatory roles, and have delegated its executive function to the Executive Mayor and the Mayoral Committee. Their role is to debate issues publicly and to facilitate political debate and discussion. The council plays a very active role in the operations of the Municipality. Apart from their functions as decision makers, councillors are also actively involved in community work and the various social programs in the municipal area.

The Moqhaka Local Municipal comprises of 44 elected Councillors, 22 of which are ward councillor's and 22 proportional representation (PR). The portfolio committees are made up of councillor's drawn from all political parties.

The Council has an Executive Mayor, and its Mayoral Committee consists of the chairpersons of the various section 80 committees. The members of the Mayoral Committee each hold a direct portfolio as assigned by the Executive Mayor. Moqhaka Municipality has established nine committees in terms of section 80 of the Municipal Structures Act (Act 17 of 1998). The Portfolios assigned to the members of the Executive Mayoral Committee are as follows:

TABLE 27: EXECUTIVE MAYORAL COMMITTEE

Name of Member	Capacity
Mr M E Mokatsane	Executive Mayor
Mr R D Tau	Chairperson of the Finance Committee
Ms M A Khotle	Chairperson of the IDP Portfolio Committee
Mr T M Ntshala	Chairperson of the Technical Services
Mr L E Ramajoe	Chairperson of the LED Portfolio Committee
Mr SI Sasing	Chairperson of the Corporate Support Services Portfolio Committee
Mr M P Tshabalala	Chairperson of the Public Safety Portfolio Committee
Mr E M Phamotse	Chairperson of the Human Settlement and Spatial Planning Portfolio Committee
Ms M R Lulama	Chairperson of the Performance Monitoring and Evaluation Portfolio Committee
Mr BS Ramathibe	Chairperson of the Community Service Portfolio Committee

The portfolio committees' primary responsibility is to exercise oversight over the executive arm of the municipality's governance structure. These committees monitor the delivery and outputs of the executive and may request Directorates to account for the outputs of their functions. Executive Councillors account for executive decisions and operations performed in general policy framework agreed to by Council and although the portfolio committees play an oversight role, they have limited decision-making powers. These committees are responsible for submitting their reports to the Mayoral Committee.

2.6.1.2 Political Office Role Clarification

The roles and responsibilities of the political structures and political office bearers are stipulated in section 53 of the Municipal Systems Act. The roles of the Council, Executive Mayoral Committee and the Executive Mayor is summarised in the table below:

Council	Executive Mayor	Executive Mayoral Committee
- Governs by making and administering laws, raising taxes and taking decisions that affect people's rights. - Is a tax authority that may raise property taxes and	Is the executive and political leader of the Municipality and is in this capacity supported by the mayoral committee.	Its members are elected by the Executive Mayor from the ranks of councillors, apart from the Deputy Executive Mayor who is elected by the council and is an ex officio member of the

Council	Executive Mayor	Executive Mayoral Committee
service levies?	- Is the social and ceremonial head of the Municipality. - Must identify the needs of the Municipality and must evaluate progress against key performance indicators.	mayoral committee
- Is the primary decision maker and takes all the decisions of the Municipality except those that are delegated to political structures, political office bearers. - Individual councillors or officials; can delegate responsibilities and duties for the purposes of fast and effective decision making. - Must strive towards the constitutional objects of local government. - Must consult the community with respect to local government matters.	- Is the defender of the public's right to be heard. - Has many responsibilities with respect to the annual budget, the budget process, budget control and various other financial matters. - Perform the duties and exercise the responsibilities that were delegated to her/him by the council.	- Its functional responsibility area is linked to that of the Executive Mayor to the extent that s/he must operate together with the members of the mayoral committee. - Its primary task is to assist the Executive Mayor in the execution of her/his powers - it is in fact an extension of the office of Executive Mayor. - The committee has no powers on its own decision making remains that of the Executive Mayor.

2.7 Institutional Development and Transformation

2.7.1 Executive Management Structure

The Administration arm of Moqhaka Municipality is headed by the Municipal Manager, who has 5 Section 56 Directors who report directly to him.

Four of these positions are currently vacant and their occupants are in acting capacities, including the Municipal Manager.

FIGURE 2: ORGANOGRAM

The municipal manager as head of the administration is responsible and accountable for tasks and functions as provided for in Section 55 of the MSA, other functions/tasks as provided for in legislation as well as functions delegated to him by the Executive Mayor and Council. The Office of the Acting Municipal Manager consists of:

- Internal Audit and Risk Management.
- Performance Management and IDP; and
- Communication and Customer Relations

2.7.2 Departmental Functions

The functions of each of the departments can be summarised as follows:

2.7.2.1 Directorate: Finance

The core function of this Directorate is to ensure sound financial management. This directorate consists of the Director: Finance as head of the directorate who is responsible for:

- Budget and Expenditure
- Revenue Management^[SEP]
- Assets and^[SEP]
- Supply Chain Management.

2.7.2.2 Directorate: LED and Planning

The core functions of this Directorate is to promote economic development initiatives, SMME, sustainable job creation, poverty reduction and shared growth that integrates and connects the Municipality, its citizens and its natural resources. The Directorate is also responsible for housing, town planning and building control. The directorate comprises of the following departments:

- Economic Development
- Housing Administration and properties
- New Housing.
- Spatial Planning;
- Town Planning and Building Control

2.7.2.3 Directorate: Corporate Services

The Directorate is responsible for cultivating a culture of good governance and administration and prepare sound systems and structures in the achievement of Council's Strategic Objectives. The core function of the Directorate is therefore to ensure that administrative processes take place in an environment which promotes productivity. The directorate comprises of the following departments:

- Administration.
- Committee Services.
- Human Resources.
- Legal Services.
- Records Management.

2.7.2.4 Directorate: Technical Services

The core function of Directorate is to provide bulk infrastructure and services. The directorate comprises of the following departments:

- Civic buildings.
- Public works, which includes main roads, storm water and streets.
- Sewerage purification services.
- Sewerage reticulation services.
- Sewerage sanitation services.
- Water purification works.
- Water reticulation.
- Electricity distribution and street lighting.
- Management of the Workshop and Depot.
- Fleet Management.

2.7.2.5 Directorate: Community Services

This directorate is responsible for a variety of community services which include:

- Solid Waste Management which includes cleansing, refuse removal, street sweeping and.
- Management and maintenance of community halls, museums and municipal heritage buildings.
- Maintenance of parks, sports fields, recreational areas and maintenance of Public Open Areas.
- Municipal By-Law Enforcement
- Fire Fighting Services.
- Disaster Management.
- Traffic and Parking
- Cemeteries.
- Arts, Culture and Heritage.
- Biodiversity

2.7.3 Municipal Workforce

Based upon the strategic and policy decisions made by Council, the Management Team develops service plans for integration with other sectors within the strategy for the

Municipality. They must measure performance according to agreed indicators, analyse and report regularly. They inform decision makers timeously of any risk to service delivery initiatives and conduct reviews of service performance against plans before other reviews. The senior management team is supported by a municipal workforce of 961 permanent employees, which is structured in the various departments to implement the IDP strategic objectives.

Section 68(1) of the MSA states that a municipality must develop its human resource capacity to a level that enables it to perform its functions and exercise its powers in an economical, effective, efficient and accountable way. The organisational structure should be revisited after the approval of the IDP and budget to ensure that the municipality still deliver services in the most productive and sufficient manner.

The approved organogram for the municipality has 1 892 posts. The actual positions filled are indicated in the tables below by post level and by functional level. A total of 961 posts were vacant as at 25 March 2025, resulting in a vacancy rate of 51%.

Below is a table that indicates the vacancies within the municipality:

TABLE 30: VACANCIES WITHIN THE MUNICIPALITY

Department	Approved	Filled	Vacant
Office of the Executive Mayor	6	6	0
Office of the Speaker	9	9	0
Office of the Council Whip	2	2	0
Council Support	8	8	0
Office of the Municipal Manager	49	32	17

Total	1890	1002	889

System/Function	Y/N	Status
Information Technology	Yes	Staffed and functional
Availability of skilled staff	Yes	Skills audit process to be finalized
Organisational Structure	Yes	Structure reviewed and approved by Municipal Manager on the 12 November 2020
Vacancy rate	Yes	The municipality has a total of 1055 Vacant positions
Skills development plan	Yes	The municipality submits the WSP to LGSETA annually and is currently on the process of implementation
Human resource management strategy or plan	No	HR strategy currently under review to be aligned with the IDP
Individual performance and organisational management systems	Yes	Performance management system approved by council
Monitoring, evaluation and reporting processes and systems	Yes	The municipality is submitting monthly and annual reports on trainings implemented to LGSETA. Mid-year performance assessment report also in place for monitoring and evaluation

Indicate other challenges experienced:
Finalisation of skills audit.

The implementation of the Integrated Development Plan through the Services Delivery and Budget Implementation Plan needs to be supported by a well constituted human capital. To ensure that this is properly done and well-regulated the Minister of Cooperative Governance and Traditional Affairs promulgated the Municipal Staff Regulations in line with the Local Government: Municipal Systems Act, Act No 32 of 2000.

Section 5(1)(a) and (b) of the Regulations provide that , a municipality within its administrative and financial capacity-establish separate departments for-the development and town planning functions , the provision of municipal public works and basic services to communities, the provision of community services, the management of the municipality's finances, the provision of corporate support services and provide capacity to support the office of public office bearers and the office of the municipal manager.

A readiness report of the municipality on the implementation of the regulation was developed in May and the regulation implementation plan effective from the 01 July 2022 is herein presented.

Total (Gross Domestic Product - GDP)	9 193 254	9 123 894

2.9.2 Agriculture

Indicators	Name	Status	Challenges
Decrease in food	Food security	Community product: Livestock farming	No By-laws, no restriction on yield of grazing camps and no developing farming
Agriculture		Water catchment	Funds to support with JoJo tanks for the catchment of water to support the growing of vegetables.
		Awareness on vegetable growing	Awareness and Training, nothing is in place, skilled employees not on the current structure.
		Hydroponic culture-Commercial for growing vegetables, etc	Awareness, training and developing.
		Develop a seed banking system	Not in place

- Agriculture-Kroonstad is the center of a large agricultural community that plays an important role in the economy of the district. However, the recent past months saw many agricultural sectors in the whole province hid by severe drought that resulted in fewer crops and many people also lost their job. In terms of current plans underway within

MLM, supported by Fezile Dabi District, initiatives have been prioritized to grow the agriculture sector such as diversification of agricultural products; and introduction of high value crops.

- Mining-Mining remains one of the primary economic sectors within MLM through both De Beers and Lace Mine diamond within +- 15 KM from Kroonstad CBD. Both mines are now non-operational, and their closure brought about huge unemployment within the municipality. This negative impact we hope will be somehow reduced by programs related to the rehabilitation of Voorspoed mine, while engaging L D Mining on the possible reopening of Lace mine.
- Manufacturing- manufacturing through locally based small enterprises in for example agriculture has been identified as critical in growing the national export base necessary to grow the economy. The Free State has identified areas within agriculture machinery to grow and strengthen the manufacturing sector within Moqhaka.
- Electricity- Moqhaka has a power station which is not functioning to generate electricity. Investigations are underway for its optimum utilization. A metering system for water and electricity is in place and operational.
- Construction; Many SMMES continue to benefit in the construction sector through capital projects such as housing and road infrastructures. The council also need have the list of artisans and trades to support public infrastructure projects, the entities of which should be strengthened to access further opportunities within the private sector.
- Transport Services & Logistics - The Council provides public transport infrastructure through grant allocation for such facilities as taxi ranks, street furniture etc. the council is also However t not engaged in provision of public transport services. There is however a commuter rail line that has historically been one of the main sources of employment within the municipal jurisdiction. Opportunities exist for upgrade of the rail line with PRASA for especially freight goods associated with agriculture.
- Studies are currently underway to look into the feasibility of establishing an airport or a facility that can be used to service airplanes.
- Community services- job opportunities associated with the offices of the Department of Correctional Services and the School of Engineer's Military bases situated in Kroonstad play a huge role as contributors in this sector.
- Tourism Moqhaka is located within the northern part of the Free State Province, which is being promoted as one of the primary domestic tourism destinations for especially the "weekenders". Existing tourism products that would have to be further developed to achieve maximum value include those around the existing municipal nature conservation

and heritage sites such as the Vals River, Bloemhoek and Serfontein Dams renowned for water sports and the Vredefort Dome.

TABLE 31: JOB CREATION BY EPWP

Job creation initiatives by the municipality (Number of jobs created)	2024	2025

2.9.3 Summary of Spatial Development Framework (SDF)

Chapter 4 of the Spatial Planning and Land Use Management Act (Act 16 of 2013) require each sphere of government to prepare a spatial development framework that will, amongst others, guide planning and development decisions across all sectors of government. Section 26 of the Municipal Systems Act (Act 32 of 2000), as amended, also dictates that a municipality integrated development plan must reflect a spatial development framework which must include the provision of basic guidelines for land use management system. A Municipal Spatial Development Framework (MSDF) is a long-term forward planning document which spatially indicates the long-term growth and development path of a municipality. It co-ordinates the spatial implications of all strategic sector plans of a municipality. A MSDF is also one of the core components of a municipal IDP and gives physical effect to the vision, goals and objectives of the municipal Integrated Development Plan (IDP). The Moqhaka Local Municipality is currently reviewing its MSDF by following all the processes that are prescribed in terms of law. Once completed, the MSDF will be approved in terms of the Municipal Systems Act, 2000 (Act 32 of 2000) and will serve as a guide to decision making in development and land use planning.

2.9.3.1 Spatial vision

The current MSDF translates the current and the upcoming municipal IDP vision, namely, *“Moqhaka Local Municipality strives to be a Municipality that creates an enabling environment for socio economic growth and sustainable development.”* The MSDF long term spatial vision, 2030 for Moqhaka Local Municipality is “Moqhaka, as an integrated spatial unit, responsibly catering for all community development needs”. The following section presents the spatial development strategies that the Municipality will employ in order to achieve their long-term spatial vision.

2.9.3.2 Spatial Development Goals /strategies

1. Cross Cutting Goals

Continuous community consultation prior to any spatial framework changes should be adopted as a principle.

Revitalisation and re-population of the rural areas are considered as significant to enhance development of the region.

2. Core and Buffer

Developments aligned with environmental legislation and policy and cognisant of protecting the environment and the optimisation of natural resources.

To promote the optimal development and utilisation of the unique tourism potential of the Moqhaka region, whilst not compromising the outstanding universal value of the adjacent VDWHS and unduly impairing the safe, undisturbed and quiet enjoyment of the area.

3. Agricultural Areas

Enhancement of current predominant agro-industrial development focus, with access to agricultural land, commonage and all urban agriculture endeavours to the benefit of the broader community.

Responsible utilisation and control measures (carrying capacity) of commonage and agricultural resources and the protection of high potential agricultural land.

4. Urban related

Meeting SPLUMA requirements for spatial justice.

Employing norms and standards in ensuring the availability of amenities in all urban areas; restricting conversion thereof into other land uses.

Inclusionary housing developments must ensure differentiation in typologies and provide for densification and infill planning intercepting sprawl.

An integrated and efficient land use management system to be implemented, ensuring unhindered progression of the development processes.

5. Industrial Areas

Kroonstad will remain the primary industrial focal point of the region with strong agri-industrial focuses in Viljoenskroon and Steynsrus.

Continual expansion of the industrial zones must procure preference.

6. Surface Infrastructure and Buildings

Development should be feasible, especially in relation to the availability of infrastructure services.

- Access to services must be ensured to the broader community.
- Infrastructure and bulk service delivery must continually focus on:
 - a) eradication of backlogs.
 - b) maintenance.
 - c) upgrading.
 - d) new infrastructure to meet development needs; and
 - e) appropriate service provision to new precincts.

2.9.3.3 Spatial Concept and Desired Spatial Pattern

The municipal spatial framework is based on the six identified spatial strategies. The spatial concept and strategic framework outline the key spatial elements used to protect both the built and natural environment and guide the direction of growth. These key spatial concept elements are as follows:

- Walking distance
- Integration
- Densification and infill development
- Nodes

- Corridors
- Linkages
- Containment & Delineation
- Protection
- Lost Urban Space and Brownfield Regeneration
- Growth areas
- Commonage & Agricultural Land

1. Infill development and Densification

Densification is deemed a development objective to pursue a more compact and viable urban form, thereby facilitating medium to higher densities by means of infill development and densification. Predominantly low densification has taken place in most townships in Mophaka, this implies possibilities for growth through, amongst other, densification. In addressing a more sustainable urban form, densification; especially through higher residential densities and mixed used developments, associated with significant transportation arterials, remains a viable alternative in the larger urban area. Densification is generally feasible on existing properties and new developments and may well be accompanied by an increased number of units and/or population thresholds.

2. Corridor Development

Below are some corridor developments that are identified in the MSDF; however they are not classified as what type of the corridor they are.

1. The formal Smaldeel Road, stretching from the Viljoenskroon road, through Maokeng
2. Piet de Vries Avenue, extending through Marabastad
3. A main access road into Maokeng, from Piet de Vries traffic circle into Seeisoville
4. The link road between Maokeng and Brentpark
5. 11th Avenue via the industrial area to Brentpark
6. The northern trajectory of Noordweg is naturally developing as a development corridor, as it serves as a main access road from Viljoenskroon and Parys into the Kroonstad CBD, and due to the limited expansion possibilities within the existing CBD. The corridor is earmarked for business related development and probably mixed and higher density residential options. The CBD is similarly extending in a linear manner adjacent Reitz Street, as the main access road into Kroonstad, from the N1 National Road.

2.9.3.4 Summary of Development priorities

-
- Development of light industrial/ commercial park adjacent to the N1 corridor.
- Upgrading of the Kroonstad airport into national air freight hub.
- Exploring the possibility of reusing of the two power stations.
- Harnessing the potential of the railway infrastructure.
 - o Take an advantage location of the Vredeford Dome World Heritage Site – Tourism development (The potential of the areas regional economic value is yet to be exploited by the Municipality)
- development Agri-Industrial Park in Viljoenkroon and Steynsrus

- Formulate urban revitalisation or renewal strategies for the three central district businesses.
- Focus on developing a development corridor along the N1, R34, R76 and R721 routes and unlocking development along these corridors
- Diverse housing development opportunities
 - Infill Development and Densification strategies, including leveraging vacant and under-utilised land within serviced settlements.
 - Tertiary education facilities, including vocational and technical educational training (expansions)
 - Promote local economic development in the previously disadvantaged areas (deprivation areas).
- Development and management public open spaces
- Formulate Moqhaka Environmental Management Plan
 - Preservation and Protection of Heritage Assets (Focus on Heritage Planning) with the Jurisdiction of Moqhaka Local Municipality.
- Formulate Moqhaka Urban Management Plan and Implementation Plan
- Proper planning and management of all commonage land

2.9.4 Long Term Economic opportunities

1. The agricultural sector of the region, particularly in the Viljoenkroon area, is extremely prominent. The latter results in industrial development that is agricultural orientated.
2. Future economic growth in the agricultural sector exists, considering small scale processing industries and intensive farming activities where possible.
3. Gold is actively mined by Harmony Gold in the Vaal Reefs area (refer to Rural SDF Map). Three shafts are currently being mined, and the mining operations are considered, by the company, as a long-term mining endeavour.
4. The region, similar to the Fezile Dabi District, experienced growth as a weekend tourist destination - specific reference is made to game ranches and guesthouses on farms.
5. Supplementary development and effective marketing of the existing tourist destinations have potential for economic growth - reference is made to the Stokkiesdraai and Wawiepark resorts adjacent the Vaal River in the Viljoenskroon area and revitalisation of the Kroonpark resort as a favoured inland destination.

Community Development and Social Cohesion

2.10.1 Cemeteries

Status and availability of cemetery management plan	There is no approved cemetery management plan at this stage. The plan is being drafted and when completed it will be submitted to Council for approval.

Indicate the number of cemeteries, their location and capacity.

TABLE 32: MUNICIPAL CEMETERIES

Town	Cemetery name	Location	Capacity		
			Total No. of graves	Current usage No. of graves	Remaining capacity No. of graves
Viljoenskroon/Rammulotsi	Northleigh	Rammulotsi (Adults)	20 000	3217	16 873
		Rammulotsi (Children)	5000	84	4916
		Heroes Acre	5000	13	4956
	Rammulotsi	Rammulotsi	5856	5856	0
	HA Pieter	Rammulotsi	1192	1192	0
	Viljoenskroon	Viljoenskroon	2135	1871	264 booked
Kroonstad/Maokeng					
	Seisoville	Seeisoville	No records	No records	No records
	Wespark	Wespark	11 129	3148	2317
	Dinoheng	Gelukwaarts	33 498	24519	8979
	Boikgutsong	Brentpark	No records	No records	0
	Stilfontein	Gelukwaarts	5979	5979	0
	Military memorial garden	Marais street	6	6	0
	Newly discovered	Between FC&H bridge and Kroonstad Trekkerdienste	No records	No records	0
	Checkers	Checkers shopping centre	No records	No records	No records
	Brentpark	Brentpark	1609	1674	Not zoned
Steynsrus/Matlwangtlwang	Matlwangtlwang 1		No record	No record	No records
	Matlwangtlwang 2		No records	No records	No records
	Matlwangtlwang 3		19 302	778	18524

Town	Cemetery name	Location	Capacity		
			Total No. of graves	Current usage No. of graves	Remaining capacity No. of graves
	Steynsrus 1		2370	2370	0
	Steynsrus 2	Busy with EIA & development			

Status of operation and maintenance	
Name of cemetery	Status of operation and maintenance
Northleigh	Minimum maintenance, spraying weed killer
Rammulotsi	CWP assist from time to time.
Ha Pieter	CWP assist from time to time
Viljoenskroon	CWP assist from time to time
Seeisoville	Minimum maintenance. When funds are available for weed killer overgrowth can be control. There is no additional employment for the cleaning of the cemeteries.
Wespark	Using of weed killers.
Dinoheng	None
Boikgutsong	Done by weed killer when funds are available.
Stilfontein	Done by weed killer when funds are available.
Military memorial garden	None. The Commonwealth War graves Commission rent a service provider locally to do the maintenance on all war cemeteries
Concentration camp	The concentration camp does not belong to the Municipality
Newly discovered (Kroonstad)	None.
Checkers	None
Matlwangtlwang 1	Will clean with newly appointed employees
Matlwangtlwang 2	Will clean with newly appointed employees
Matlwangtlwang 3	Will clean with newly appointed employees
Steynsrus	Will clean with newly appointed employees

Backlog or needs in terms of national norms and standards:

Backlog on maintenance. Employment of temporary workers (youth) at a certain time can resolve the problem.

Status of other support services such as water, sanitation and roads:

Town	Cemetery name	Location	Water	Sanitation	Roads
Viljoenskroon/Rammulotsi	Northleigh	Rammulotsi	Yes	Yes	Yes
	Rammulotsi	Rammulotsi	None	None	None
	Ha Pieter	Rammulotsi	None	None	None
	Viljoenskroon	Viljoenskroon	Yes	No	Yes
Kroonstad/Maokeng	Seeisoville	Seeisoville	No	No	No
	Wespark	Wespark	At ablutions	Yes	Yes
	Dinoheng	Snake Park	At ablution	Yes	Yes
	Boikgutsong	Brentpark	No	No	No
	Stilfontein	Gelukwaarts	No	No	No
	Military memorial garden	Marais street	None	None	None

	Checkers	Checkers shopping centre	None	None	None
Steynsrus/Matlwangtlwang	Matlwangtlwang 1		No	No	No
	Matlwangtlwang 2		No	No	No
	Matlwangtlwang 3		Yes	No	Partly
	Steynsrus(Closed)		Yes	No	Yes

Indicate other challenges experienced:

Backlog or needs in terms of national norms and standards:

Backlog on maintenance. Employment of temporary workers (youth) at a certain time can resolve the problem.

Status of other support services such as water, sanitation and roads:

Town	Cemetery name	Location	Water	Sanitation	Roads
Viljoenskroon/Rammulotsi	Northleigh	Rammulotsi	Yes	Yes	Yes
	Rammulotsi	Rammulotsi	None	None	None
	Ha Pieter	Rammulotsi	None	None	None
	Viljoenskroon	Viljoenskroon	Yes	No	Yes
Kroonstad/Maokeng	Seeisoville	Seeisoville	No	No	No
	Wespark	Wespark	At ablutions	Yes	Yes
	Dinoheng	Snake Park	At ablution	Yes	Yes
	Boikutsong	Brentpark	No	No	No
	Stilfontein	Gelukwaarts	No	No	No
	Military memorial garden	Marais street	No	No	No
	Anglo-Boer War cemetery	Between Checkers and Kroon hospital	No	No	No
	Newly discovered	Between FC&H bridge and Kroonstad	No	No	No

Status of other support services such as water, sanitation and roads:					
Town	Cemetery name	Location	Water	Sanitation	Roads
		Trekkerdienste			
Steynsrus/Matlwangtlwang	Matlwangtlwang 1		No	No	No
	Matlwangtlwang 2		No	No	No
	Matlwangtlwang 3		Yes	Partly	Partly
	Steynsrus		Yes	No	Yes

Indicate other challenges experienced:

2.10.2 Sport and Recreation

Status and availability of sport and recreation plan (Sector Plan).	There is a draft policy for sports and Recreational policy which still need to follow the right procedure to be approved. This plan has been sent through to different stakeholders for their inputs and comments.

Indicate the number of facilities, their location and status (condition):

Stadiums				
Location	Name of Facility	Status (Condition)	Status of Operation and Maintenance	Challenges
Kroonstad	Loubserpark Stadium	Good	Good	None

Brentpark	Brentpark stadium	Upgraded but incomplete	Good	The stadium needs to be furnished and get it on national standard Water supply
Kroonstad-Maokeng	Seeisoville stadium	Very poor	Very poor	Not according to need and national standard
Kroonstad-Gelukwaarts	No name	Very poor	No basic services	Funds
Viljoenskroon		Very poor	Cutting of grass done	No fence, no access control
Matlwangtlwang	Matlwangtlwang	Poor	Poor	Due to absence of maintenance the stadium degenerated to non-existence

Stadium Backlogs:

Upgrading not on National standard, work half done at Brentpark, Gelukwaarts and Rammulotsi stadiums. Challenges related to water provision in Matlwangtlwang makes maintenance of this facilities all most impossible.

Indicate other challenges experienced:

Due to the low standard and status of sport facilities, the Municipality gave an impression that sport is of less importance. Therefore, the community lost interest into sport in general. This promoting crime etc. to the community.

Swimming Pools

Location	Name of Facility	Status (Condition)	Status of Operation and Maintenance	Challenges
Morewag-Kroonstad	Morewag s/pool	Average	Not on standard	It is an Olympic standard pool, nothing is working to promote the sport. Time touch system is

				not working.
Nyakallong	Nyakallong s/pool	Reasonable	Reasonable	Security and no access control.
Brentpark	Brentpark s/pool	Poor	None	Pool was upgraded with wrong tiles, and the filter and cleaning system is not working.

Swimming Pools Standards:

There are no projects on the said that is Brent Park swimming pool and Kroonpark pools and they on standard.

Indicate other challenges experienced:

Morewag s/pool is an Olympic standard pool, but poorly maintained.

Community Halls

Location	Name of Facility	Status (Condition)	Status of Operation and Maintenance	Challenges
Seeisoville	Seeisoville Hall	Poor	Reasonable	Needs upgrading
Seeisoville stadium	Seeisoville stadium Hall	Very Poor	Very Poor	Heavily vandalised.
Constantia	Constantia	Poor	Reasonable	Needs upgrading
Brentpark	Brentpark	Poor	Reasonable	Needs upgrading
Nyakallong	Nyakallong	Poor	Reasonable	Needs upgrading
Kroonstad	Loubserpark	Above average	Reasonable	Needs upgrading
Viljoenskroon	Viljoenskroon	Poor	Reasonable	Needs upgrading
Rammulotsi	Tshepahalo hall	Average	Reasonable	Renovated
Steynsrus	Town Hall	Poor	Reasonable	Needs upgrading
Matlwangtlwang	Marlwangtlwang	Poor	Reasonable	Needs upgrading

Community Halls Backlogs:

In a very poor condition. Roofs are leaking, the ablutions of some of the halls are in a terrible stage.

Parks				
Location	Name of Facility	Status (Condition)	Status of Operation and Maintenance	Challenges
Elandia	Elandia	Poor	Poor	Lack of water
Suidrand-informal	Siudrand	Poor	Poor	Poor

Parks Backlogs:
No development due to a lack of funds

Resorts				
Location	Name of Facility	Status (Condition)	Status of Operation and Maintenance	Challenges
Maokeng	Nyakallong Resort	Phase 1 renovation completed.	Facility is underutilised and needs upgrading of entertainment facilities and maintenance.	Fencing is Completed
Kroonstad	Kroonpark	Operational and undergoing renovation which has started with challets.	Maintenance is ongoing.	Upgrading the entire resort to make it more attractive.

Indicate other challenges experienced:
The facility needs to be fully operational and turned into youth centre to cater for a variety of youth activities.

Theatres				
Location	Name of Facility	Status (Condition)	Status of Operation and Maintenance	Challenges

Theatres				
Location	Name of Facility	Status (Condition)	Status of Operation and Maintenance	Challenges
Kroonstad next to Municipal Office Complex.	Kroonstad Civic theatre	Infrastructures dilapidated	General minimum maintenance	Insufficient funds and ageing infrastructure

Theatres Backlogs:
Dilapidated infrastructure and outdated equipment.

Indicate other challenges experienced:
Inadequate funds, unconducive environment for production and the organogram not in line with the required Standard of operational for production. Outdated equipment and decay infrastructure eg: leakage of the infrastructure during the rainy season.

2.11 Global Warming (Climate Change)

2.11.1 Biodiversity

Indicators	Name	Status	Challenges
Biodiversity Management plan & Climate change plan	By-laws and Policies	Not in place	The function was approved in the 2020 structure. Arboriculturist needs to be appointed as a matter of urgency.
Water catchment forums	Water catchment forum	None	To promote the importance hereof
Greening	Planting of trees	Low	. Propagations of trees need to be done by seed for sustainability by the Municipality. Required skilled people needs to be appointed.

Chapter 3: Housing Sector Plan Review

3.1 Background

The Moqhaka Local Municipality is embarking on a review process of the Housing Sector Plan that was prepared (2019) and adopted by Council in 2021. This report aims to focus on key changes since the initial comprehensive document was concluded and should therefore be read in conjunction with the “Moqhaka Municipality Housing Sector Plan 2019”.

3.2 Purpose

The Moqhaka Local Municipality (MLM) Housing Sector Plan (HSP) is a five-year strategic plan that will guide transformation of the existing Settlements and development of new Sustainable Human Settlements in accordance with the Constitution of the Republic of South Africa, national policy on human Settlements and development agenda of the Municipality. The municipality will review the HSP annually in response to changes government policy, development trends, progress made in the implementation of the plan and emerging (new) human Settlements needs. It satisfies the requirements of Section 9(1) of the National Housing Act, (Act 107 of 1997) which requires the municipality to take reasonable and necessary steps, as part of integrated development planning process, to enable adequate access to housing for people residing within the municipality's area of jurisdiction by:

- setting housing delivery goals;
- identifying suitable land for housing development;
- undertaking spatial planning and obtaining all the relevant statutory approvals; and
- facilitating, initiating and coordinating housing development within its area of jurisdiction.

The Moqhaka Municipality HSP accords with the national policy on the development of sustainable human Settlements, responds to the housing issues facing the municipality and repositions the municipality to address these issues effectively in the pursuit of the ideal of sustainable human Settlements.

3.3 Moqhaka Local Municipality

The MLM is a Category B municipality situated within the southern part of the Fezile Dabi District in the Free State Province. It covers an area of approximately 7 925km². It is the largest of the four municipalities in the district and covers about a third of the district's geographical area. The major towns in the MLM are Kroonstad, Viljoenskroon, Steynsrus, Vierfontein and Renovaal. Primary access to the municipality occurs through Provincial Roads P15/1 and P15/2 which runs through the area in a north-south direction (refer to Map 1).

The municipality share borders with Ngwathe Local Municipality to the east, Nala Local Municipality and Matjhabeng Local Municipalities to the west, Setsoto Local Municipality and Nketoana Local Municipalities to the south, and North-West Province to the north. The population of the municipality has decreased from 167 892 in 2001 to 160 532 persons in 2011 and 154 732 in 2011 2021 Boundary Statistics has placed Moqhaka population at **160 532**. This is slight increase of 5 800

MAP 2: MOQHAKA LOCAL MUNICIPALITY

Urbanization) is also the Province. 78% of the MLM population resides in the urban component of the municipality and the remaining 22% is in the rural part of the MLM. Notwithstanding this, Kroonstad is the centre of a large agriculture community that plays an important role in the economy of the MLM and the district.

3.4 Defining the Concept “Human Settlements”

The MLM IDP adopts the notion of sustainable human settlements as an overarching approach and strategic framework for addressing housing needs and issues within

the municipality. It perceives housing as a basic human right that must meet the basic needs of people at both household and community level.

The national government defines sustainable human settlements in the Breaking New Ground (BNG) policy, as:

“well-managed entities in which economic growth and social development are in balance with the carrying capacity of the natural systems on which they depend for their existence and result in sustainable development, wealth creation, poverty alleviation and equity”.

The main criteria for the development of sustainable human settlements that break away from past practices are ecological sustainability, economic sustainability, social sustainability, technical sustainability, institutional sustainability and political sustainability. The fundamental tenets of human settlements are basic services, security of tenure, social facilities and shelter.

Human Settlements are the spatial dimension as well as the physical expression of economic and social activity. Access to employment opportunities and sensitivity to biodiversity enhances the sustainability of human settlements. Sustainable human settlements, therefore, define and condition the relationship between where people live, play and work on the one hand and how this occurs within the confines of the natural environment on the other.

3.5 Aim and Objectives of the MLM HSP

The MLM HSP is a component of the Integrated Development Plan. It provides a strategic framework for addressing housing backlog and coordination of service delivery programs towards the ideal of sustainable human Settlements. This includes unlocking economic opportunities, improving access to basic services and public facilities, and securing land tenure rights. Its objectives are:

To ensure that human Settlements planning reflects a broad range of community level needs and concerns and is based on credible data;

To align the municipality's plans with national and provincial human settlements plans and priorities;

To inform provincial multi-year and annual performance plans and budgets;

To provide for a coordinated response to urbanisation processes within the MLM;

To develop an institutional structure and unpack clear roles and responsibilities of relevant stakeholders critical to achieving integrated human settlements planning; and

To reposition the municipality to implement the human Settlements programme efficiently and effectively within the national policy framework and provincial programme of action.

3.6 Housing Need and Supply Analysis

The need for housing is one of the key challenges facing the MLM Municipality and South Africa generally. It arises partly, from migration from rural to urban areas, changes in the population structure and household economic situation, but it is mostly a consequence of the injustices of the past apartheid governance and spatial planning. This situation persists despite new policies and legislation ushered in since the dawn of democracy in 1994.

While the housing backlog is a shifting target, the government has made substantial progress towards the realisation of Section 26 of the Constitution of South Africa "the right to adequate housing for all" in the Moqhaka Municipality. It has created opportunities through the introduction and implementation of a range of housing subsidies, spatial planning and actual delivery of housing units for the benefit of the poor and needy.

3.7 Population Dynamics

3.7.1 District Population Distribution

The Moqhaka Local Municipality with a total population of **160 532 (Source: Stats SA, census 2011 on 2021 boundaries)** people accounting for 31% of the Fezile Dabi District Municipality population. The remaining 69% is split unevenly among Metsimaholo Municipality, Ngwathe Municipality and Mafube Municipality which contributes 33%, 24% and 12% respectively (Stats SA, 2016). Therefore, Moqhaka Municipality has the second largest population in the district.

GRAPH 13: POPULATION DISTRIBUTION BY GENDER PER WARD

Population Distribution by Gender per ward. Source: Stats SA, Census 2011 on 2021 boundaries

3.7.2 Backlog

The MLM IDP (2017/2022) estimated housing backlog to **19 348** housing units distributed unevenly among the four major settlements within the municipality with the majority being in Maokeng and Brent Park. Rammolutsi has a backlog of 3 354 units while Kroonstad and Viljoenskroon have a backlog of 500 and 200 units respectively. The housing backlog for MLM is based on the waiting list started in 2006.

Since 2017 to date the Municipality with additional support from the Provincial Department of Human (PDHS) Settlements has made significant progress in reducing the Housing need in line with the delivery of sites allocated and housing units constructed by the PDHS. This can be demonstrated in the table and chart below.

TABLE 33: NUMBER OF SITES ALLOCATED FROM 2017 TO DATE

AREA	NUMBER OF SITES ALLOCATED
Kroonstad/Maokeng/Brentpark	251
Viljoenskroon/Rammulotsi	598
Steynsrus/Matlwangtlwang	607
TOTAL	1 456

GRAPH 14: NUMBER OF SITES ALLOCATED

Chart 2: Number of sites allocated from 2017 to date

The above illustrations above indicates that, although there is slight progress on housing delivery, more can be done in reducing the housing need in the Municipality. The municipality is also faced with challenges that impede on making an impact in reducing the need. One of the challenges in some of the areas is lack of bulk infrastructure which if sufficient would unlock a lot of housing opportunities for the residents of the municipality.

Moqhaka Local Municipality's housing need can now be estimated as **17 892**. It should be noted that the Census that is currently taking place will also provide close to accurate statistical information as far as the need is concerned (using the number of informal dwellings/traditional dwellings/backyard dwelling and other).

The trend has also been that the household size is shrinking this could cause an increase in the housing backlog/need within the municipality.

3.7.3 Housing Situational Analysis

Status of sector plan (Housing Sector Plan)				To be updated
National target for housing service ⁹				
Approved service level/standard for municipality ¹⁰ :				
Total HHs	RDP	and	Below RDP ¹¹	No service ¹²
				Interventions required to

⁹ For example: 100% access by all HHs by 2015

¹⁰ For example: 45m² brick dwelling.

¹¹ Part of backlog

	above			address backlogs
45661	33 400	12261		Provision of bulk infrastructure services

What are the reasons for HHs without access or below RDP access?¹³

Lack serviced residential erven, erven are planned and surveyed but without infrastructure services.

Name of Area or Settlement	No of Housing Backlog	No of Identified Housing Needs
Kroonstad	500	
Maokeng and Brentpark	14 234	
Rammolutsi	3354	
Matlwangtlwang	1060	
Viljoenskroon	200	

Indicate other challenges not highlighted above:

Provision of bulk infrastructure
Extension of bulk water services

3.7.4 Informal Settlements

The MLM, with the assistance of the HDA, identified 6 informal settlements within the municipality area of jurisdiction, and developed an informal settlement upgrading programme (refer to table 2 below). The latter recommended that these settlements be relocated as they are located in areas that are either unsuitable for the development of human settlements or are set aside for other land uses or the land is in private ownership and not available for *in-situ* informal Settlements upgrading.

TABLE 34: INFORMAL SETTLEMENTS IN MOQHAKA.

INFORMAL SETTLEMENTS	NO OF HOUSEHOLD	FARM/TOWNSHIP

¹² Part of backlog

¹³ For example: no bulk infrastructure, no reticulation infrastructure, ageing infrastructure, lack of capacity, provincial competence etc.

Brickfields/Marabastad informal Settlement	150	Maokeng/Kroonstad
Block A informal Settlement	78	Matlwangtlwang/Steynsrus
Block B informal Settlement	159	Matlwangtlwang/Steynsrus
Block C informal Settlement	22	Matlwangtlwang/Steynsrus
Block D informal Settlement	25	Matlwangtlwang/Steynsrus
Block E informal Settlement	15	Matlwangtlwang/Steynsrus
Total	449	

(SOURCE: HDA MOQHAKA INFORMAL SETTLEMENTS UPGRADING PROGRAMME)

The two informal Settlements that requires upgrading are Matlwangtlwang in Steynsrus that consist of 205 households and Brickfield consisting of 27 households.

There is a clear plan underway of creating sites in Matlwangtlwang for the upgrading of informal settlements, through consolidation, rezoning and subdivision of erf 1396 and erf 3358 Matlwangtlwang, respectively. The prospective project is envisaged to yield about 290 sites which will absorb all the five (5) informal settlements in the area.

3.8 Conclusion

Stakeholders such as the Provincial Department of Human Settlements in collaboration with the Municipality must respond positively to challenges in housing to create sustainable housing opportunities to reduce if not eradicate the housing need. Co-operation from government departments has generally been good and the assistance and guidance from the Department of Human Settlements is appreciated.

Chapter 4 Ward Analysis

4.1 Introduction

The IDP is about determining the stakeholder and community needs and priorities which need to be addressed to contribute to the improvement of the quality of life of residents within the Municipal Area.

Various stakeholders and sector departments were involved during the IDP development process, and this process comprises 23 ward meetings and 1 sector related meeting. The Municipality has developed 23 Ward Development Plans through public meetings that were held in all wards. Ward Development Plans include an analysis of the ward, needs identification, and plans to address priorities, support needed from the Municipality and other stakeholders involved in the IDP process.

The Municipality has also partnered and conducted different engagements that have been introduced in the province such as Provincial IDP Managers Forum and the District IDP Managers Forum. The IDP meetings contributes in finding solutions by reaching agreements with sector departments on enhancing service by addressing community issues that are specific- sector related. IDP priorities have been derived from the priorities from the wards, as have many elements of the plans, as well as IDP projects.

The wards illustrated above can be described as follows:

TABLE 35: WARD DESCRIPTION

Ward	Description
Ward 1	Matlwangtlwang

4.2 Population Statistics per ward

4.2.1 Population and Gender Distribution per ward

The population distribution in the municipal area is shown in the figure below.

GRAPH 15: TOTAL POPULATION BY POPULATION GROUP

Africans are 87.19% and Coloured 2.86% of the total population. Indian/Asian are 0.33% and whites make out 9.32% of the total population. The population distribution per ward in the municipal area is shown in the table below. The female population is 50.49% of the total population. The population per population group and gender per ward is shown in the table below.

4.4 Community and Stakeholder Engagements

The objective of the meetings was to inform the Community, Businesses and Stakeholders about the Draft IDP and to gain input into the Draft IDP 2022/2027. Issues and priorities raised are used to develop the ward development plans for each ward as set out below.

4.4.1 Ward Development Plan: Ward 1

MAP 3: WARD DEVELOPMENT PLAN- WARD 1

2022/2027

TABLE 42: WARD 1 – WARD PRIORITIES

Water	Water channel must be developed

	▪ Need to improve the current water supply ▪ Water supply needed 24/7
Roads and Storm Water	▪ Roads are bad need to be maintained by re-gravelling ▪ Need for roads and streets to be paved
Electricity	▪ Street light are needed ▪ Eskom poles need to be replaced ▪ High mast light be maintained
Housing	▪ Need of sites ▪ Church sites are needed
Health	▪ Clinic is needed and work for 24hours
Safety and Security	▪ Need of Police Station.
Sports and Recreation	▪ Gravelling of informal Sports grounds.
Sanitation	▪ Completion of sewer system in ward One. ▪ Fixing of sewer network system ▪ Completion of sewer system ▪ Wastewater Treatment plant is needed ▪ Dry sanitation toilets be removed in both wards
Other	▪ Government Department must have satellites of all offices around
2023/24	
water	▪ Needs Bulk Water Supply
Sanitation	▪ Wastewater treatment plant be covered
Housing	▪ Needs for business and residential sites
2024/2025	▪
Water	▪ Bulk water supply

2025/2026	
Water	Bulk Water Supply Bohol's be repaired
Sanitation	Need for proper sewerage System Need for ablution facility at old location
Electricity	Need for High mass light
Housing	Need for houses.
Disaster	Need to fix the Houses that are destroyed by disaster.

4.4.2 Ward Development Plan: Ward 2

MAP 4: WARD DEVELOPMENT PLAN- WARD 2

2022/2027

TABLE 43: WARD 2 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Water channel must be developed. - Sewer system be fixed. - Storm water drainage is needed.
Roads	- Roads need to be gravelled. - Mphefela need paving.
Road and Storm Water	Need of bridge that link Winnie Mandela to Mphefela
Electricity	- Electricity is needed at Jaskraal farm - Need of high mast light - Maintenance of street light
Housing	- Need for residential sites. - Need of RPD's. - Relocation of Marikana people to new sites.
Health	- Clinic is needed and work for 24hours - Need of mobile at farms.
Safety and Safety	Need of police station.
Sports and Recreation	Maintenance of stadium .
Sanitation	Need of Toilets .
Other	- Jobs are needed. - Allocation of land for animal owners.
2023/24	
Road	- Road to Serfontein dam needs to be graded/ fixed. - two bridges link Winnie Mandela to Mphefela - Road be paved Mphefela Location

Focus Area	Development Needs
	- Roads need to be gravelled. - Roads need to be paved.
Water	- Water storage in Steynsrus need to be upgraded including boreholes. - RDP Houses needs water.
	Serfontein dam should be deepened to store more water.
Sanitation	- Ablution facilities needs attention
Housing	- Need for Sites Allocation - Relocation of Marikana Site to new Site
Electricity	- Needs for high mass light oorskiet Plot - Need for Street light in town and maintenance
Others	- Fixing of Stadium - Mobile Clinic 24 Hour Local clinic - Allocation of land for animal owners
2025/2026	
Water	Need for Bulk water supply
Sanitation	- Need for proper sewerage System - Need for ablution facility at old location
Electricity	Need for high mass light
Housing	Need for houses
Disaster	Need to fix the Houses that are destroyed by disaster.

4.4.3 Ward Development Plan: Ward 3

MAP 5: WARD DEVELOPMENT PLAN- WARD 3

2022/2027

TABLE 44: WARD 3 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Replacing of old asbestos pipe with PVC's pipe - Water loss needs to be curbed
Road and Storm Water	- Streets need to be paved or tarred. - Van Heerden, Kemsley, Glaser, Davis street needs reconstruction and maintenance attention.

Focus Area	Development Needs
Sports and Recreation	▪ Need for a recreation facility. ▪ Park be turned to business opportunities
Education	▪ Extension university needs to be prioritised.
LED	▪ Businesses stalls for Youth be established near the Morewag swimming pool. ▪ Car Washer's and others. ▪ Correctional Service must source local People for all their Tenders. ▪
2023/24	
Water	
Refuse removal	▪ Place put Skipeeze containers at illegal mini dumping sites.
Roads and Storm water	▪ Maintenance of the following streets, Smuts, Du Plessis, Van der Merwe, Fourie, Du Toit, Meyer Senekal and Noordweg. ▪ Street be refurbished according to priority -stewart str first followed by Alwyn Schiebush (contractors to be held responsible damaged caused on R76 refurbishment) Meyer Str from Brits Str up to Stewart
Sanitation	▪ Refurbishment of the Ben Mervis sewer line.
Electricity	▪ Power Station to refurbished. ▪ High mass light at the corner Ras Van Niekerk and Zuma Park curve on the R76. ▪ Streetlight to be converted to solar light. ▪ Residents to be able to buy electricity directly to Eskom. ▪ A solar farm be created to help with Electricity. A solar farm should be created to help with electricity in

Focus Area	Development Needs
	Kroonstad.
Sports and recreation	▪ Upgrading of outdoor gyms ▪ Refurbishment of the Ben Mervis collapsed sewer line. ▪ Centre for sports and recreation. Wellness centre in Morewag. The swimming pool should include a gym. ▪ The park near voorwarts should be converted in to a Sports Centre. Both parks in Meyer in and Hardley Streets should be converted into a Sports ground.
LED	▪ Youth employment opportunities CWP/ EPWP ▪ Tenders not to be outsourced and local people be employed. ▪ Ward based budgeting to be used for projects ▪
Other	▪ High level of crime-Stealing cables ▪ All other projects placed on the IDP in 2022 to remain on the list of projects ▪ General- Residents are very concerned that no projects is happening in ward 3 and none of the projects listed in IDP receives attention.
2024/2025	Development Needs
Roads	▪ Needs for roads to be maintained ▪ Potholes be closed ▪ Kemsley Street be refurbished ▪ Ben mervis ▪ Alwyn slchebush ▪ Davis and Glasses Streets ▪ Hertsog Street

Focus Area	Development Needs
	▪ Meyer Street ▪ Senekal Street ▪ Connector roads to Trio high school
Sanitation	▪ Pipe burst be closed properly after work. ▪ Main holes be opened
Parks and Recreation	▪ That all grass be cleaned in the open spaces ▪ Parks be converted into Sport grounds.
Electricity	▪ High must lights be placed at Ras vanierk street ▪ Electricity poles be maintained. ▪ Streets lights be maintained
2025/26	▪
Water	▪ Need for water connection be done on new development site. ▪ Need for clean water.
Roads and stormwater	▪ Need for a reservoir to supply the new development ▪ Potholes be closed. ▪ Need for fencing on R76 Roads next to new development site.
Electricity	▪ Need for high mass light next to land bou ▪ Need for solar bulbs on electric poles ▪ Mini Substation at Van Heerden Street be cleaned.

4.4.4 Ward Development Plan: Ward 4

MAP 6: WARD DEVELOPMENT PLAN- WARD 4

Inputs from the community Ward 04

2022/2027

TABLE 45: WARD 4 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Maintenance of Bore holes. - Installation of new water channel.
Roads	- Upgrading of roads 15226 to 15266 to 15269` Streets - Paving of Streets,15940 to 15760 and 15371 to 16541,15156 to 15254. - All Plots, Irene ,David Malan ,Debidos needs maintenance at the entrance.
Road and Storm Water	Request for storm water channels.

Focus Area	Development Needs
	Request for the bridge.
Electricity	- Upgrading of the transformer. - Two high mast lights for Plots. - Maintenance of the high mast lights. - Requests for Solar lights.
LED	- Request for Business Sites - Request for Skills development and Training, Business Agriculture. - Job opportunities for Women and Youth.
Housing	- Sites for both Communal and Churches - Need for RDP Houses and Title deeds
Safety and Security	Request of Police Station
Sports and Recreation	- Request for Sports and Art Centre - Establishment of a Park
Sanitation	- Upgrading and maintenance of sewerage network. - Maintenance of toilets in the David Malan and Irene Plots.
Education	- Need for the Primary and Secondary Schools. - Need for a hostel or school for Farm Youth Learners.
Other	Need for training in Project Management and IT support by National Youth Service Training.
2023/24	
Housing	RDP house that is falling needs to be Fixed.

Focus Area	Development Needs
	Committee be established to facilitate occupation of plots in collaboration with Municipality.
Sports and recreation	Cutting of grass at open spaces.
Sanitation	Needs for ablution facility.
2024/25	Development Needs
Water	- Needs for at household 15624 - Water pipes be fixed at Irene plot - Need for Water - Water meters be attended after replacement.
Roads	- Paving be done at ward 4 - Grading of streets
Housing	Housing and sites be allocated
health	Needs for clinic
2025/26	
Roads	- Need paving and G5 in all street at when it rains people are walking on mad - Road infrastructure be done
Roads and Storm water	Need to build water Channel
Electricity	Need for High mass lights
Safety	Need for Police station
Revenue	- Need for installation of water meters - Rates paid by community member are high
Housing	House owners be serviced accordingly.
Parks	Need for cutting of trees to promote safety for residents.

4.4.5 Ward Development Plan: Ward 5

MAP 7: WARD DEVELOPMENT PLAN- WARD 5

2022/2027

TABLE 46: WARD 5 – WARD PRIORITIES

Focus Area	Development Needs
Water	▪ Maintenance of leaking of water meter stop cocks
Roads	▪ The road to graveyards must be tarred ▪ Need paving at Sipho Koekoe street
Road and Storm Water	▪ Paving from 14658 to 14939,14914 to 14768 ▪ Paving 13160,13298,13406&13454 ▪ Need of Speed hump from 13723- 14883
Electricity	▪ Need for a high mast light. ▪ Maintenance of streetlights which are not working.
Housing	▪ Need of sites. ▪ Need of RDPs.
Sports and Recreation	▪ Gravelling and maintenance of existing Sports facilities.
Sanitation	▪ Upgrading of sewer network pipes.
Other	▪ Satellite Police station is needed. ▪ Need for a 24h Clinic. ▪ Cutting of grass at open spaces. ▪ Maintenance of Solar geysers which are not working
2023/24	
Sports Arts and Culture	• Need of Community Hall
Security	▪ Permanent Police station ▪
Roads and stormwater	▪ Need of paving from 1067 next to power station ,13250-13227 need paving,13160-13406 need also paving

Focus Area	Development Needs
	- Needs for Speed hump at 13723 - The road to graveyards must be tarred - Need paving at Sipho Koekoe street
Sports Arts and Culture	Need of Training Centre
Health	Need of Clinic
Other	Primary School and Secondary School
2024/2025	Development Needs
Roads	- Paving from 13250 to 13270 - Paving Starting from Masahleng to power station - Speed humps be done on the smaaldeel road from ha Siphokoekoe till graveyard area - Paving from 14707,14914,14763 and 14781 - Paving 14658,14707,14768 14781,147871,14849,14914 - Paving from 13160,13600, 13406,13610
Education	- Training centre Community Hall - Community hall - Primary School - Secondary School
Sanitation	That Municipality provides every household with refuse bins
Sports Arts and Recreation	Sports centre be completed
Safety	Needs for Police station
Planning	Street names be done
2025/2026	
Roads	- Need paving 13160,13298,1306,13454 10670 to 13825

Focus Area	Development Needs
	13600 to 13610
Health	Need for Clinic
Education	Need for Primary School
Safety	Need for Police Station

4.4.6 Ward Development Plan: Ward 6

MAP 8: WARD DEVELOPMENT PLAN- WARD 6

2022/2027

TABLE 47: WARD 6 – WARD PRIORITIES

Focus Area	Development Needs
Roads and Stormwater	▪ Upgrading of Vlei Area with 3 Bridges is needed. ▪ Need bridge next to Petty's Tavern and BP garage. ▪ Bridge between Koekoe Village and Constantia. ▪ Bridge next to Maokeng School. ▪ Lechalabe tavern block ,Garden Inn's tavern Block 10626 to 10463
Electricity	Need of high mast light next to Choppies Shopping Complex.
Housing	Need for title deeds. Need for Site and RDP's.
Safety and Security	Need of Police Station.
LED	Business workshops for Youth, Women and SMME's. Establishment of Business Hub.
Health	Need for Clinic.
Sports and Recreation	Need for Sport centre. Maintenance of Sports facilities.
Other	Job creation projects.
2023/24	
Roads and stormwater	▪ Upgrading of roads from number 16660 to 16676 paving (Block A),16701 to16716,16656 to16736 ▪ Upgrading of roads (Block B) ▪ Upgrading of roads (Block)14036 to14085 ,10528,to 1058 to 1064 need paving ▪ Paving and storm water channel from 106660 to

Focus Area	Development Needs
	10857,14036 to 14098,10671-10660
2024/2025	Development Needs
Roads	Project of vlel area must be upgraded. Humps be made on the busy roads Paving be done from 11374,11244 and 11170 covers all the entire lock. Needs to gravel the streets 11141 to 11149 to avoid flooding Storm water drainage be improved. Flooding street be gravelled 10333 and 10591.
Sports and recreation	Needs for Park for children
Health	Needs for Clinic
Sanitation	Needs that open bridges be closed
2025/2026	
Housing	- Need for sites - Need for RDP
Sports and Recreation	Need for sports facilities for kids
LED	Need to be trained in agricultural activities i.e farming and business.
Others	- Need for employment opportunities for youth - Youth be considered in the municipal projects
2025/2026	
Roads	- Need to paving St John street. 10941,10951,10917,10928,10832,10844,10831 10819,10807,10818,10766,10789,10886,10895 10885 to 10896. - Need to gravel the street from 11141 to 11149 to avoid flooding - Need to gravel the street from 11141 to 11149 to avoid flooding - Need paving block 10987-11087, 10986-10967

Focus Area	Development Needs
	11049-11020,11152-11134 Block F 10674-10693,10705-10716,1075110764 Block H 14099-14116,14144-14132,14156-14166 14174 14179 14190-14199,14208-14215,14230- 14237 curve (14221-14229 curve) 14238-14241 10660-10671
Roads and stormwater	▪ Need for Bridge at the vlei area between Maokeng school and block A need to be build
Electricity	▪ Upgrading of new transformers ▪
Housing	▪ Need for Title deeds ▪
Health	▪ Capacity at Clinic need to be enhanced with personnel and space
Safety and Security	▪ Need for Police station urgently.

4.4.7 Ward Development Plan: Ward 7

MAP 9: WARD DEVELOPMENT PLAN- WARD 7

2022/2027

TABLE 48: WARD 7 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Need for tap running water at Naledi Trust - Upgrading of water reservoir - Upgrading of water channels

Focus Area	Development Needs
Stormwater	▪ Need for paving in Koekoe Village ▪ Bridge between Koekoe Village and Lovedale Primary school be erected for kids safety during rainy season. ▪ Needs for paving at Koekoe village ▪ Construction of bridge at the entrance of Nyakallong resort. ▪ Paving of four 4 internal streets 2711 to 2794 ▪ Paving of connector roads that links Bester to Smaldeel and Snake park cemetery. ▪ Need Pavin ▪ Proper drainage System to direct storm water away. ▪ House 12405 and 12406 ▪ House 12437 and 12438 ▪ House 12477 and 12478 ▪ House 12516 and 12517 ▪
Electricity	▪ Need for electricity transformer for Snake Park Area. ▪ Request for high mast lights ▪ Maintenance of streetlights
Housing	▪ Need for sites ▪ Need for RDP's with toilets
Health	Upgrading of Tshepong Clinic
Safety and Security	Need for Police Station in Snake Park
Sports and Recreation	▪ Need for community centre and recreational facility for sports tourism behind Bester. ▪ Funding for Youth programs - Arts and Culture - Hydro phonic and Aqua phonic programs

Focus Area	Development Needs
	Disability programs Request for sports facilities at Nyakallong resort Request for rehabilitation centre in Snake Park
Sanitation	▪ Need for flushing toilets at Naledi Trust ▪ Upgrading of waste treatment plant Ha Smith
Other	Fencing of graveyard with the Clear-Vu fence ▪ Paving of Dinoheng graveyard.
2023/24	
Water	
Roads and storm water	▪ Pavement that goes to Mike's Shop be completed and join the Smaldeel road From 2638-2621 Gelukwaarts. Paving in all Bester street.
Sanitation	▪ Vlei area between Ha Smith and smaldeel to Nyakallong Bridge. New sewer pipeline from 12720 to 12856 Snake Park ▪ Upgrading of waste treatment plant near Mr Smith place and join 2.5 sewer pipeline in Gelukwaarts
Electricity	▪ Installation of high mass light next to 2320 Gelukwaarts.
2024/25	▪
Roads	▪ Need Paving in all streets of bester including connector road from Nyakallong through bester 2766 Gelukwaarts with heightened Bridge next to Nyakallong ▪ Need for Paving Petrus Lenkoane Streets
Sanitation	▪ Need for sewerage pipeline in Snakepark from 12719 to 12856 Snakepark and from 13459 to 13476 and from 13530 to 13476 Snakepark to join at the waste treatment plant. ▪ Need for flushing ablution facilities, sewerage

Focus Area	Development Needs
	- and water pipelines at Naledi trust ▪
Cemetery	▪ Fencing of Dinoheng cemetery
Electricity	▪ Need for big Electricity transformer at Naledi trust with houses connection.
2025/26	▪
Roads	▪ Need for paving in Koekoe Village ▪ Bridge between Koekoe Village and Lovedale Primary school be erected for kids safety during rainy season. ▪ Needs for paving at Koekoe village ▪ Construction of bridge at the entrance of Nyakallong resort. ▪ Paving of four 4 internal streets 2711 to 2794 ▪ Paving of connector roads that links Bester to Smaldeel and Snake park cemetery. ▪ Need Paving 12561 to 12546 ▪ From 12546 to 12465 ▪ From 12532 to 12517 ▪ From 12493 to 12478 ▪ From 12451 to 12438 ▪ 12419 to 12406
Sanitation	▪ Proper drainage System to direct storm water away. ▪ House 12405 and 12406 ▪ House 12437 and 12438 ▪ House 12477 and 12478 ▪ House 12516 and 12517
Housing	▪ Need for sites and RDP houses
Health	▪ Need for Clinic in Koekoe Village

Focus Area	Development Needs
Sports and Recreation	Need for gravelling and maintenance of sports fields.
Safety and security	Need for Police Station

4.4.8 Ward Development Plan: Ward 8

MAP 10: WARD DEVELOPMENT PLAN- WARD 8

2022/2027

TABLE 49: WARD 8 – WARD PRIORITIES

Focus Area	Development Needs
Water	▪ Upgrading of water Channel from Reaitumela ,Roman Catholic Schools to Delswa Park. ▪ Borehole be opened at the open space near Thabo Lepatso car wash.
Roads	▪ Need of paving for Mahabane, Banda,Hlahile, Mbele, Phoofolo, Rampou Matseki, Ramokonopi, Pitso, Tang, Ntsane,Mafisa,Ngonelaand Streets
Road and Storm Water	▪ Upgrading of water drainage from Reaitumela School,Roman Catholic School and Delswa Park. ▪ Need for storm water drainage/channel between BP Garage and Pitso Street.
Electricity	▪ Maintenance of electricity Poles from 7300 to 7316 Constantia.
Housing	▪ Renovation of houses that were destroyed by the storm/disaster in 2018.
Health	▪ Request for a clinic in the ward
Safety and Security	▪ Consistent maintenance/cutting of grass of public open spaces. ▪ Community safety patrolling be enforced.
Sports and Recreation	▪ Establishment of outdoor gym at Thabo Lepatso. ▪ Renovation of Constantia Hall. ▪ Playground swings be established/erected at Thabo Lepatso and the place be developed into a community park.
Sanitation	▪ Construction of sewer line near Thabo Lepatso.
LED	▪ Request that a Flea market be opened near the shopping Centre.
Other	▪ Dumping site must be maintained and access be controlled.
2023/24	

Focus Area	Development Needs
Housing	▪ Filling all empty site without residents that are hiring there. ▪ Renovation of houses that were destroyed by the storm/disaster in 2018. ▪
Roads and Stormwater	▪ Need of paving for Mahabane, Setiloane, Masionne, Messi, Banda, Hlahile, Mbele ,Phoofolo, ▪ Mpou, Matseki, Mokonopi ,Pitso, Tang, Ntsane,Mafisa,Ngonela and Streets, Leshoro Street, Tshezi Street. Ramasditsa street, Phooko street, Benjamin Mlaba Street, Edgar Molefe, Jodge Sekele Street. ▪
2024/2025	Development Needs
Water	▪ Needs to maintain water channel near Delswa park and Phahameng. ▪ Needs to maintain water channels near three rooms section and Constantia Shopping centre
Roads and Stormwater	▪ Upgrading of water drainage from Reaitumela School,Roman Catholic School and Delswa Park. ▪ Need for storm water drainage/channel between BP Garage and Pitso Street, Matseki, Khaticoe.
Electricity	▪ Needs to maintain electric lights ▪ Needs for maintenance of high mass light
Sports Arts, and culture	▪ Needs for outdoor gym near lepetso ▪ Needs for maintenance of parks near shopping centre ▪ Need to maintain soccer fields ▪ Establishment of outdoor gym at Thabo Lepatso. ▪ Renovation of Constantia Hall. ▪ Playground swings be established/erected at Thabo Lepatso and the place be developed into a community park. ▪ Need for swimming pool near Phahameng.

Focus Area	Development Needs
2025/2026	
Roads	Need to fix kgauwe stree Need to pave Phooko street
Storm water	Needs to upgrade the storm water that are removed nex to Mr Soldat Need to upgrade stormwater channel to protect school children
Sanitation	Water flooding next to 7324-7326 Need to curb sewer spillages in the ward
Electricity	Ne to prevent vandalism of electricity carble Need Street lights be installed
Solid waste	Need to curb illegal dumping at 871-872
Housing	Need for Church site
Safety and security	Illegal scrapyard be closed Need to arrest Criminals in the ward.
Water	- Needs to maintain water channel near Delswa park and Phahameng. - Needs to maintain water channels near three rooms section and Constantia Shopping centre
Roads and Stormwater	- Upgrading of water drainage from Reaitumela School, Roman Catholic School and Delswa Park. - Need for storm water drainage/channel between BP Garage and Pitso Street, Matseki, Khaticoe.
Electricity	- Needs to maintain electric lights - Needs for maintenance of high mass light
Sports Arts, and culture	- Needs for outdoor gym near lepetso - Needs for maintenance of parks near shopping centre - Need to maintain soccer fields - Establishment of outdoor gym at Thabo Lepatso. - Renovation of Constantia Hall.

Focus Area	Development Needs
	- Playground swings be established/erected at Thabo Lepatso and the place be developed into a community park. - Need for swimming pool near Phahameng.

4.4.9 Ward Development Plan: Ward 9

MAP 11: WARD DEVELOPMENT PLAN- WARD 9

2022/2027

TABLE 50: WARD 9 – WARD PRIORITIES

Focus Area	Development Needs
Water	Water pump station is needed.
Roads	Need paving at Sipho Koekoe

Focus Area	Development Needs
Road and Storm Water	▪ Roads from Cross road ▪ Vlei Area between ward 08,09 and 10 ▪ Tar road is bad due to floods next to Letshele street. ▪ Storm water drainage system is needed ▪ Big hole in Ntsala Street, water pipes above surface
Electricity	▪ Need for high mast lights. ▪ Solar geysers need to be maintained. ▪ Bended electrical poles need to be fixed.
Housing	▪ Renovations of the two roomed houses is needed.
Sports and Recreation	▪ Cut grass and trees regularly in open spaces
Sanitation	▪ Fixing and maintenance of Sewer blockages.
Other	▪ Satellite Police station is needed. ▪ Need skills development programmes for Youth ▪ Space next to Mpobolo Church be Sports Centre.
2023/24	
Water	▪
Roads	▪ Need for paving or tar road Mosiane Street ▪ Need for Ntsane Street Paving
Sanitation	▪ Vlei Area between Reaitumela and Roma School need storm water drainage and formalisation.
2025/26	▪
Roads	▪ Needs for paving ▪ Ntsane Street ▪ Bethuel Mahlatsi Street ▪ Tshiu Street ▪ Tlhogo Street ▪ Mahabane Street

Focus Area	Development Needs
	Sipho Koekoe Street
Sanitation	Unblocking of storm water Tang Street
Electricity	- Need for maintenance of electric poles and street lights. - Replacement of Asbestos sewer pipes.
Housing	- Need for Decent houses. - Eradication of two roomed houses. - Need to formalise (Storm water)
Parks	Park be developed at Mpobolo open space

4.4.10 Ward Development Plan: Ward 10

MAP 12: WARD DEVELOPMENT PLAN- WARD 10

2022/2027

TABLE 51: WARD 10 – WARD PRIORITIES

Focus Area	Development Needs
Water	▪ Upgrading of storm water drainages. ▪ Request for upgrading of water reservoir. ▪ Upgrading of Pressure Tower and installation of the new water pipeline.
Roads	▪ Need for paving of Moswabela ,Ngonela, Mesie and Relebohile Location. ▪ Need paving for the road to Shopping centre.
Road and Storm Water	▪ Upgrading and maintenance of Storm water drainage, no 5567, 7829 and Sesele Street Constantia. ▪ Need for mantainance of roads ▪ Need for paving of Moswabela , and Relebohile Location. ▪ Need paving for the road to Shopping centre.
Electricity	▪ Upgrading of Power Station. ▪ Need of high mast lights next to 12274
Housing	▪ Need for sites and RDP's.
Health	▪ Need for a Mobile Clinic.
Safety and Security	
Sports and Recreation	▪ Need of Multipurpose Centre. ▪ Need of Sports facilities. ▪ Request for Youth Centre and Rehabilitation centre. ▪ Request for Art Centre for Youth Development
Sanitation	▪ Upgrading of sewer pipeline.

Focus Area	Development Needs
LED	Request for Small business sites.
Other	Request for Training Centre for Youth.
2023/24	
Roads and storm water	- Kgauwe Street needs paving - Sesele Street needs paving - Anglican roads needs paving - Relebohile road needs speed hump and Mphefela requesting speed hump.
Sanitation	Sewer the whole street of Iekgakge needs to be upgraded.
LED	Needs for Skills Development Centre
2024/2025	
Roads	- Paving Street going to Relebohile - Grading of Street must continue - Paving Mosobela Street and Ngonela street - Paving Kalane street joining Sesele Street - Speed humps be added at Relebohile Street. - Paving Iekgakge street
Electricity	- Constantia electric poles be maintained - Highmast light be changed in the area. - Electric pole be attended to at 11892
Sanitation	- Storm water drainage are not functional and two houses are flooded. - Main road of Mphefela water is flooded. - Sewer drainage be maintained the whole street of

Focus Area	Development Needs
	lekgake to avoid flooding ▪ That mobile clinic be made available ▪ Vlei area between Roma and Reaitumela Primary School be fixed until ward 10
health	▪ Umbulances access is not available due to flooding rain ▪ That mobile clinic be made available
2025/26	▪
Water	▪ Need for water to be purified ▪ Water drainage system be prioritised ▪ New water meters be install in all houses ▪ Council to commit to fix all the street with own funding in three year period.
Roads and stormwater	▪ Need for paving Molefe street ▪ Paving be done Buthelezi Street ▪ Mosobela street be paved ▪ Sesele street be paved ▪ Need to pave the last street from the church ▪ Need that all streets be fixed in Mphefela ▪ Speed hump be done at Mphefela main road
Electricity	▪ Needs for high mass light at last street of mphefela ▪ Needs to fix high mass light at LTA next to Relebohile school
sanitation	▪ Sewer drainage be opened and priorities ▪ Storm water channel be done
Safety and Security	▪ Need for Police station in Brent Park ▪ Needs for more fire hydrants in all moqhaka areas. ▪ Vlei area closed to Reaitumela and Roma Schools be fixed as matter of urgent. ▪ Needs to utilise vandalised post Office to Police station

Focus Area	Development Needs
Health	Need for mobile clinic.

4.4.11 Ward Development Plan: Ward 11

MAP 13: WARD DEVELOPMENT PLAN- WARD 11

2022/2027

TABLE 52: WARD 11 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Revamping of water networks in the area. - Maintenance of water meters. - Need for water reservoir.
	- Paving of Lethetsa, Makhetha, Seeco, Nampi, street from Methodist to cemetery road to Moepeng, Mampoi Clinic, Mongane streets. - Paving phase 2 for Dingalo street leading to Phomolong sports centre and Maokeng Mall be

Focus Area	Development Needs
Road and Storm Water	paved. ▪ Paving of Porogo Street be prioritised ▪ Need for storm water drainage
Electricity	▪ High mast lights are needed. ▪ Maintenance of high mast light and street lights. ▪ Electricity poles be erected properly. ▪ Need electricity at extension 10.
Housing	▪ Need for sites ▪ Need for RDP's ▪ Need for Title deeds
Sanitation	▪ Maintenance of Sewer network.
Health	▪ Clinic building must be extended and its operating hours extended to 24.
Safety and Security	▪ need for Police Station.
Other	▪ Need of Yellow bins.
2023/24	
Sports and recreation	▪ Need for Community Hall. ▪ Needs park
Health	▪ Mobile clinic
Safety and Security	▪ Need for Police station.
2024/25	
Water	▪ Water pipes burst be fixed - Need for purification of water
Roads and stormwater	▪ Street next to bottle store be gravelled with stones to prevent water flooding during rains ▪ Street grading be done ▪ Needs for Paving next to bottle store ▪ Needs for Paving at Phomolong shopping centre - Stormwater drainage be extended and cleaned

Focus Area	Development Needs
Electricity	▪ High must, lights theft ▪ Streetlights be installed Cable theft reporting on individual household and the procedure to report and fixe.
Sanitation	▪ Sewerage be fixed next to Kotjela Street ▪ Dumping site be cleaned
Housing	▪ Needs for purification of housing data list. ▪
Safety	▪ Needs for Street Patrollers to prevent crime
2025/2026	▪
Roads and storm water	▪ Need to clean drainage system ▪ Drain in damane street next to Moruti Chalet need to be properly fixed. ▪ Paving of Phomolong shopping center
Electricity	▪ High mass lights must be fixed ▪ Needs to maintain falling electricity poles to be erected urgently.
Safety&security	▪ Need for a Police Station
Housing	▪ Need for Title deeds
Others	▪ By laws must be implemented with regard to dumping and cleanliness ▪ Jobs must be created for Local Youth

4.4.12 Ward Development Plan: Ward 12

MAP 14: WARD DEVELOPMENT PLAN- WARD 12

42022/2027

TABLE 53: WARD 12 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Installation of the new water pipes is needed. - Water meters need maintenance. - Water provision has been a problem for too long and need a permanent solution.
Roads and Storm Water	Streets need to be gravelled

Focus Area	Development Needs
	▪ Paving of streets at Kgotlakgomang's, Robert Sello, Masimong, Porogo, Mohlabane, Sixth and Seventh Avenues needs to be maintained ▪ Road to Sterkfontein cemetery need to be maintained.
Electricity	▪ High mast light needed at the back of Kananelo School ▪ Maintenance of streets lights ▪ Porogo street poles needs to be fixed
Housing	▪ Need for Sites and RDP's ▪ Need for title deeds
Sports and Recreation	▪ Need for Sports facilities at Phomolong Spots Grounds. ▪ Z R Mahabane Square be equipped with play swings for recreation.
Sanitation	
LED	▪ Upgrading of Phomolong Shopping Complex into an Economic Hub to Support SMME's development. ▪ The Complex to serve as a Historical site to promote Tourism.
Other	▪ Cutting of grass at opened spaces. ▪ Cable theft. ▪ Cleaning of Seeisoville graveyard.
2023/24	
Sports and recreation	▪ Need for Sports facilities at Phomolong Spots Grounds
Roads and storm water	▪ Paving of Makhetha, Seeco, Ramasimong, Porogo, Mohlabane Sekele, Sello Robert Street and fourth 4 and seventh 7 avenue street.
Electricity	▪ Upgrading of all wards Street lights with LED lights and solar on top. ▪ Needs for high mass light near kananelo School

Focus Area	Development Needs
	and corner of Mongane and Damane Street
Parks and recreation	Needs for parks next to Presbyterian Church for Children

2024/25	Development Needs
Roads	- Needs paving at the street nearby kananelo secondary school Robert Sello,6Avenue and 8 Avenue - Skele and seeco streets needs paving closed to Boiteko Publioc School Masimong Street. 4TH Avenue and 7th avenue needs paving near Phomolong Public School. - Mohlabane. Porogo, Masimong and makhetha street need paving - Phomolong shopping complex to be paved
Electricity	Needs to replace all ward 12 streetlights with LED lights and solar.
Houses	Needs RDP house for 80 houses that falling
Sports arts and Culture	Needs for Artificial turf at Phomolong Sports ground
Employment	Need for Employment amongst the youth
2025/26	
Roads	- Needsfor Paving Sekele Street next - Need for paving at Robert Sello Street next to kananelo street. - Need for Paving 7th Avenue next to Phomolong Public School
	- Need Mohlabane ,Porogo and Makhetha - Need for pavement avenue 2,3,8,9 and 10 avenues - Need for paving Phomolong shopping compex
Electricity	Need for LED Street lights in ward 12
Housing	Need for housing due to dilapilated houses

Sports	Need for artificial turf and parks at Phomolong sport ground
Cooperate Services	Need for Youth Employment.

4.4 13 Ward Development Plan: Ward 13

MAP 15: WARD DEVELOPMENT PLAN- WARD 13

2022/2027

TABLE 54: WARD 13 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Construction of a reservoir near Brentpark that can be used as supportive supply of water to nearby areas - Upgrading of water Channels and reservoirs - Upgrading and replacement of old water supply pipes

Focus Area	Development Needs
	▪ Installation of water meters around ward 13 ▪ Water connection to the site in Marabastad with no water
Roads and Storm Water	▪ Construction of storm water drain near red houses in Marabastad. ▪ Construction of storm water drain in Brierly Street, James, Abdul, Canon, Eddie, and Daniel streets be upgraded. ▪ Road from Abattoir to Dumping site should be upgraded. Construction of storm water drain in 7de laan Colbert Street. ▪ construction of storm water drain in 9th and 10th avenue road, and paving of the roads. ▪ construction to clean and open storm water drains and pipes in Brentpark, Marabastad and Seeisoville ▪ Infrastructure/construction of storm water drains in Transnet Hostel. □ Paving of entrance to Brentpark, From power Station. □ Paving of 11th Avenue to Brentpark,
Roads	▪ Paving of entrance to Brent Park, From power Station. ▪ Paving of 11th Avenue to Brent Park, Paving of the following streets Cannon, Eddie, Wally Rensburg, Hardy, Feldt Man, Daniel, Staduim to Macerman Street and the whole of the bad streets in 7 De laan ▪ Paving of roads in kgahliso ▪ Completion of paving in Marabastad. Reconstruction of Seven, ninth and tenth Avenue and industrial Area

Focus Area	Development Needs
	▪ Paving of roads from Brent Park to land field Sites ▪ Reconstruction and paving of Seeisoville hostel. ▪ Paving of seeisoville stadium roads
Electricity	▪ Connect all sites in Marabastad with electricity that don't have connection. ▪ Upgrade electricity infrastructure supply to Brent Park community and reconnect from substation near Brent Park ▪ Renovation of the old power station near Brent Park. ▪ High mast lights to be place near Brent Park shopping complex, Transnet Hostel and Marabastad especially Zuma Park. ▪ Fitting and maintenance of streets lights around Seeisoville, Brent Park and Industrial Areas.
Housing	▪ RDP housing development for Brent Park, Khahliso Seeisoville and Marabastad residents. ▪ Issue of free sites for middle class earners who don't qualify for RDP housing ▪ Issue of free sites for Brent Park, Seeisoville and Khahliso residents. ▪ Subdivision of 60 sites in Marabastad legalized of residents in Marabastad on municipal sites. ▪ House to be built for the families at Seeisoville Transnet hostel staying in Asbestos structures and families staying at the brickyard (industrial Area ▪ Reconstruction of Brent Park residential hostel into RDP flats ▪ Family units to be builded on brentpark hostel & Seeisoville hostel.
LED	▪ Construction of business Hub in Marabastad and at opened field near Khahliso for local business development ▪ Zoning of more business Areas in Ward 13 in the

Focus Area	Development Needs
	different Areas. Construction of a container business park for small businesses to run business from
Health	- Upgrading of Brent Park Clinic for more space. - Building of new Clinic between Phomolong and Brent Park.
Safety and Security	Need for Police Station in Brent Park
Sports and Recreation	- Multipurpose sports facility must be built in Marabastad - Renovation of Seeisoville Stadium - Renovation of Brentpark Stadium to a multipurpose sports facility - Rebuild of play parks in Brenpark, Seeisoville, Marabastad and Khahliso - Informal Soccer field must be upgraded in different arears of Ward 13
Sanitation	- Upgrading of sewer pipes in Brent Park, Industrial Area, Marabastad ,Seeisoville and Khahliso. - Upgrading of pump station in Brent Park and all others around Ward 13
Other	- New site for graveyard is needed for Brent Park. - New or upgrading of land field is needed - Upgrading or renovation of Brent Park Municipal Offices to give comprehensive services - Development of Phillip Creche to a save house and rehabilitation centre.

2023/24	
Water	Need for a reservoir in Brentpark. Upgrading of water channels Upgrading and replacement of old water network
Housing	Need for RDP housing development in Brentpark, Khahliso, Seeisoville, and Marabastad
Roads	Paving of roads
Roads and Storm water	- Construction of storm water drainage in James, Abdul, and Canon str - Fixing of road from Abattoir to dumping site - Paving of Kriss and Church streets 10th street in Industrial area to be repaired - Paving of the following streets Cannon, Addie, Waly Rensburh, Hardy, Feldt Man, Daniel, Stadiim to Macerman Street and the whole of the bad streets in Seven Dellan. - Completion of paving in Marabastad. Reconstruction of Seven, ninth and tenth Avenue and industrial Area - Paving of roads from Brent Park to land field Sites - Reconstruction and paving of Seeisoville hostel.
Recreation and Sports	Loubser park sports complex be maintained and its use be controlled.

2024/2025 Development Needs	
Roads	Needs for police station road to be paved
Electricity	- Needs hall in Marabastad - Needs hall and graveyard to be fenced - Seeisoville and Brentpark cemeteries needs to be fenced - Stadium must be fixed, and Security guards be there for 24 hours.
Housing	Needs for Marabastad 9th avenue to be

	demarcated.
Health	Seesoville Clinic needs to be extended
Employment	Needs for youth employment and also in EPWP Programmes
Speakers Office	Needs for wards secretaries to assist during IDP processes
2025/26	
Water	- Water Connection be made in all houses of Marabasta that without water - Ugrading of water
Roads and Stormwater	- That all the entry roads be fixed in all moqhaka area - Application to name kgatliso area - Contraction and paving kgatliso roads.
Electricity	- Needs for electricity installation in all marabasta houses that are without electricity, - Needs for renewable of power plant at an old power station near brentpark - Replacement of old electricity cable with ederc cables - Solar light be installed in all street in ward13 - Needs for electricity lights at Magma street abdul street and 7delaan street
Housing	- Rezoning of semi industrial site to residential sites - Open street in Feldman street to be used to establishes residential site. - Reconstruction of hostel in Brentpark and Seisoville to family units. - Replacement of asbestos roof houses with RDP houses in Brent park and Seisoville. - Replaning of marabastad area to find more residential sites
LED	- Contruction of business hub in brentpark, marabastad and Kgatlisso for Local Economic Development. - Contraction of container business park for small

	business in Brentpark, Seisoville,kgatliso ▪ Consent be granted to to residents of ward 13 to operate business from their residential sites ana rate is not changed to business ▪
Health	▪ Needs foe Clinic to operate for 24 hours.
Sports and recreation	▪ Renovation of Brentpark Community Hall and Seesoville hall. ▪ Upgrading of Brentpark swimming pool ▪ Upgrading and equipping library wit computer systems ▪ Neeed for fencing of library wit clesr fence

4.4.14 Ward Development Plan: Ward 14

MAP 16: WARD DEVELOPMENT PLAN- WARD 14

2022/2027

TABLE 55: WARD 14 – WARD PRIORITIES

Focus Area	Development Needs
Water	Need for portable water
Roads	Needs to be graded or gravelled

Focus Area	Development Needs
Road and Storm Water	▪ Request for paving next to Matsepe School, Selection Park, 1306 Gellukwaarts and Windmill Section. ▪ Installation of Storm water drainages and channels.
Electricity	▪ Renovation or upgrading of power station ▪ Request new and maintenance of existing high mast lights.
Housing	▪ Request for sites. ▪ Need for the RDPs. ▪ Maintenance of delapidated houses in Troubou
Health	▪ New clinic needs to be developed.
Safety and Security	▪ Request for a Fire hydrant. ▪ Requests for a Police Station.
Local Economic Development	▪ Request for Business Sites for farming, Planting, and manufacturing of bricks. ▪ Support for Youth Businesses.
Sports and Recreation	▪ Request for Sports and Communication centre.
Sanitation	▪ Upgrading of sewer network pipes
Other	▪ Request for investigation to be conducted on the viability of establishing a university. ▪ Requests for Community Wi Fi. ▪ Request for Jeff and Company to be resuscitated.
2023/24	
Sports Arts and Culture	Need for Sports Centre gym Communication Centre in Troubou Need a Hall for Community in the Centre of Ward.

Focus Area	Development Needs
	▪
LED	▪ SMME's container Hub
Roads and Storm water	▪ Needs to be graded or gravelled

2024/25	Development Needs
Water	▪ Water treatment plant progress ▪
Housing	▪ Long term lease agreement be done for container hub
Roads and Storm water	▪ Needs to be graded or gravelled - Paving Lap Nkukane Street - Paving Samsone Maloka Street - Paving Daniel Ramakhale Street. ▪
Sanitation	▪ Needs for sewer plant to be fixed
Electricity	▪ High mass lights to be installed
2025/26	▪
LED	▪ Need for agricultural site ▪ Need for bricks corporate space
Housing	▪ Need to remove asbestos roofing
Electricity	▪ Need for high mass light.
Safety	▪ Need for police station.

4.4.15 Ward Development Plan: Ward 15

MAP 17: WARD DEVELOPMENT PLAN- WARD 15

2022/2027

TABLE 56: WARD 15 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Request for Storm water drainages Moepeng Section. - Refurbishment of water System shortage of water

Focus Area	Development Needs
Road and Storm Water	▪ Maintenance and closing of opened storm water drainages due to theft. ▪ Refurbishment of storm water for the following roads:Chakane Motitimi and Thulo streets
Electricity	▪ Maintenance and installation of high mast lights next to Bodibeng School ▪ Maintenance of Streets lights ▪ Upgrading of Power Station
Housing	▪ Need of Sites ▪ Need for RDP Houses ▪ Need of title deeds
Sports and Recreation	▪ Establishment and renovation of ZR Mahabane Park ▪ Grading of playgrounds ▪ Seeisoville stadium and Community Hall need to be upgraded
Sanitation	▪ Refurbishment of sewer system at Seeisoville and Chakane streets
Education	▪ Need of a Library ▪ Renovation of Seeisoville Library
Health	▪ Refurbishment of Seeisoville Clinic
LED	▪ Support for Local Businesses ▪ Allocation of sites for Local Businesses.
2023/24	
Road and stormwater	Paving and maintenance of streets, Chakane street(1-910)Tlholoe street(1162) Lekitlane street(493-5030,Morake street (1001-1248),Makobe street (12-813)and Makhetha

Focus Area	Development Needs
	Khahliso streets 28175-28192,28465-28398. Maintenance and closing of opened storm water drainage due to theft Refurbishment of storm water for the following roads, Chakane, Motitimi and Thulo streets
Water	Request for Storm water drainage Moepeng Section Refurbishment of water system shortage of water

2024/25	Development Needs
Road and stormwater	Paving and maintenance of streets, Chakane street (1-910) Tlholoe street (1162) Lekitlane street (493-5030, Morake Street (1001-1248),Makobe street (12-813)and Makhetha Khahliso streets 28192-28175 Maintenance and closing of opened storm water drainage due to theft Refurbishment of storm water for the following roads, Chakane, Motitimi and Thulo streets
Water	Request for Storm water drainage Moepeng Section
2025/26	
Roads and Storm water	Access roads to Seeisoville Stadium Closing of main holes as they pose danger to the community Need for paving Thulo Street kgoale street, Makobe street, and near ha ntate Base.
Electricity	High mast lights be fixed. LED lights must be the choice of electricity (Energy) for streetlights Electricity poles need to be erected.

Housing	Open site be taken by the Municipality Certificates be awarded to youth working of projects.
Safety and security	Outsourcing of Security must be stopped and Municipality must hire their own security
Health	Bophelong clinic must be revamped
Sports and recreation	Soccer fields must be included at the facility of ZR Mahabane. Parks for Kids be developed
Others	Street must be named. Youth summit must be called in ward 15 for development Local contractors and community must sit to plan around the social responsibility before the projects start.

4.4.16 Ward Development Plan: Ward 16

Map 18: Ward Development Plan- Ward 16

2022/2027

Table 57: Ward 16 – Ward priorities

Focus Area	Development Needs
Roads	Maintenance and resurface of Orpen Fowler, Vermaak, Enslin, MacLachlan, Hoffe Voortrekker, Johan Hugo, Du plessis
Road and Storm Water	- The Subway in Cross Street Walkway is very poor and storm should be redirected to prevent it from flowing from the top - Maintenance and resurface of Orpen Fowler, Vermaak, Enslin, MacLachlan, Hoffe

Focus Area	Development Needs
	Voortrekker, Johan Hugo, Du plessis
Electricity	▪ Need of high mast light at Hoffie and Voortrekker ▪ Buying electricity online must be envisaged.
Housing	▪ Identification of owners of abandoned houses which are neglected
Health	▪ illegal dumping is a big issue in the residential areas ,can an alternative /extra dumping site be identified or small dumping sites in the residential areas where can be dropped off and be picked up by Moqhaka refuse removal truck. The current dumping site is very unsafe and therefore causing illegal to increase. ▪ Animal impound must be enforced.
Safety and Security	▪ Kroonstad neighbourhood watch conjunction with CPF would like to install cameras at all entrances in Kroonstad ▪ Empty houses /opened erfs are a safety riks – Moqhaka needs to speak to the owners to clean their places, by-laws must be enforced especially in the CBD.
Education	▪ Skills and development facilities within the municipalities should be strengthened by working with different stakeholders like NPO's to provide necessary skills to the community
LED	▪ Kroonpark be revitalised and be marketed ▪ Projects for Youth in business, Recreation facilities especially in the township should be a priority to curb drugs. ▪ Solar Projects for electricity need to be considered ▪ Recycling projects must be promoted
Sports and Recreation	▪ Establishment of Parks in Suidrand open spaces, The river bank must be cleaned and public Toilets be made and rented out for the purpose

Focus Area	Development Needs
Sanitation	▪ Fixing of the collapsing of sewer network line ▪ Sewerage is a very big concern in all Wards ,eg Vermaak, Jacobs, Open streets
Other	▪ Establishment of recycling business sites, Truck in town need to be addressed ,and rerouted damaging infrastructure and roads, Reconsider the Western By-pass ▪ Customer care must report burst pipe sewer and get feedback. ▪ Trucks in residential area be prohibited.
2023/24	
Road & Stormwater	▪ Refurbishment of Orpen Street and Maclachlan ▪ Voster Street in Tuinhof to tarred ▪ Maintenance of Du Plessis Street ▪ Need to fix the Rowan and Flower Street onward to R34 ▪ Corner of Booyzen and Theron Street potholes and roads sing to done.
Water	▪ Need for clean water for Human Consumption ▪ Maintenance of old water Infrastructure. ▪ Need to build new reservoirs to accommodate the growing population
Electricity	▪ Streetlights in the following streets, Koller, Phillip Symonds, Malherbe and Trueter should be erected. ▪ Du Plessis streetlights must upgrade with solar lights. Leonard and Meyer Street should be turned into Solar farms to provide additional electricity to Kroonstad ▪ Better lights at the Pedestrian Bridge (more security).

Focus Area	Development Needs
	▪ Electricity be installed at Parks. ▪ Streetlights be maintained.
Refuse Removal	▪ Dustbins in CBD ▪ Illegal dumping at Johnny's dam ▪ Plastic recircle bins in every suburb. ▪ Place Skipeezy container at Du Plessis Street ▪ Maintenance of landfill site.
Housing	▪ Unoccupied / open sites must be maintained.
Sanitation	▪ Public Toilet in the CBD ▪ Need to maintain sewer plant to curb the overflow. ▪ Need to prevent sewage overflow in parks.
Sports and recreation	▪ Needs for safe parks for kids and Dogs. ▪ Need to cut grass at crossing from Schwimm street to flower Street into Booyzen Street. ▪ Cutting of grass to be done on all open sites to avoid illegal dumping. ▪ Parks be maintained
other	▪ Customer care must report burst pipe sewer and get feedback. ▪ Trucks in residential area be prohibited. ▪ Road signs needs to be put in town and painted lines or stop ▪ Implementation of the by-laws to prevent illegal dumping.

2024/25	Development Needs
Road	▪ Potholes to be closed

	▪ Site walks to be completed ▪ That heavy truck damages the pavements
Parks and recreation	▪ Needs to cut the grass in all open spaces
Sanitation	▪ Needs for sewer plant to be fixed
Safety	▪ Grass be cut to avoid Feld fire
2025/2026	▪
Roads	▪ Need to fix roads ▪ Need fix roads completely without patching
Electricity	▪ Needs streets lights ▪ Needs to maintain streetlights near checkers ▪
sanitation	▪ Needs to fix the running sewerages in the area ▪
Storm water drainage	▪ Need to replace the lit of storm water drainage with locking system to avoid stealing
Corporate Services	▪ Needs for Municipality to update bylaws
Public safety	▪ Needs to curb and pound the stray animals on our streets
finance	That wards that are paying rates and taxes be prioritised for services

4.4.17 Ward Development Plan: Ward 17

MAP 19: WARD DEVELOPMENT PLAN- WARD 17

2022/2027

TABLE 58: WARD 17 – WARD PRIORITIES

Focus Area	Development Needs
Water	
Roads	▪ Maintenance and resurface of Enslin, Rowan, Hans van Rensburg, Sampie, Froneman, Marais, Schonn, Lintott, Grysbok, Takbok, Steenbok and Duiker. ▪ Gravel road on Smallholdings need maintenance
Road and Storm Water	▪ Fixing of the Checkers bridge and subway to avoid flooding
Electricity	▪ Need of high mast light or Street lights at Tuinhof .

Focus Area	Development Needs
	▪ Need of high mast lights at Kraalkop.
Housing	▪ Identification of owners of abandoned buildings and owners of vacant spaces which are neglected
Health	▪ Illegal dumping is a big issue in the residential areas, can an alternative /extra dumping site be identified or small dumping sites in the residential areas where waste can be dropped off and be picked up by Moqhaka trucks ▪ The current dumping site is very unsafe and therefore causing illegal dumping to increase ▪ Stray animals must be impounded by the Law enforcement
Safety	▪ CCVTV cameras be installed in all entrance in Kroonstad. ▪ The old fiets School children use the bridge as a means to get to school but its very unsafe. ▪ Empty houses /opened ervens are a safety risk Moqhaka needs to speak to the owners to tidy the places. ▪ Total refurbishment of the wall separating Wilgenhof and the N1
Education	▪ Skills and development facilities within the Municipality, should be strengthened by working with different Stakeholders eg NPO to provide necessary skills to the community
LED	▪ Kroonpark must be revitalised to proper order. ▪ Projects for Youth in business must be established. ▪ .A place of care for the Homeless be established. ▪ The place for recycling must be established. ▪ Elandia Dam must be repaired ▪ Biogas plant at the Sewerage plant to generate electricity. ▪ Entrepreneurs Hub should also be considered.
Sports and Recreation	▪ Establishment of Parks in Suidrand Open spaces. ▪ Old Kroonpark -clean-up is urgently needed. ▪ Suggestions are to look at a walking lane, open for everyone
Sanitation	▪ Fixing of the collapsing of sewer network line.

Focus Area	Development Needs
	▪ Sewerage is a very big concern in all Wards. ▪ Need of Public Toilets.
Other	▪ Trucks in town need to be addressed, and rerouted, damaging infrastructure and roads ▪ Wi-Fi hotspots for Public.
2023/24	
Road & Stormwater	▪ Improve maintenance of the following street, Rooiboksing Steenbok, Impala, Duursema, Amund Weeber, Breytanbach, Grysbok, Kaalkop, ▪ Retief Roew almost the entire town.
Electricity	▪ Convert all streetlights to solar lights and save streetlights erected in the following street , ▪ Impala 27 Tuinhof, Rooiboksing, Paul Kruger, Sarel Cillies
Refuse Removal	▪ Improve refuse removal to curb illegal dumping ▪ Increase frequency of refuse removal at shopping centre
Traffic	▪ Improve traffic control services more especially control of trucks.
Customer Care	▪ Outline fault reporting and improve communication with residents
Parks & Cemeteries	▪ Improve maintenance of parks and Sports facilities walkways for pedestrians and cyclists
2024/25 Development Needs	
Road	▪ Roads need to be Maintained ▪ Potholes be closed ▪ Site walks be maintained ▪ That heavy trucks damage the roads
Parks and recreation	▪ Grass needs to be cut in all open spaces ▪ That parks start to collect garden refuse

Focus Area	Development Needs
Sanitation	- Needs sewer plant to be fixed
Safety	Municipal Police be brought back
Electricity	Power Station be resasitated
Energy	Solar plant be done as source of energy
Housing	That homeless shelter be done for Street kids.
2025/2026	
Roads	Need to fix and maintained roads in ward 16 and 17
electricity	Need that electricity be installed at small holdings Need for streetlights at Vermaak street Needs for lights at suidweg street from the bridge to panorama
sanitation	Needs to fix the issue of sewerage running in Vermaak street Need to fix sewerage from house number 46 Vermaak street
Technica Services	Needs to maintain subway bridge water is flooding
housing	Needs for services at Elandia new sites
Public safety	Needs to fix taxi matter for taxis to go back of the rank
Corporate	Need that municipality updated by laws
Finance	That wards that are paying rates and taxes be prioritised with services

4.4 18 Ward Development Plan: Ward 18

MAP 20: WARD DEVELOPMENT PLAN- WARD 18

2022/2027

TABLE 59: WARD 18 – WARD PRIORITIES

Focus Area	Development Needs
Water	Water provision should be consistent. Clean water must be provided at all times.
Roads and Storm Water	Khaya/Plata Street needs to be paved. Mphatlalatsane Street be fixed Road next to Ntsoanatsatsi school needs to be completed. Road next to Renyakalletse need to be fixed Soul City, Marantha, Joe Slovo needs paved roads. Storm water drainage system must be installed. Street from Khaya be prioritised for paving.

Focus Area	Development Needs
	Storm water channels must be maintained.
Electricity	Maintenance of high mast light.
Housing	Need for RDP houses. Need housing Settlement behind Hostel. Remaining parts of hostel be demolished and Family houses be built.
Sports and Recreation	Need for a Sport, Entertainment, Recreation and Development Centre.
Sanitation	Sewerage network needs to be maintained to minimize blockages. Public toilets at the Taxi rank in town are a serious health hazard and need urgent attention.
Other	Creation of employment opportunities. Illegal dumping Need for a Park. Hostel be demolished to decrease crime
Health	Old clinic be re-opened
Safety and Security	Patrol is needed in Ward.
2023/24	
Electricity	High mast light to be installed near Pax Clinic High mast light must be maintained
Houses	Need for RDP house
Sports & Recreation	Need for Sports ground Need for Parks
Roads & storm water drainage	Need for big pipes to be installed for sewer Sewer needs to give serious attention Solar system should be implemented
Water	Water channels have to be cleaned

Focus Area	Development Needs
2024/2025	
Roads	▪ Need maintenance and potholes patch Engelbrecht Street -Viljoen Street - Piet Retief Street - Steynberg Street - Powrie Stree
▪ Roads Signs	▪ Needs roads signs Engelbrecht Street - Piet Retief Street - Denysen Street - Reitz Street - The municipality must budget for paint
Water	▪ Needs water leakages to be fixed ▪ Upgrading of water system in Viljoenskroon ▪ Water pipes be upgraded to handle pressure ▪ Need to maintain Waterlines ▪ Upgrading of reservoirs to accommodate growing population. ▪ Need to fix pump stations to be able to increase water pressure for high lying areas can get sufficient water, ▪ Needs to improve water quality ▪ Need to maintain water supply during protest by Municipal employees.
Sanitation	▪ Needs for upgrading of sewerage plant to curb the raw sewerage to overflow into streets/wetland houses of people staying in lower areas. ▪ Needs that the sewerage infrastructure be maintained and pump stations to be up and running.
Environmental	▪ Needs to curb illegal dumping at, Municipal grounds, Empty premises, Street Corners in town, outside business.
Landfill sites	▪ Needs for security at landfill sites and proper fencing of the area. ▪ Needs to stop people to dump at the gate for proper access. ▪ Needs to cover refuse with soil daily to avoid unpleasant odours to arise from the soil.

Focus Area	Development Needs
	▪
Safety	▪ Needs to ensure health and safety of community in case of fire on the land fill site ▪ Need to ensure that the reclaimers are claiming waste according to plan. ▪ Needs to curb the contravention of of labour legislation to protect the livelihood.
	▪ Needs that the current situation at landfill site be improved. ▪ Need for meeting be convened between the Municipality and Afriforum to develop plan to remedy the situation
Refuse removal	▪ Need for refuse removal to be done daily to stop illegal dumping that result in blockage of storm water drainage. ▪ IDP and Budget processes be used to address the no regular removing of refuse and budget accordingly to purchase equipment. Needs that plan B be in place for removal of refuse during Strike.
Cemetries	▪ Need for proper fencing at the cemetery ▪ Need to ensure safety of public members visiting graves of their loved ones. ▪ Needs to evacuate homeless people who now occupants sleeping at the area, ▪ Needs to maintain garden and cut grass at the cemetery
Housing	▪ Need for property development in Viljenskroon and Rammulotsi
2025/26	▪
Roads	▪ Needs for paving ▪ Need paving next to JS Section ▪ Need paving Moscow and AK Street. ▪ Need paving at Marantha and Mika Street ▪ Need paving at Soul city street and Mphatlalatsane street.

Focus Area	Development Needs
	▪
Sanitation	▪ Need to clean stormwater Channel at Soul city. ▪ Sewerage be refurbished next to Adeline
Electricity	▪ High mast lights be installed next to pex and Police Station

4.4.19 Ward Development Plan: Ward 19

MAP 21: WARD DEVELOPMENT PLAN- WARD 19

2022/2027

TABLE 60: WARD 19 – WARD PRIORITIES

Focus Area	Development Needs
Water	▪ Need for potable water.
Roads	▪ Street be gravelled. ▪ Fixing of Potholes at ZCC Street.
Road and Storm Water	▪ Need to be cleaned and maintained.
Electricity	▪ Need for high mast lights.
Housing	▪ Need for sites and RDP Houses. ▪ Need for Title deeds.
Sports and Recreation	▪ Need for library. ▪ Need for recreation park or multipurpose centre. ▪ Need for recreational Park.
Sanitation	▪ Toilets are not in good conditions. ▪ Fixing of sewer spillage. ▪ Maintenance of sewer network.
Other	▪ Municipality must take all sites that are left abandoned them. ▪ Bylaws must be effectively implemented ▪ Concern of electric cable theft. ▪ Cutting of grass at Open spaces.
Health	Need of clinic or at least mobile clinic
Other	▪ Municipality must take all sites that are left abandoned them. ▪ Bylaws must be effectively implemented ▪ Concern of electric cable theft. ▪ Cutting of grass at Open spaces.
Health	▪ Need of clinic or at least mobile clinic

Focus Area	Development Needs
2023/24	
LED	▪ Job Creation for young people e.g projects or permanent work. ▪ The is no clear employment opportunities in the mines.
Safety and security	▪ Highmast lights needs to be serviced. ▪ Selling of Drugs in the ward for young people.
Sanitation	▪ Constant sewer blockage at Ntate Morabe Corner
Education	▪ Constant sewer blockage at Ntate Morabe Corner
Housing	▪ Four Houses that are falling needs to be fixed from 494-498 and Tloome street ▪ Burning of a shark number 4184
2024/25	
Development Needs	
Roads	▪ Roads need to be maintained ▪ Needs for street to be paved ▪ Roads next to rethabile road be paved
Refuse removal	▪ Dumping sites be stopped.
Sanitation	▪ Needs for sewer pipe lines to be maintained ▪
PMU	▪ Projects needs Implementation
Parks and recreation	▪ Needs for cutting of trees
LED	▪ Needs for Rammolutsi business hub
Energy	▪ Needs for Rammolutsi solar plant
2025/2026	
Water	▪ Need for water to be purified
Roads	▪ Need for paving roads going to kholakgano school and Renyakalletse school ▪ Need for paving Marantha street ▪ Need for paving Zama-Zama Street

Focus Area	Development Needs
	▪ Need for paving ▪ Paving at CH street be redone.
Storm water channel	▪ Need that storm water channel be cleaned and be closed
Electricity	▪ Need for high mass lights to be installed and maintained
housing	▪ Need for Title deed and site allocation
Fire	▪ Needs for fire engine
Health	▪ Need for new clinic ▪ Need for mobile clinic ▪ Need for Rehab center
Sports Recreation	▪ Need of Sports facilities
Education	▪ Need for college/ university
LED	▪ Need for Mall ▪ Need for employment opportunities
Parks	▪ Need to turn all the open spaces into parks ▪ That grass be cut in those open spaces

4.4.20 Ward Development 20

MAP 22: WARD DEVELOPMENT PLAN- WARD 20

2022/2027

TABLE 61: WARD 20 – WARD PRIORITIES

Focus Area	Development Needs
Water	- Need for Jojo tanks at Lucas Tsheke - Phahameng and Evans Park need reliable supply of water. - Pressure tower needs to be fixed.

Focus Area	Development Needs
Road and Storm Water	▪ Street paving ▪ Request for paving next to Ntataise School.I ▪ Request for installation of storm water Drainage. ▪ Street paving ▪ Request for paving next to Ntataise School. ▪ Need for pavement at graveyard and Phahameng entrance. ▪ Main road to Phahameng, Evans Park to Lucas Tsheke's new
Electricity	Need of Electricity at Lucas Tsheke.
Refuse removal	▪ Need for constant removal of Household garbage.
Housing	▪ Need for Sites ▪ Need for RDP's ▪ Need for the Church sites.
Sports and Recreation	▪ Request for development of training centre for the Youth.
Sanitation	▪ Request for waste truck in viljoenskroon.
Other	▪ Request for Wi Fi for Public and job seekers. ▪ Request for a Mall. ▪ Request for open spaces to be given to those who do not have houses
2023/24	
Water	▪ Need for Jojo tanks at Lucas Tsheke ▪ Phahameng and Evans Park need reliable supply of water. ▪ Pressure tower needs to be fixed.

Focus Area	Development Needs
Roads and Stormwater	▪ Street paving ▪ Request for paving next to Ntataise School. ▪ Need for pavement at graveyard and Phahameng entrance. ▪ Main road to Phahameng, Evans Park to Lucas Tsheke's new
Electricity	▪ Need of Electricity at Lucas Tsheke.
Refuse removal	▪ Need for constant removal of Household garbage.
Sports and recreation	▪ Needs for Sports Centre
Sanitation	▪ Flushing ablution facilities at Lucas Tsheke. ▪ Fixing of sewer blockage at Evens Park is urgently needed.
Others	▪ Closing query as they pose danger the community l'e Phahameng entrance, near Dr Sello School and behind Phahameng. ▪ Rehabilitation centre for drugs be Established.
2023/2024	
Water	▪ Needs for Jojo tanks at Dipotomaneng and Lucas Tsheke new Location. Need for reliable water supply Phahameng and Evans Park
Roads and Stormwater	▪ Need for paving at grave yard and Phahameng entrance. Main road to Phahameng, Evans park to Lucas Tsheke needs paving.
Sanitation	▪ Need for Flushing ablution facility

Focus Area	Development Needs
	Fixing of sewer blockages at evans park
Sports and recreation	Need for Sports center
Electricity	Needs for electricity at Lucas Tsheke
Others	- Closing of quarries as they pose danger to community i.e Phahameng entrance near Dr Sello School. - Need for Rehabilitation centre for drugs be established.
2025/2026	
Water	- Need for water at Dipotomaneng - Water allocation for ECD
Roads	Need for paving Phahameng main road and Need for paving Evans Park main road Need for paving Dipotomaneng main road

4.4.21 Ward Development Plan: Ward 21

MAP 23: WARD DEVELOPMENT PLAN- WARD 21

2022/2027

TABLE 62: WARD 21 – WARD PRIORITIES

Focus Area	Development Needs
Water	Maintenance of a dysfunctional pressure tower in Letshoara Tsheke(Northleigh)
Roads	- Need to be gravelled and maintained - Patching of potholes. - Road next to Ntataise needs to be paved.
Road and Storm Water	- Request for installation of storm water Drainage. - Storm Water drainage must be maintained.
Electricity	High mast lights need to be maintained.
Housing	- Need for Sites - Need for RDP Houses and title deeds.

Focus Area	Development Needs
	▪ Need for Church sites.
Sports and Recreation	▪ Request for development of training Center for the youth ▪ Sports field must be gravelled and be maintained.
Health	▪ Need for Health Staff
Safety and Security	▪ Need for extra high mast Lights.
Education	▪ Primary and Secondary Schools for Letshoara Tsheke section.
Sanitation	▪ Removal of bucket and pit toilets in the ward replacing them by connecting the entire area.
Other	▪ Request for Wi-Fi at the Libraries for Public. ▪ Request for Mall. ▪ Request for Open spaces to be given to those who do not have houses.
2023/24	
	▪
Water	▪ Pressure tower needs to be fixed ▪ Need for reliable water supply at the Clinic. ▪ Need for reliable water supply at some houses in Marikana section. ▪ Need for Pressure Tower in Lucas Tsheke
Security	▪ Need for security at the Clinic. ▪ Buffer Zones needs to be cleaned and graded at Marikana Section.
Roads and stormwater	▪ Roads maintenance at Anco Maseola clinic ▪ Paving is full of grass in Marikana ▪ Roads ned to be rehabilitated ▪ Speed humps must be put to curb accidents ▪
Sanitation	▪ Sewer spillage must be fixed ▪ Sewer main line must be maintained

Focus Area	Development Needs
	▪ Toilets need constant suction as they are full and cause danger to kids ▪ Need for water borne toilets in Marikana
Sports Arts and Culture	▪ Big graveyard gate must be erected to allow smooth entrance
Education	▪ Need for tertiary institution in the ward
Housing	▪ Need for sites
LED	▪ Support for local Business
2025/26	▪
Roads	▪ Need for paving Streets 832 next to stadium ▪ Need for paving Qwabe Street ▪ Streets at Marikana be gravelled ▪ Needs sites for Churches ▪ Needs for road at Tshupane Street next to bochabatsatsi
Housing	▪ Needs for Housing sites. ▪ Needs sites for Churches
Sports and Recreation	▪ Needs Indoor Sports games, chorus /Recreational center
LED	▪ Needs for business site
Sanitation	Need to demolish pit toilets at marikana
Electricity	High mast light be maintained.

4.4.22 Ward Development Plan: Ward 22

MAP 24: WARD DEVELOPMENT PLAN- WARD 22

2022/2027

TABLE 63: WARD 22 – WARD PRIORITIES

Focus Area	Development Needs
Electricity	- Need for high mast light - Need for Electricity
Housing	- Need for Site and RDP's in the location - Need of Tittle deeds
Sports and Recreation	Need for community hall

Focus Area	Development Needs
Education	▪ Need of school Primary and ABET ▪ Need transport for children
Other	▪ Need for Wi-Fi
2023/24	▪
Water	▪ Need for JoJo Tanks at Oorskiet farm and Jumbo number Nine (9) Mine. Needs for Jojo tanks.
Roads and Storm water	▪ Need for Building of Bridge at R59 to avoid flooding, and to allow smooth drive for cars. ▪ Roads from Viljoenskroon Station to vierfontein needs to be upgraded. ▪ Markvoel farm needs to be gravelled and maintained.
Electricity	▪ Need for lights at Orskietfarm ▪ Needs for Household electricity. ▪
LED	▪ Needs for Skills program on Engineering ie artisans.
Safety and Security	▪ Needs for visible security in mine number nine(9). ▪ Needs for programs on safety and Security. ▪ Partnerships on crime and security be established between the surroundings mines and the Community.
Sports and recreation	▪ Needs for the support of Sports and development programs.
Health	▪ Need for constant visiting of mobile clinic in all the surrounding farms, eg Jonkiskraal and Stols Farm.
Sanitation	▪ Needs Humane ablution facility.

Focus Area	Development Needs
Others	▪ Need for WiFi at Swartfontein Preschool and the Mining areas. ▪ Fencing of the Hunters Vlei and Oorskiet farm dams. ▪ Needs for Fire Fighting satellite Station at Vierfontein Police Station. ▪ Needs for visible law enforcement Officers at Vierfontein.

Focus Area	Development Needs
Roads and Stormwater	▪ Upgrading of Vlei Area with 3 Bridges is needed. ▪ Need bridge next to Petty's Tavern and BP garage. ▪ Bridge between Koekoe Village and Constantia. ▪ Bridge next to Maokeng School. ▪ Lechalabe tavern block, Garden Inn's avert Block 10626 to 10463.
Electricity	Need of high mast light next to Choppies Shopping Complex.
Housing	Need for title deeds. Need for Site and RDP's.
Safety and Security	Need of Police Station.
LED	Business workshops for Youth, Women and SMME's. Establishment of Business Hub.
Health	Need for Clinic.
Sports and Recreation	Need for Sport centre. Maintenance of Sports facilities.

Focus Area	Development Needs
Other	Job creation projects.
2023/24	
Roads and stormwater	▪ Upgrading of roads from number 16660 to 16676 paving (Block A),16701 to16716,16656 to16736 ▪ Upgrading of roads (Block B) ▪ Upgrading of roads (Block)14036 to14085 ,10528, to 1058 to 1064 need paving ▪ Paving and storm water channel from 106660 to 10857,14036 to 14098
2024/2025	
Roads	Project of vlei area to be included. Paving be done. Humps be made on the busy roads Paving be done from11374,11244 and 11170 covers all the entire lock. Needs to gravel the streets 11149 to 11149 to avoid flooding Storm water drainage be improved. Flooding street be gravelled 10333 and 10591.
Sports and recreation	▪ Needs for Park for children
Health	▪ Needs for Clinic
Sanitation	▪ Needs that open bridges be closed
2025/2026	
Housing	▪ Need for sites ▪ Need for RDP ▪
Sports and Recreation	▪ Need for sports facilities for kids
LED	▪ Need to be trained in agricultural activities i,e farming and business.
Others	▪ Need for employment opportunities for youth ▪ Youth be considered in the municipal

Focus Area	Development Needs
	projects

4.5 Community and Stakeholder Engagements

The objective of the meetings was to inform the Community, Businesses and Stakeholders about the Draft IDP and to gain input into the Draft IDP 2022/2027. Issues and priorities raised are used to develop the ward development plans for each ward as set out below.

4.6 Ward Needs Listed in order of Priority

The issues raised in the ward development plans were analysed and summarised in the table below.

The needs were also prioritised from the most issues raised to the lowest in the table below:

TABLE 64: SUMMARY OF NEEDS AS PRIORITISED

Focus Area	No.
Roads and Storm water	31
Electricity	23
Recreation & Sport	19
Sanitation	16
Water	15
Job Creation	18
Housing/Sites	18
Safety & Security	12
Refuse Removal	11
Unhappiness expressed with Council/Service Delivery/Customer Care	8
Parks and Cemeteries	8
Education	7
Health	9
Fences and Fencing	4
Social Security	3

Focus Area	No.
Control of Public Nuisances	1
Fire, Traffic, Emergency Services & Law Enforcement	2
Transport	1

4.7 The legislated Sector Plans required in the IDP

There is a range of sector plans that addresses sector inputs to address the Strategic Development Agenda of the Municipality. Municipality has therefore formulated sector plans to support alignment with national and provincial priorities. The table below gives a summary, purpose of the sector plans in the IDP.

4.7.1 Summary Overview: Sectoral Plans

Sector Plan	Purpose of Plan	Role/Contribution to IDP Strategy	Current Status	Planned Activity/Output
Spatial Development Framework	The purpose of the SDF is to provide a spatial analysis of the Municipality; to provide spatial development principles / guidelines with accompanying maps indicating the spatial objectives and strategies of the Municipality, such as the promotion of spatial restructuring, increased densities, compact urban environment, access to infrastructure services, economic opportunities, social facilities, protection of agricultural land and natural	The contribution of the SDF to the IDP Strategy is to address the spatial requirements of issues identified through the IDP process. The SDF is a Sectoral Plan of the IDP as required in terms of the Municipal Systems Act.	SDF approved on In process of development in line with the SPLUMA Act.	The output of an approved SDF is a spatial strategy guiding the assessment and approval of land use applications in the Municipal Area. Planned activities are the amendment of the SDF on an annual basis and the review of the SDF at least once every 5 years.

Sector Plan	Purpose of Plan	Role/Contribution to IDP Strategy	Current Status	Planned Activity/Output
	resources			
Integrated Waste Management Plan	To address the challenge of Waste Management in Moqhaka in line with the National Waste Management Strategy.	To ensure that the residents of Moqhaka live in a clean and healthy environment.	The current plan has been approved by Council. The actions of the plan are on-going.	The Plan will address all areas of Waste Management - from waste prevention and minimisation (waste avoidance) to its collection, treatment, recovery and final disposal
Integrated Transport Plan	The Integrated Transport Plan (PTP) identifies and prioritises required road infrastructure upgrading and extension.	Provides current and future needs regarding required upgrading of road infrastructure network.	Draft has been developed by Fezile Dabi DM for each of the local municipalities.	Draft will be taken to Council for consideration
Water Services Development Plan	The purpose of the Water Services Development Plan (WSDP) is to progressively ensure efficient affordable, economical and sustainable access to water services that promote sustainable livelihoods and economic development.	Strategic objectives of the IDP are supported through the provision of water and sanitation services.	A new plan must be developed every 5 years and updated as necessary and appropriate in the interim years. Module 1 has been developed.	
Environmental Management System	The Environmental Management System (EMS) Plan integrates environmental functions of all sections and ensures compliance with environmental legislation.	Protects the integrity of the environment and ensures sustainability of the Municipality. Ensures participative Greener Governance	Not in place.	

Sector Plan	Purpose of Plan	Role/Contribution to IDP Strategy	Current Status	Planned Activity/Output
Biodiversity Strategy	This strategy is an input to the Environmental Management System (EMS) which protects the integrity of the environment and ensures sustainability of the Municipality. Ensures participative Greener Governance	Protects the integrity of the environment and ensures sustainability of the Municipality. Ensures participative Greener Governance.	Not in place.	
Air Quality Management Plan	The Air Quality Management Plan (AQMP) forms an input to the Environmental Management Plan (EMP) which protects the integrity of the environment and ensures sustainability of the Municipality. Ensures participative Greener Governance	Protects the integrity of the environment and ensures sustainability of the Municipality. Ensures participative Greener Governance.	Not in place.	
Energy Master Plan	To indicate the Municipality's initiatives to reduce the towns energy usage in a sustainable manner	To ensure that enough energy is available to support existing and developmental needs.	Not in place.	
LED Strategy	Outlines how Council can create an enabling environment for economic growth that will benefit all the Citizens, especially those that are poor	Local Economic Development is a high strategic priority of Council.	Developed and approved.	To be reviewed by 30 June 2025

Sector Plan	Purpose of Plan	Role/Contribution to IDP Strategy	Current Status	Planned Activity/Output
Disaster Management plan	To address any natural or manmade Disaster that may occur.	Disaster Management is an integral part of the IDP to ensure a safer community.	Developed and approved.	To be reviewed by 30 June 2025
Integrated Sustainable Human Settlement Plan	Aims to initiative a process of ensuring that housing implementation contributes to the creation of vibrant sustainable and integrated communities in the Moqhaka Municipality.			
Employment Equity Plan	To achieve and maintain retrospectivity in the workplace by appointing, empowering and developing competent members of staff which are equipped to implement the strategic plans of Council.	Transformation	Draft Plan to considered by Council for approval by 30 September 2025.	Continuous review of the Recruitment and Selection policy. Reaching of targets as set out in the internal Employment Equity Report. Continuous appointment of competent staff members within the goals of the EE Plan.
Human Resources Strategic Plan	To ensure that HR serve and support the Municipality in achieving its strategic objectives through proper HR practices such as recruitment, training, performance management,	Good Governance and Transformation	Human Resource Strategic Plan to be reviewed by 31 December 2025.	Continuous recruitment, training and development of staff, individual performance reviews and administration of staff.

Sector Plan	Purpose of Plan	Role/Contribution to IDP Strategy	Current Status	Planned Activity/Output
	health and safety, personnel administration and labour relations			
Workplace Skills Plan	To Plan, budget and Implement Staff Training Activities	Transformation	Updated and submitted to LG Seta on 30 April 2026.	Implementation of the WSP activities and submission of Annual Training reports to the LGSETA.
Performance Management System	Facilitate a performance driven culture and accountable Municipality.	To set performance indicators and targets that will measure the effectiveness and efficiency of the Municipality in implementing its IDP Objectives.	Performance Management Policy Framework adopted by Council in 11 April 2024.	Reviewed in April 2024
Long Term Financial Plan	The purpose is to outline the comprehensive multi- year financial plan that will ensure long-term financial sustainability for the Municipality.	The financial plan will ensure financial sustainability of the Municipality in the realisation of the IDP objectives.	Financial Plan has been submitted as part of the IDP.	Will be further reviewed and fully aligned to the five-year plan (IDP) during 2022/2027. After draft budget has been finalised.
Water and Sewerage Master Plan	The water & sewerage water plans identify and prioritises required bulk water services infrastructure upgrading and extensions.	Provides current and future needs regarding required upgrading of water and sewer infrastructure network	Not in place.	Not in place.
Roads and Storm Water Management	The Roads and Storm Water Management	Provides needs regarding required	Approved in 2016	To be reviewed

Sector Plan	Purpose of Plan	Role/Contribution to IDP Strategy	Current Status	Planned Activity/Output
System	System Addresses Priorities in required maintenance on the roads and systems.	upgrading of storm water network in wards specified. Currently the highest issue raised by wards.		
Pavement Management System	The Pavement Management System identifies and prioritises required maintenance and upgrading of streets infrastructure.	Provides current and Future needs regarding required maintenance.	Not in place.	

Chapter 5 Development Objectives and Strategies

5.1 Introduction

This chapter entails Moqhaka Local Municipality's Vision and Mission that gives directives to the developmental agenda of the Municipality. The broader developmental agenda of MLM consists of short-, medium- and long-term development goals.

MLM is committed to the objectives of local government which are enshrined in section 152 (1) of the Constitution of the Republic of South Africa, 1996 namely:

- (a) To provide democratic and accountable government for local communities.
- (b) To ensure the provision of services to communities in a sustainable manner.
- (c) To promote social and economic development.
- (d) To promote a safe and healthy environment; and
- (e) To encourage the involvement of communities and community organisations in the matters of local government.

Municipality's development strategies are therefore, crafted within the context of ensuring that efforts are focused on delivering the expected outcomes of the developmental mandate of the local sphere of government.

Vision

“Moqhaka Local Municipality strives to be a Municipality that creates an enabling environment for socio economic growth and sustainable development.”

Mission Statement

“To maintain and enhance quality of life by providing effective, efficient quality and affordable services equitably and facilitating sustainable socio-economic growth through active community participation.”

The municipality has through its strategic planning and public participation processes ensured that the Municipal Strategic Priorities were unpacked by developing key performance areas (KPAs), programmes, objectives, key performance indicators (KPIs) and targets for each of the KPAs and programmes.

The said objectives, indicators and targets (outlined in the tables below) have been aligned to the Provincial Priority Outputs, where possible and will form the basis for the development

of the municipality's Service Delivery and Budget Implementation Plan (SDBIP) and Annual Performance Plans of Senior Management for the 2016/17 financial year.

5.2 Strategic Objectives

The vision and mission of the municipality have led to the conceptualisation of the following strategic objectives.

FIGURE 3: SUMMARY OF NEEDS AS PRIORITISED

5.3 Alignment of selected National, Provincial, District and Local objectives.

Section 24 (1) and (2) of the Local Government: Municipal Systems Act (No: 32 of 2000) stipulates the following about “Municipal planning in co-operative government-

The planning undertaken by a municipality must be aligned with, and complement, the development plans and strategies of other affected municipalities and other organs of state to give effect to the principles of co-operative government contained in Section 41 of the Constitution.

Municipalities must participate in national and provincial development programmes as required in Section 153 (b) of the Constitution.”

Furthermore, Regulation 2(1) (d) stipulates that “(1) A municipality’s integrated development must at least identify-

“(d) all known projects, plans and programmes to be implemented within the municipality by any organ of state.”

In line with above, Chapter 7 of this document deals extensively with projects that the Sector Departments of the province will implement within the MLM area. The above are clearly the key planning assumptions for MLM in the development of its IDP. This is a progressive planning rationale and is based on a clear legislative framework to ensure consistency and an enhanced quality of the IDP. This planning rationale is underpinned by the principle of Co-operative Governance as entrenched in the Constitution of the Republic of South Africa, 1996.

5.3.1 The value of Planning Alignment

The capital markets for municipalities have become extremely complex and difficult to access. A common basis for this has been the narrow tax base which is adversely affecting most municipalities in the country. The rapid growth of the area has also sparked a regressive response by some of the key variables in a healthy economy. This rapid growth seems to be outstripping the Municipal infrastructure’s capacity and as such, places a huge capital burden on the Municipality. This burden requires an aggressive response by the Municipality to address the challenges of bulk infrastructure and reticulation infrastructure needs.

It is quite clear that the Municipality alone will not be able to meet all its challenges and therefore it will be necessary to explore beyond its own means and perhaps the traditional funding sources. High levels of creativity will be the key ingredient of any strategic response to these massive challenges. Various key strategies and plans are required to gear for

maximum utilisation of available resources. Different strategies and plans from all spheres must be considered to:

➔ Avoid Duplication of Initiative

MLM's IDP must ensure that cognisance is given to the relevant Sector Departments and respective strategies and plans. The IDP must be based on and aligned with all plans of relevant Sector Departments with resource allocations at their respective levels. The powers and functions of the different spheres of government are the means to avert duplication and funding related to those initiatives.

➔ Ensure efficient utilisation of limited resources

Aligned plans ensure that resources are creatively harnessed and, as such, a lot more is achieved than would have had there been a piecemeal approach. Both the IDPs of Fezile Dabi District and Moqhaka Local Municipalities should serve as a platform for all the spheres of government to converge and define the development path of the District in general and more specifically the Moqhaka Municipal area. The three main funding sources for the IDP would be the Municipality's own income (tax base), conditional and unconditional grants, and lastly, the Provincial and National Governments' financial interventions. The latter is very important and this suggests that the alignment of planning instruments in the different spheres of government should allow for impact to be maximised by ensuring that limited resources are efficiently utilised. The alignment of selected National, Provincial, District and Local objectives is illustrated in the table below:

TABLE 65: ALIGNMENT OF PLANS

National 12 Key Outcomes		National: NDP	Provincial: Vision 2030	Fezile Dabi District Municipality One Plan	Local: MLM IDP
1	Improved quality of basic education	Improving education and training	Education, innovation and skills development		Improved Organisational Cohesion and effectiveness
2	A long and healthy life for all South Africans	Providing quality health care	Improved quality of life		Broaden access and improve quality of municipal services.
3	All people in South Africa are and feel safe	Transforming society and uniting the nation	Building Social Cohesion.	Building a Capable State	Promote a culture of participatory and good governance.
4	Decent employment through inclusive growth path	Creating jobs and livelihoods	Inclusive Economic Growth and Sustainable job creation.	Ensure an enabling economic environment exists for the thriving private Sector with the aim of the Job Creation	Create an environment that promotes the development of the local economy and facilitate job creation
5	A skilled and capable workforce to support an inclusive growth path	improving education and training	Education, innovation and skills development	Skills development directed to support the local economy	Improved Organisational Cohesion and effectiveness
6	An efficient, competitive and responsive economic infrastructure network	Transitioning to a low-carbon economy	Inclusive Economic Growth and Sustainable job creation.	Regulatory changes, a supportive policy environment and enabling conditions for ease of doing business	Create an environment that promotes the development of the local economy and facilitate job creation
7	Vibrant, equitable and sustainable rural communities with food security for all	Transforming urban and rural spaces	Sustainable Rural Development	To provide better living conditions, tenure security and access to basic physical and social infrastructure for farm worker	Build united non-racial, integrated and safer communities
8	Sustainable human settlements and improved quality of household life	Transforming society and uniting the nation	Building Social Cohesion.	Building a Capable State	Build united non-racial, integrated and safer communities
9	A responsive, accountable, effective and efficient local government system	Fighting corruption and enhancing accountability	Good Governance	Setting standards for service delivery	Broaden access and improve quality of municipal services.
10	Environmental assets and natural resources that are well protected and continually enhanced			Ensure an enabling environment exists for thriving Private Sector with the aim of Job Creation	Broaden access and improve quality of municipal services.
11	Create a better South Africa and contribute to a better and safer Africa and World			Economic Integration and further integration into the Provincial and National Space	
12	An efficient, effective and development oriented public		Good Governance	Social Compartmenting	To improve overall financial Management by developing and

TABLE 65: ALIGNMENT OF PLANS

National 12 Key Outcomes		National: NDP	Provincial: Vision 2030	Fesile Dabi District Municipality One Plan	Local: MLM IDP
	service and an empowered, fair and inclusive citizenship				implementing appropriate financial management policies, procedures and systems

The municipality has through its strategic planning and public participation processes ensured that the Municipal Strategic Priorities were unpacked by developing key performance areas (KPAs), programmes, objectives, key performance indicators (KPIs) and targets for each of the KPAs and programmes.

The said objectives, indicators and targets (outlined in the tables below) have been aligned to the Provincial Priority Outputs, where possible and will form the basis for the development of the municipality's Service Delivery and Budget Implementation Plan (SDBIP) and Annual Performance Plans of Senior Management for the 2022/23 financial year.

5.4 Strategic alignment of key performance areas and priority areas

5.4.1 Key Performance Area 1: Basic Service Delivery

Chapter 6 Long Term Financial Plan

6.1 Introduction

This chapter aims to delineate a comprehensive multi-year financial plan designed to ensure the long-term financial sustainability of Moqhaka. The Financial Plan is crucial for the Municipality to effectively fulfil its mandate without compromising its capital base and to progress towards self-sufficiency in addressing the increasing demands of service delivery.

The multi-year Financial Plan is crafted for a five-year planning horizon, with a strong focus on infrastructure investment, a vital developmental element of the Integrated Development Plan (IDP). This plan is designed to bolster Moqhaka's financial stability and sustainability, thereby streamlining the collaboration of capital investment projects with various governmental tiers and private sector stakeholders. It is crucial for Moqhaka to invigorate the macroeconomic environment to draw private sector investment. This strategy will enhance Moqhaka's ability to secure essential financial resources for both the development of new infrastructure and the upkeep of existing infrastructure assets.

This plan will also emphasize the enhancement of Moqhaka's revenue sources in relation to its expenditures to ensure the Municipality remains a financially viable and sustainable entity. Moqhaka must employ its available financial resources in an effective, efficient, and economical manner to ensure that outputs align with the desired outcomes as specified in Chapter 4 of the IDP. The financial strategies outlined in this plan must facilitate the realization of these objectives.

It is essential to recognize that this multi-year financial plan will address key focus areas over the forthcoming five years and potentially beyond. However, given that the budgets, as stipulated by the National Treasury's Municipal Budget and Reporting Regulations, encompass only the planning period of the upcoming financial year and the subsequent two financial years, the budgetary information presented in this chapter may be limited to the next three financial years. Additionally, it will include data from the current financial year as well as audited information from the preceding three financial years.

The subsequent discussion will address key focus areas, including a financial framework, financial strategies, financial policies, budget assumptions, operating revenue, operating expenditure, capital expenditure, capital expenditure funding, and a concluding statement.

6.2 Financial Framework

It is essential to acknowledge the diversity among municipalities, which should be taken into account when analyzing their financial status and setting relevant benchmarks. Municipalities can be classified into developed or developing categories. Moqhaka, for example, is identified as a developing or expanding municipality.

To facilitate the anticipated development, emerging municipalities will require a considerable influx of resources and financial support. The pursuit of growth is accompanied by inherent risks that necessitate careful management. From a fiscal perspective, ensuring the municipality's viability and sustainability remains the foremost priority.

6.2.1 Revenue adequacy and certainty

It is imperative that Moqhaka secures sufficient revenue sources from its own operations and intergovernmental transfers to effectively fulfil its functions. Additionally, it is crucial to establish a reasonable degree of certainty regarding the source, amount, and timing of revenue. The latest Division of Revenue Act (DoRA) specifies the level of funding from the National Government that will be allocated for the 2025/2026 to 2027/2028 financial years.

Monitoring the diverse revenue streams of the Municipality is crucial, as these sources can vary widely and change significantly based on the Municipality's current stage of development. A comprehensive understanding of these funding sources will offer a clearer insight into the Municipality's financial status, its ability to obtain loans in proportion to its income, and its overall borrowing capacity.

6.2.2 Cash / liquidity position

Cash and cash management is vital for the short- and long-term survival and good management of any organisation. This is also the case with Moqhaka. The appropriate benchmarks which can assist in assessing the financial health of the Municipality are:

(a) The **current ratio**, which expresses the current assets as a proportion to current liabilities. A current ratio in excess of two to one (2:1) is considered to be very healthy. Moqhaka as at 30 April 2025 stood at a ratio of 0.48:1; as at 30 June 2024 at a ratio of 0.57:1. These outcomes are considered highly unfavourable in the short to medium term and necessitate rectification. The operating budget must generate annual operating surpluses to enhance our cash reserve position, and all collectible revenue must be duly collected.

(b) **Debtor's turnover ratio**, which have a great impact on the liquidity of the Municipality. The Municipality as at 30 June 2024 took on average 261 days to recover its outstanding debts. It decreased to 228 days as at 30 June 2024 and then to 179 days as at 30 April 2025. Moqhaka envisaged to attempt to reduce the debtor's turnover ratio (without provisions for bad debt) to less than 150 days and 100 days in the short-term. The acceptable norm is 30 days.

(c) The **collection rate** for the 2024/25 was 85% and Moqhaka will endeavour over the short-, medium- and long-term to increase it to 95% and higher.

6.2.3 Sustainability

Moghaka is tasked with ensuring that its budget remains both balanced and cash-funded, which necessitates that anticipated revenues are sufficient to cover all expenditures. Given the limitations on revenue generation, it is crucial to deliver services at cost-effective levels while ensuring the complete recovery of service delivery expenses. Nonetheless, to ensure that households lacking the financial means to pay for even a portion of their basic services can still access these essential services, it is essential to implement an indigent support subsidy to subsidize these households.

6.2.4 Effective and efficient use of resources

In a setting where resources are constrained, it is vital for the Municipality to maximize the use of its available resources by deploying them effectively and efficiently. Enhancing operational and investment efficiency will improve access to essential services for economically disadvantaged groups. Therefore, it is crucial that the operating budget be developed using a zero-based budgeting approach to remove any excess funds typically embedded in a budget due to the incremental budgeting process.

6.2.5 Accountability, transparency and good governance

The Municipality is responsible to its citizens for the management of resources entrusted to it. The processes involved in budgeting and other financial decisions should be transparent, allowing for public examination and involvement. Additionally, the systems for accounting and financial reporting must be structured to reduce the risk of corruption and fraud. It is crucial that precise financial data is produced within acceptable time limits.

6.2.6 Equity and redistribution

The Municipality is obligated to ensure fairness and justice in the provision of services to its constituents. Similarly, it is imperative that the Municipality receives equitable treatment from both national and provincial governments concerning inter-governmental transfers. The "equitable share" allocated by the national government is intended primarily for targeted subsidies aimed at assisting lower-income households. Furthermore, the Municipality will persist in implementing cross-subsidization strategies between high- and low-income consumers within a specific service or across different services.

6.2.7 Development and investment

To effectively manage service backlogs, it is essential for the Municipality to enhance its investment in municipal infrastructure.

6.2.8 Borrowing

The robust capital market in South Africa, encompassing commercial banks and other lending institutions such as the DBSA and INCA, offers an additional mechanism for accessing financial resources. However, it is imperative that the Municipality refrains from borrowing to balance its operating budget or to finance any operational expenditures.

Safeguards must be established to ensure that the Municipality engages in borrowing practices responsibly. To access this market, the Municipality must maintain accurate and appropriate financial accounting and reporting systems. It is essential to ensure the generation of sufficient cash flow to meet repayment obligations.

The manner in which the Municipality manages existing debt or incurs new debt to finance investment activities will significantly influence its solvency and long-term viability.

6.3 Financial Strategies

6.3.1 Revenue raising strategies

The following are some of the programs that have been identified:

- a) Ward based public participation meeting to create awareness and encourage payment of accounts,
- b) Data cleansing to ensure data integrity and complete and accurate billing,
- c) Enforcement of credit control mechanisms and policy as well as the by-laws to keep accounts up to date.
- d) Effective and efficient implementation of debt collection processes.
- e) Blocking and disconnection of electricity meters for accounts in arrears.
- f) Sending letters of demand for service accounts in arrears.
- g) Verification of the indigent register to ensure that only poor households benefit from the scheme and those who can afford to pay for services rendered do so.

6.3.2 Asset management strategies

The following are some of the more significant programmes that have been identified:

- (a) Development of infrastructure masterplans to enforce cost effective repairs and maintenance and future rehabilitation or upgrade of the infrastructure;
- (b) Capacity building within the Technical and Financial Services in terms of asset management, to relieve reliance on consultants for both project management and project and asset accounting;
- (c) Review of the assets management policy and procedures;
- (d) Implementation of the configuration of the asset management system into the mSCOA platform to comply with the budget reforms.

6.3.3 Financial management strategies and programmes

The following are some of the more significant programmes that have been identified:

- (a) The on-going review of the computerised financial accounting system.
- (b) Integration of all computerised systems and acquisition of hardware and software required. The integration of computerised systems and acquisition of the required hardware and software within the Municipality to ensure that information is accurate, relevant and prompt, which in turn will facilitate the smooth running and effective management of the Municipality.
- (c) Development of an mSCOA compliant MTREF Budget.
- (d) Develop and implement a uniform budget reporting framework compliant with National Treasury's Municipal Budget and Reporting Regulations.
- (e) Review and update asset, budget and accounting policies and procedures.
- (f) Training and development of financial and other staff. The aim of this project will be to constantly ensure that the financial and other staff members receive the training they require to ensure a cost-effective and efficient service to the Municipality and its customers.
- (g) Enhance budgetary controls and timeliness of financial data. Building the capacity of the Budget and Treasury Office to ensure that financial information for reporting purposes is generated timeously. It will also include the monitoring and reporting on budget variances.

6.4 Financial Policies

6.4.1 General philosophy

Moghaka's financial philosophy is centered on establishing a solid financial foundation and ensuring the allocation of resources necessary to maintain an adequate level of municipal services for its residents.

The Municipality is committed to achieving a resilient financial position that can endure local and regional economic variations; to efficiently adapt to the community's evolving service demands; to effectively sustain, enhance, and expand the Municipality's infrastructure; to manage the budget and cash flow to optimize community benefits; to strategically plan, coordinate, and implement responsible and sustainable community development and growth; and to provide a high standard of fire and other protective services to safeguard public health and safety.

Based on the financial framework, financial strategies and the general financial philosophy statement, the Municipality have to develop financial policies that support the above. Moqhaka's financial policies shall also address the following fiscal goals:

- (a) To keep the Municipality in a fiscally sound position in both the long and short term.
- (b) To maintain sufficient financial liquidity through regular reviews and adjustments to meet normal operating and contingent obligations.
- (c) To apply credit control policies which maximise collection while providing relief to the indigent.
- (d) To implement credit control policies that recognise the basic policy of customer care and convenience.
- (e) To operate utilities in a responsive and fiscally sound manner.
- (f) To maintain and protect existing infrastructure and capital assets.
- (g) To provide a framework for the prudent use of debt financing; and,
- (h) To direct the Municipality's financial resources toward meeting the goals of the Municipality's Integrated Development Plan.

6.4.2 Budget related policies

- (a) Budget Policy
- (b) Indigent Subsidy Policy
- (c) Cash and Investment Policy
- (d) Cash Control Policy
- (e) Petty Cash Policy
- (f) Travel and Subsistence Policy

6.5 Budget Overview

There are three budgets tabled for approval by Council, the operating expenditure budget, the operating revenue budget and the capital budget.

Table 1 Consolidated Overview of the MTREF

Description R'000	Adjustment Budget 2024/25	Budget 2025/26	Budget 2026/27	Budget 2027/28
Total Operating Revenue	1 326 870	1 496 483	1 555 197	1 597 385
Total Operating Expenditure	1 271 435	1 385 790	1 439 737	1 479 319
Surplus/Deficit	55 435	110 693	115 460	118 066
Total Capital Expenditure	116 285	95 021	113 000	115 457

The total operating revenue for the 2025/26 financial year has been forecasted at **R1 496 billion**. When compared to the 2024/25 Adjustment Budget, operational revenue has experienced a growth of **6.7%**. For the two outer years, operational revenue is anticipated to increase by **4.6%** and **4.4%** respectively.

The total operating expenditure for the 2025/26 financial year has been forecasted at **R 1 385 billion**. When compared to the 2024/25 Adjustments Budget, operational expenditure has been projected at **6.0%** in the 2025/26 budget year and by **4.6%** and **4.4%** for each of the respective outer years of the MTREF. The anticipated surpluses to be raised will be used to predominantly fund capital expenditure and to further ensure cash backing of funds and reserves.

The capital budget amounts to **R 95** million for 2025/26, which is a R21 million decrease from 2024/25 Adjustment Budget. The capital budget will mainly be funded from grants over the MTREF with gazetted grants of **R66.5** million as per the Division of Revenue bill 2025/26 and **R28** million from the municipal own funding.

6.5.1 The following budget principles and guidelines directly informed the compilation of the 2025/26 MTREF:

- The 2024/25 Adjustment Budget priorities and targets, as well as the base line allocations contained in that Adjustment Budget were adopted as the upper limits for the new baselines for the 2025/26 annual budget.
- The incremental and Zero-based budgeting methodology were adopted in the compilation of the Capital Budget.
- The Tariffs and Property Rates increases should remain affordable and should generally not exceed inflation as measured by the CPI year on year, except where

there are price increases in the inputs of services that are beyond the control of the municipality.

- Tariffs need to remain or move towards being cost reflective and should consider the need to address the infrastructure backlogs and maintenance thereof.
- The necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the Annual Division of Revenue Act.

6.5.2 Tariff Setting

There are several tools available, and methodologies employed to determine the appropriate tariffs. The municipality may favour different approaches, but the principles of tariff setting is consistently applied. The municipality considered the following practicalities when setting tariffs:

- The Costs of bulk purchases (Electricity & Water) and the fluctuation in the seasonal cost {time-of-use-tariffs} thereof.
- The Consumption patterns to enable better demand management and planning; and
- If the municipality has been under recovering costs, embark on a process to correct the tariff structures over a reasonable time so that cost reflective tariffs are phased in, in a manner that spreads the impact on consumers over a reasonable period.

The tariff setting process is reliant on sound baseline information such as the number of properties within the municipal area of jurisdiction, the values of these properties, the number of households identified as indigent/poor, the consumption patterns in respect of basic services and the growth patterns within the various geographic areas.

The inflation rate forecasts as per the MFMA Circular no. 129 and 130 issued by National Treasury has been considered in compilation of the MTREF. The maximum of **4.4%** rate increase was pronounced amongst the Revenue tariffs increases. However, some tariffs are higher than the stipulated percentage as these are based on recovering the cost of delivering the respective services and ensuring that the municipality remains sustainable!

6.5.3 Tariffs (Average Increases)

The proposed revisions to the tariffs have been formulated in accordance with the municipality's Tariff and Rates Policy and complies with Section 74 of the Municipal Systems Act as well as the recommendations of the National Energy Regulator of South Africa (NERSA). In terms of Section 75A of the Local Government Municipal Systems Act, any fees, charges or tariffs which a municipality may wish to levy and recover in respect of any function or service of the municipality, must be approved by a resolution passed by the municipal Council with a supporting vote of a majority of its members.

The *average* tariff increases for the MTREF is as follows:

Description	2021/22	2022/23	2023/24	2024/25	2025/26
Property Rates	6.7%	5.1%	4.9%	4.9%	4.4%
Electricity	14.59%	8.6%	4.9%	12.4%	12.74
Water	6.3%	7%	4.9%	4.9%	4.4%
Sanitation	6.6%	5.4%	4.9%	4.9%	4.4%
Refuse	8.1%	5.9%	4.9%	4.9%	4.4%
Other Income	6.5%	6.1%	4.9%	4.9%	4.4%

* *Electricity tariffs is as per the National Energy Regulator of South Africa (NERSA) approval.*

*** *Detailed tariff list is attached as **Annexure F**.*

The Council, in compliance with Section 14 of the Local Government: Municipal Property Rates Act, 2004 notes and tables to Council for approval the property rates increase as set out as per the tariff list attached as **Annexure F**.

COST REFLECTIVE TARIFFS

The following information provides clarity in terms of the cost reflective tariffs for MTRF 2025/2026

Moghaka		Moghaka		Moghaka		Moghaka				
Tariff Assessments for the MTREF Period										
Year 1	Assessment Status	Financial Year	Period	Item	Water	Waste Water	Electricity	Solid Waste	Total Surplus/Deficit	Year 1
	Cost Reflective	2023/2024	Year1	Revenue Required by NT Tariff Tool	71 539 030	49 333 099	431 294 945	42 333 979	594 501 053

Assessment Outcome per Service				Cost Reflective	Cost Reflective	Cost Reflective	Cost Reflective	Cost Reflective		

It is against this background that we are of the view that the municipality's tariff is cost reflective as required by MFMA Circular No. 98. The municipality is currently busy with the tariff setting tool to benchmark it's costing structure for the 2025-2026 financial year. This process will enable us to ensure that the necessary corrections are affected on the draft tariffs setting process for the respective financial year.

6.5.4 The main challenges experienced during the compilation of the MTREF

- The ongoing economic difficulties in relation to the national and local economic growth;
- The effects of Covid-19 have also exacerbated the unemployment crisis experienced by the municipality.
- The aging water, roads, sewer and electricity infrastructure.
- The need to reprioritise projects and expenditure within the existing resource basket given the cash flow realities and declining cash position of the municipality coupled with the ongoing increase of the municipality's debtors book.
- The increased cost of electricity (due to tariff increases as approved by NERSA);
- Wage increases for municipal staff that continues to exceed consumer inflation, as well as the need to fill critical vacancies to augment basic service delivery.
- The lack of affordable capital/borrowing.

6.5.5 Overview of Budget Funding

In line with Section 18 (1) of the MFMA which states that an annual budget may only be funded from:

- ✓ Realistically anticipated revenues to be collected.
- ✓ Cash backed accumulated funds from the previous years' surpluses not committed for other purposes; and
- ✓ Borrowed funds, but only for the capital budget referred to in Section 17.

The importance of tabling funded budgets is highlighted in MFMA Circular No. 74.

The achievement of this requirement in totality effectively means that the Council has "Balanced" its annual budget by ensuring that budgeted outflows will be offset by a combination of planned inflows. Refer to Table A7 Budgeted Cash Flows and Table A8 Cash backed reserves/accumulated surplus reconciliation.

The Municipality continues to experience an unfavourable financial profile and low liquidity levels, which is mainly attributable to:

- The high outstanding debtors' book which continues to increase on an annual basis due to non-payment of services by consumers,
- The municipality operates within its annual budget, as approved by Council.
- The municipality maintains a minimal cash to fund operations in effecting service delivery.

In compliance with relevant statutory requirements, the Financial Plan (Medium Term Revenue and Expenditure Framework-MTREF) is reviewed and updated annually.

The Capital budget is mainly funded by the allocations (grants) received by the municipality from National and Provincial Government in the form of grants, as well as public contributions.

and donations, borrowings and internally generated funds.

The municipality raises revenue from a basket of differential tariff increases determined in the most acceptable and equitable funding regime taking into consideration the actual cost of delivering services, budget priorities and national legislation, regulations and policy guidelines. The municipal revenue comprises of operating revenue which includes property taxes, services charges and operating grants- and capital revenue which consists of capital grants, borrowings, cash reserves and operating surplus.

This high level of independent and relative stable income sources of revenue is one of the key factors that support the sound financial position of the municipality. In addition to the obvious need to grow the municipality's revenue by increasing its tax base, other means for securing funding for Council projects need to be explored in a variety of ways. The municipality faces unpleasant choices in attempting to finance the projected levels of investment in infrastructure. Sources of capital finance are already stretched with limited scope for further borrowing, consumer pressure to restrict tariff and tax increases, and little likelihood of a structural upward adjustment in grant allocations. Further, efficiencies in the borrowing programme will continue to be sought to lock in lower cost and longer-term

borrowing, plus the introduction of new revenue sources such as infrastructure contribution and charges.

6.5.6 Operating Revenue Framework

The municipality generates income from various sources such as exchange and non-exchange transactions. Revenue from exchange transactions is generated mainly from trading services. The municipality has adopted a consolidated billing system for both exchange and non-exchange transactions for municipal services. Billing is therefore done systematically based on fixed monthly tariffs for other services as well as consumption-based billing for metered services.

For Moqhaka Local Municipality to continue improving the quality of basic services provided to its citizens it needs to generate the required level of revenue and improve its debt collection rate. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and high poverty and unemployment rate in our area.

The expenditure required to address these challenges will inevitably always exceed available funding, taking into account the subsidies that the municipality needs to provide to the poor, hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

6.6 The key components of municipality's revenue strategy

- National Treasury's guidelines and macro-economic policy.
- Projected growth and growth in demand for services.
- Realistic projections of revenue and collection thereof, as well as strategies for debtor's management.
- Improving the effectiveness of revenue management processes and procedures.
- Efficient revenue management, which aims to ensure a **95%** annual collection rate for property rates and service charges as required by MFMA Circular No. 71;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Paying special attention to cost containment measures by, amongst other things, controlling unnecessary spending on nice-to-have items and non-essential activities as was highlighted in MFMA Circular No.82;
- Determination of tariffs for trading services in a cost reflective and a cost recovery manner.
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service in order to achieve cost reflective tariffs (or Break-Even-Point);
- The municipality's Property Rates Policy approved by Council in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- The municipality's Indigent Policy and the rendering of free basic services; and
- Curbing consumption of water and electricity by indigents to ensure that they do not exceed their allocated benefits.

The financial sustainability of the 2025/26 MTREF is largely dependent on the collection of the anticipated revenue. Provision is made in the budget for a collection rate of 85%. To achieve this collection, Moqhaka Local Municipality is looking to implement more robust credit and debt control measures, which will ensure that all consumers who can afford to pay for services rendered do pay for those services and those who cannot afford to pay for the services are registered accordingly as indigents in terms of the municipality's indigent policy. This rate is in relation to the 2024/25 financial year revenue collection and does not take into account the collection efforts of the municipality with regards to its arrear consumer debt.

In terms of Council's social commitment to assist the poor households within Moqhaka the supply of free basic services and social contributions to identified structures in Moqhaka remains a priority in order to ensure basic service delivery.

Table 2 Summary of revenue classified by municipal votes (A3)

FS201 Moqhaka - Table A3 Budgeted Financial Performance (revenue and expenditure by municipal vote)

Total Revenue by Vote	2	1 002 709	1 078 257	1 265 820	1 411 492	1 391 416	1 391 416	1 496 483	1 555 197	1 597 385

The following table is a summary of the MTREF classified by main revenue source

Revenue Types	Adjusted Budget	Budget Year 2025/26	%	Revenue Composition
Property rates	90 811	94 806	4.4	6.63
Service charges - Electricity	489 803	548 139	11.9	38.33
Service charges - Water	195 438	204 038	4.4	14.27
Service charges - Waste Water Management	70 231	73 321	4.4	5.13
Service charges - Waste Management	48 564	50 701	4.4	3.55
Rental from Facilities	8 641	9 256	7.1	0.65
Interest: External Investment	7 979	8 373	4.9	0.59
Interest: Outstanding Debtors	75 370	78 687	4.4	5.50
Fines, penalties and forfeits	5 540	5 784	4.4	0.40
Transfer and subsidies - Operational	305 248	328 582	7.6	22.98
Other revenue	29 245	28 265	-3.4	1.98
Total	1 326 870	1 429 951	7.8	100

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculated operating surplus/deficit.

Revenue generated from **rates and service charges** comprise a significant percentage (61.6%) of the revenue basket for the Municipality. Rates and service charge revenues

comprise more than two thirds of the total revenue mix. In the 2025/26 financial year, revenue from rates and services charges amount to **R971 005 million**. This effectively means that the municipality is highly dependent on its consumers/households/community to pay for the services rendered to enable the municipality to continue rendering these basic services consistently so.

6.7 Tariffs increase remarks

Electricity

The electricity tariff increase is in line with the NERSA Guideline Increase of **12.74%**. The municipality is experiencing an outright deficit of **1.5%**. This also put pressure on the municipal fiscus including the municipality's ability to service its Eskom Debt.

Water

Revenues from water services increased on average by **4.4%**. The municipality continue to experience major challenges with regards to its water network, which in most cases leaves the community without water for extended period of times. The water network is still predominantly asbestos pipelines. This continues to adversely affect our water distribution infrastructure due to continuous burst pipes, especially during the winter season due to the type of network in place (asbestos pipes).

The repairs and maintenance cost for the network is funding from the "basic water charge" tariff. It has been evident from the past 3 years that this tariff does not adequately cover the costs of effectively maintaining the water network. This tariff continues to experience a higher tariff increase to ensure that adequate financial resources is available for the rehabilitation of the water infrastructure network.

Sanitation

Revenues from sanitation services increased on average by **4.4%**. The municipality continue to experience serious challenges with regards to its sanitation network. The network is a clay pipe network and is aged, while at the same time the municipality is experiencing continuous collapse lines which is very costly to the municipality to upkeep and maintain. These clay pipes most of the time results in sewer blockages due to the aging thereof, which also exacerbate the repairs and maintenance costs relating to the sanitation infrastructure network.

The repairs and maintenance cost for the network are mainly funded from the "basic sanitation charge" tariff. It has been evident from the past 3 years that this tariff is not adequate to cover the costs of effectively maintaining the sanitation network. This tariff will experience a higher tariff increase to ensure that adequate funding is available for the rehabilitation of the sanitation infrastructure network. This issue is also exacerbated by the non-compliant effluent deposited by consumers on the network.

REFUSE

Revenues from Solid Waste Management increased on average by **4.4%**. The increased tariff is based on the costs of delivering the respective service. This is a progressive increase in ensuring that the tariffs are cost reflective, and that the division results in financial sustainability.

It was also determined by the municipality that one of the contributors to the Solid Waste expenditure relates to the excessive time spent (which leads to overtime been worked in most cases) collecting refuse that is kept in containers which does not comply with the required specifications as outlined in the Provincial Gazette of 13 March 2015

OTHER REVENUE

Other revenue component increased on average by **4.4%**. This was as a result of the alignment of the costs involved in rendering these services, so as to ensure that the municipality does not run these services at a loss which will ultimately affect the municipality's going concern.

Other revenue comprises of various items such as income received from building plan fees, connection fees, rental of properties and advertisement fees. The departments are continuously reviewing the tariffs relating to these services on an annual basis to ensure they are cost reflective, market related and financially sustainable. This will also enable the municipality to have sufficient resources to effect the necessary repairs and maintenance to keep the properties on a good condition.

6.8 Operational transfer

The Operating grants and transfers amounted to **R305,2** million in the 2024/25 financial year and the grants increased to **R328.5** million for the 2025/26 financial year. This is mainly because of the increase in the municipal equitable share allocation for the new financial year.

6.9 Operating Expenditure Framework

The Municipality's expenditure framework for the 2025/26 budget and MTREF is informed by the following:

- The asset renewal strategy and the repairs and maintenance plan.
- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit.
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA.
- The capital programme is aligned to the asset renewal strategy and backlog eradication plan.
- Operational gains and efficiencies will be directed to funding the capital budget and other core services; and
- Strict adherence to the principle of no project plans no budget. If there is no business plan no funding allocation can be made.

Total Expenditure	1 271 434 649	1 360 830 822	7	100.00

REMARKS

The budgeted allocation for employee related costs for the 2025/26 financial year amounts to R449 million, which equates to 33.2% of the total operating expenditure. The employee increase percentage is within the threshold as stipulated in the MFMA Circular No. 129 and 130.

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been considered in compiling the respective budget.

The cost associated with the remuneration of the municipality's senior managers is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Local Government: Upper Limits of Total Remuneration Packages payable to Municipal Managers and Managers directly accountable to Municipal Manager. The most recent proclamation in this regard has been considered in compiling the respective budget.

Bulk purchases are directly informed by the purchase of electricity from Eskom. The annual price increases as approved by NERSA (National Energy Regulator of South Africa) have been factored at 12.74% into the budget appropriation and directly inform the revenue provisions. The expenditure also incorporates the reticulation losses.

Provision for depreciation and asset impairment has been faced in over the financial years due to its excessive impact on the revenue tariffs, to provide for the asset renewal because of use over the years in line with GRAP 17.

Finance charges consist primarily of the repayment of interest on long-term borrowing (cost of capital). The municipality is currently servicing the DBSA loan. The reduction in finance charges is the expected outcome on the municipality's obligations due to payment arrangements that have been entered into.

The provision of debt impairment was determined based on an annual collection rate of 85%. While this expenditure is considered to be a non-cash flow item, it informs the total costs associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues. The debt impairment provision was also increased taking into account the current outstanding municipal debt.

6.11 Capital expenditure

The following table provides a breakdown of budgeted capital expenditure by Council vote.

Table 7 Budgeted Capital Expenditure by Vote, Standard Classification and funding

6.13 Remarks on the cashflow

The cash flows have been projected on the various revenue streams based on the actual collection rate of the revenue streams.

Revenue Description	Collection Rate
Property Rates	85%
Electricity revenue	90%
Water revenue	85%
Sanitation revenue	85%
Refuse revenue	80%
Operating & Capital grants	100%
Other Income	80%
Average Collection	85%

The municipality has also made provision to meet **95%** of its overall Operational obligations. This provision is to be reviewed during the adjustment budget process depending on the availability of additional revenues and **100%** of the Capital commitments. The 4% variance between the revenue collection and the expenditure, will be subsidised through the additional revenue enhancement mechanisms as outlined in the budget funding plan and the collection of outstanding debt, which is also coupled by the radical meter replacement process undertaken by the municipality.

Collections from Arrear Debtors

The municipality's debtors book amounted to R1 721 605 132 as at 28 February 2025. The municipality plans to collect at least **5% (R86m)** of its arrear debt in order to fund the outstanding creditors and other operational requirements during the budget year.

The municipality owes Eskom **R1 671 920 013** as at the preparation of the Draft Annual Budget 2025/26. The municipality signed a payment arrangement with Eskom to settle this outstanding debt. The repayments relating to the current account are already provided for within the annual budget. This outstanding debt continue to decline very slowly given the fact that the municipality is still cross-subsidising other services to ensure effective service delivery.

The municipality continue to target the reduction of the reticulation losses for both water and electricity which were as follows; Water amounted to **R81m** & Electricity at **R171m** – as per the Audited Annual Financial Statements of 30 June 2024 through its continuous program of water and electricity meter replacements. To effectively carry out this task, the municipality sourced the services of private contractors to speed up the replacement of faulty water and electricity meters.

6.15 Long term borrowing

The municipality has not obtained any new long-term borrowings in the current financial year. The table below indicates the balances as at 31 March 2025 and the projections for the current and the next MTREF.

Table 11 Municipal Borrowing

Chapter 7 Performance Management

7.1 Introduction

Performance Management refers to the application of activities to ensure that goals in the IDP are consistently being met in an effective and efficient manner. The overall aim of the Moqhaka Local Municipality's (MLM) performance management system is to ensure that the organisation and all its subsystems are working together in an optimum fashion to achieve desired results. Achieving overall goals require several continuous activities, including identification and prioritisation of desired results, establishing means to measure progress towards those results, setting standards for assessing the achievements of results, tracing and measuring progress towards results, exchange feedback and in doing so continuously monitor and evaluate progress.

The MLM's Performance Management Framework, which was approved by Council in December 2022, and reviewed in April 2024 is informed by legislation, policy and regulations relevant to performance management in local government. The contents of relevant documentation provide a framework that local governments should comply with so as to ensure continuous development that will culminate in the improvement of quality of lives of local communities.

The purpose of this Chapter is to reflect on the implementation, monitoring and reporting of the IDP and SDBIP through the MLM's Performance Management System.

7.2 IDP and PMS

To comprehend the relationship between IDP review and performance management, the following quotation from the Performance Management Guide for Municipalities, DPLG, 2001 (draft2, page 16) becomes relevant:

"The IDP process and the performance management process should appear to be seamlessly integrated. Integrated development planning fulfils the planning stage of performance management. Performance management fulfils the implementation management, monitoring and evaluation of the IDP process".

Although the IDP is a five-year plan, Section 34 of the Municipal Systems Act (2000) states that it has to be reviewed annually. The IDP has to be handled at the highest level, hence the allocation of the responsibility to the executive mayor to manage. The executive

mayor may assign responsibilities related to the development and management of the IDP to the municipal manager. As head of the administration, the municipal manager in turn

is responsible and accountable for the formation of an efficient and accountable administration to give effect to the IDP.

The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end of-year service delivery targets, set in the budget and IDP. It determines the performance agreements for the municipal manager and other Section 57 managers, whose performance can then be monitored through Section 71 monthly reports, and evaluated through the annual report process.

Municipal Performance Regulations for Municipal Managers and Managers directly accountable to the Municipal Manager, published in 2006 seek to set out how the performance of municipal managers will be uniformly directed, monitored and improved. The regulations address both the employment contract of a municipal manager and the managers directly accountable to the municipal manager (Section 57 managers). The setting of targets is under investigation to comply with the suggested DPLG calculator, to present specific scores per target achievement that can advance strategic decision-making, and to evaluate MLM's successes against strategic intent.

Good corporate citizenship is therefore seen as the method that municipalities use to set their priorities through the performance management system as per the IDP, conduct their business as per the SDBIP and relate to the community they serve through community input and public participation. The purpose of the IDP is to ensure that the resources available to the municipality are directed at the delivery of programmes, projects and processes that meet agreed municipal priority areas.

Once a municipality starts to implement its IDP it is important to monitor that:

- The delivery is happening in the planned manner.
- The municipality is using its resources most efficiently; and
- It is producing the quality of delivery envisaged.

7.3 Overview of Performance Management in the Municipality

7.3.1 Policy Framework

In May 2011 the Council adopted a Revised Performance Management Framework regulating the performance management system in the municipality. The framework provides guidelines on the development and implementation of the organisational performance management system.

The objectives of institutionalising a Performance Management System, beyond the fulfilling of legislative requirements, is to serve as a primary mechanism to monitor, review and

improve the implementation of the municipality's IDP. In doing so, it should fulfil the following functions:

FIGURE 10: FUNCTIONS OF PERFORMANCE MANAGEMENT SYSTEM

In doing so it should fulfil the following functions as shown in the picture above

- Promoting accountability
- Decision-making and resource allocation
- Guiding development of municipal capacity-building programmes
- Creating a culture for best practice, shared learning within the municipality
- Develop meaningful intervention mechanisms and early warning system
- Create pressure for change at various levels
- Contribute to the overall development of the Local Government System

7.3.2 Municipal Scorecard

A number of performance models are available and any of them could be applied by the Moqhaka Local Municipality. Some of the available models include the Municipal Scorecard, Balanced Scorecard and the Key Performance Area Model. However, the Municipality has chosen the Municipal Scorecard (MS) as its preferred performance management model. In terms of the MS model all indicators are grouped together into four perspectives as depicted in the figure below e.g. inputs, process, outputs and outcomes.

A Municipal Scorecard Model is a balanced scorecard adapted for measuring key performance on developmental areas that are relevant to municipal service delivery and the public sector. This municipal scorecard model groups indicators together under the 5 Year Local Government Strategic Agenda Key Performance Areas (KPA's). There are five KPA's that municipalities are required to align their strategic planning on and these cut across every functional area of a municipality. The municipal scorecard measures a municipality's performance through grouping the municipal indicators under these perspectives:

- The Municipal Development Perspective
- The Service Delivery Perspective
- The Institutional Development Perspective
- The Financial Management Perspective
- Governance Process Perspective

7.3.3 Planning, Monitoring, Reporting and Review of Performance

FIGURE 11: PERSPECTIVE OF GOVERNANCE PROCESS

The annual process of managing performance at institutional level in the Municipality involves the steps as set out in the figure below:

FIGURE 12: PERFORMANCE MANAGEMENT CYCLE

7.3.4 Performance Planning

The performance of the Municipality is to be managed in terms of its IDP and the process of compiling an IDP and the annual review thereof therefore constitutes the process of planning for performance. It should be noted that the last component of the cycle is that of performance review and the outcome of such a review process must inform the next cycle of IDP compilation/review by focusing the planning processes on those areas in which the Municipality has under-performed.

The IDP process constitutes the process of planning for performance. It is crucial that for all the priorities in the IDP, objectives, indicators and targets are developed.

7.3.5 Performance monitoring

Performance monitoring is an ongoing process by which a Director/Manager accountable for a specific indicator as set out in the institutional scorecard (or a service delivery target contained in an annual SDBIP) continuously monitors current performance against targets set. The aim of the monitoring process is to take appropriate and immediate interim (or preliminary) action where the indication is that a target is not going to be met by the time that the formal process of performance measurement, analysis, reporting and review is due.

In the instance of the MLM it is recommended that the institutional scorecard of the Municipality be reported on a quarterly basis to the Mayoral Committee. Performance monitoring requires that in between the relevant formal cycle of performance measurement appropriate action be taken, should it become evident that a specific performance target is not going to be met. It is therefore proposed that at least on a weekly/bi-weekly basis Director's track performance trends against targets for those indicators that fall within the area of accountability of their respective Departments as a means to early identify performance related problems and take appropriate remedial action.

7.3.6 Performance Measurement

Performance measurement refers to the formal process of collecting and capturing performance data to enable reporting to take place for each key performance indicator and against the target set for such indicator. Given the fact that initially at least the Municipality will have to rely on a manual process to manage its performance provision has been made in the institutional scorecard for the name of an official responsible for reporting on each indicator (please note that this might not necessarily be the same official accountable for performance on an indicator).

This will require that the Municipality sets in place a proper information management system (electronically or otherwise) so that the internal audit section is able to access information regularly and to verify its correctness.

7.3.7 Performance Analysis

Performance analysis involves the process of making sense of measurements. It requires interpretation of the measurements as conducted in terms of the previous step to determine whether targets have been met and exceeded and to project whether future targets will be met or not. Where targets have not been met performance analysis requires that the reasons therefore should be examined and corrective action recommended. Where targets have been met or exceeded, the key factors that resulted

in such success should be documented and shared so as to ensure organisational learning.

7.3.8 Performance Reporting and Review

Reporting requires that the municipality takes the priorities of the organization, its performance objectives, indicators, targets, measurements and analysis, and presents this information in a simple and accessible format, relevant and useful to the specific target group, for review. The Service Delivery and Budget Implementation Plan (SDBIP) is the basis to meet our reporting requirements. Generally, four reports are submitted per annum to Council. 12 Monthly reports are generated for the top executive management and MAYCO meetings.

The following is an overview of the different kinds of reports required.

PMS REPORTING

Report type	Description
Monthly / Quarterly IDP and SDBIP reporting	The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets set in the budget and IDP. It determines the performance agreements for the municipal manager and all top managers, whose performance can then be monitored through section 71 monthly reports, and evaluated through the annual report process. The SDBIP information on revenue will be monitored and reported monthly by the municipal manager in terms of Section 71(1)(a) and (e). For example, if there is lower than anticipated revenue and an overall cash shortage in a particular month the municipality may have to revise its spending downwards to ensure that it does not borrow more than anticipated. More importantly, such information requires the municipality to take urgent remedial steps to ensure it improves on its revenue-collection capacity if the municipality wants to maintain its levels of service delivery and expenditure. Section 1 of the MFMA, Act 56 of 2003 states that the SDBIP as a detailed plan approved by the mayor of a municipality in terms of service delivery should make projections for each month of the revenue to be collected, by source, as well as the operational and capital expenditure, by vote. The service delivery targets, and performance indicators need to be reported on quarterly (MFMA, 2003).
Mid-year budget and performance assessment report	Section 72 of the MFMA requires the accounting officer to prepare and submit a report on the performance of the municipality during the first half of the financial year. The report must be submitted to the mayor, National Treasury as well as the relevant Provincial Treasury. As with all other reports this is a crucial report for the Council to consider mid-year performance and what adjustments should be made, if necessary.
Annual Performance report	Section 46 of the Municipal Systems Act states that a municipality must prepare for each financial year, a performance report that reflects the following: • The performance of the municipality and of each external service provided during that financial year. • A comparison of the performances referred to in the above paragraph with targets set for and performances in the previous financial year; and • Measures to be taken to improve on the performance • The performance report must be submitted at the end of the financial year and will be made public as part of the annual report in terms of chapter 12 of the MFMA. The publication thereof will also afford the public the opportunity to judge the performance of the municipality against the targets set in the various planning instruments.
Annual report	Every municipality and every municipal entity under the municipality's control is required by Section 121 to prepare an annual report for each financial year, which must include: • the annual financial statements of the municipality or municipal entity as submitted to the Auditor-General for audit (and, if

Report type	Description
	applicable, consolidated annual financial statements); - the Auditor-General's audit report on the financial statements. - an assessment by the accounting officer of any arrears on municipal taxes and service charges. - particulars of any corrective action taken or to be taken in response to issues raised in the audit reports. - any explanations that may be necessary to clarify issues in connection with the financial statements. - any information as determined by the municipality, or, in the case of a municipal entity, the entity or its parent municipality. - any recommendations of the municipality's audit committee, or, in the case of a municipal entity, the audit committee of the entity or of its parent municipality. - an assessment by the accounting officer of the municipality's performance against the measurable performance objectives for revenue collection and for each vote in the municipality's approved budget for the relevant financial year; - an assessment by the accounting officer of the municipality's performance against any measurable performance objectives set in terms the service delivery agreement or other agreement between the entity and its parent municipality. - the annual performance report prepared by a municipality; and - any other information as may be prescribed. Section 127 prescribes the submission and tabling of annual reports. In terms of this section: - The accounting officer of a municipal entity must, within six months after the end of a financial year, submit the entity's annual report for that financial year to the municipal manager of its parent municipality. - The mayor of a municipality must, within seven months after the end of a financial year, table in the municipal council the annual report of the municipality and of any municipal entity under the municipality's sole or shared control. - If the mayor, for whatever reason, is unable to table in the council the annual report of the municipality, or the annual report of any municipal entity under the municipality's sole or shared control, within seven months after the end of the financial year to which the report relates, the mayor must: - submit to the council a written explanation setting out the reasons for the delay, together with any components of the annual report that are ready; and - Submit to the council the outstanding annual report or the outstanding components of the annual report as soon as may be possible.

7.4 Conclusion

Performance management is a process which permeates right through the organisation, from its vision and mission statement to its objectives and eventually its staff. It applies to the performance of an organisation as well as to all persons related to it.

As indicated earlier, the White Paper on Local Government (1997) states that key mechanisms to ensuring service excellence in municipalities include integrated development planning, performance management and community participation. As a start there are certain measures that a municipality simply must implement.

It must:

- Establish a performance management system that is commensurate with its resources, best suited to its circumstances and in line with its targets, priorities and objectives contained in its IDP.
- Promote a culture of performance management among its political structures, political office-bearers, councillors and administration.
- Administer its affairs in an economical, effective, efficient and accountable manner (Municipal Systems Act, 2000).
- Appropriate Key Performance Indicators must be established to serve as a yardstick for measuring individual and organisational performance. These key performance indicators should include outcomes and the impact of a performance area with regards to a municipality's development priorities and objectives as set out in its IDP.

Chapter 8 Projects and Programmes

8.1 Introduction

The following projects and programmes were identified by each of the directorates for the term of the IDP. The current projects that are in progress are listed in the table below.

TABLE 83: PROJECT IMPLEMENTATION PLAN

MIG NUMBER	PROJECT DESCRIPTION	PROJECT VALUE	STATUS	PLANNED EXPENDITURE FOR 2025/2026	PLANNED EXPENDITURE FOR 2026/2027	PLANNED EXPENDITURE FOR 2027/2028	WARD

Upgrading of Maokeng/Nyakallong Resort	MIG					

TABLE 88: DISASTER MANAGEMENT ESTIMATE AND SOURCE OF FUNDING

Disaster Management					
Project Description	Source of funding	Status	Expected commencement date	Expected Completion date	Estimated Costs
Fencing of Disaster Management Centre	Internal	Planning	January 2025	December 2027	
Building of a storeroom	Internal	Planning	January 2026	December 2028	R1 000 000
Development of Early warning systems	Internal	Planning	January 2026	June 2028	R2 000 000
Procurement of mobile command centre	Internal	Planning	October 2026	December 2026	R5 000 000
Business solution for Disaster Management Call Centre	Internal	Planning	December 2026	December 2027	R5 000 000
Establishment of Disaster response NGO, NPC or Institute	Internal	Planning	July 2026	February 2027	R500 000
Repair/refurbishment of the Disaster Management Centre	Internal	Planning	August 2025	Continuous	R1 000 000
Pavement of the Disaster Management	Internal	Planning	September 2026	December 2027	R 1400 000

Centre					
Installation of Cameras in Disaster Management Centre	Internal	Planning	July 2025	October 2026	R 500 000

8.3 Technical Services

8.3.1 Electricity

Project Description	Funding Source	Priority	Risk
Viljoenskroon NMD increase Premium Supply	Own Funding	High	Inadequate bulk supply, interruptions
Upgrading overloaded LV Network: Seeisoville & Phomolong	Own Funding (Counter Funding) / DoE	High	Safety, interruptions, network damage
Implementation of Load Control System / smart Metering	Own funding	High	Demand side management, energy efficiency, saving on Eskom account
Replacement of 66kV switchgear	Own funding	High	Old infrastructure, interruptions
Check meters to verify Eskom accounts	Own funding	Medium	Electricity losses
Construction of Central Substation Kroonstad CBD (Phase4) - Installation of 66kV ring feed cables to Botha Street	Own Funding / DBSA / FDDM	HIGH	Inadequate supply, insecure supply, risk of major interruptions
Energy efficient public lighting	DoE / Own Funding/Eskom	HIGH	Demand side management, energy efficiency, saving on Eskom account
Upgrade of Main substation in Steynsrus	Own funding	HIGH	Inadequate supply, major interruptions, damage to network

Project Description	Funding Source	Priority	Risk
Upgrade of Main substation in Viljoenskroon	Own funding	MEDIUM	Inadequate bulk supply, prolonged interruptions
Energy efficient traffic lights	DoE / Own Funding/Eskom	High	Demand side management, energy efficiency, saving on Eskom account
Moqhaka Public Lighting	Own Funding (Counter Funding) / DoE / MIG	High	Makes area unsafe
Upgrade MV switchgear panels in Kroonstad Substations	Own funding	High	Safety, Interruptions, damage to network
Maokeng stands	DoE, own	High	Occupied stands without power
Infrastructure for new development (Bulk and Reticulation)			
Brentpark ext. 12 - 326 erven	DoE, own	Medium	Insufficient capacity of current infrastructure to cater for future developments
Elandia - 200 erven	DoE, own	Medium	Insufficient capacity of current infrastructure to cater for future developments
Heuwelsig - 73 erven	DoE, own	Medium	Insufficient capacity of current infrastructure to cater for future developments
Maokeng ext. 10 (next to Boitumelo phase 1) - 2278 erven	DoE, own	Medium	Insufficient capacity of current infrastructure to cater for future developments
Maokeng ext. 13 (next to Boitumelo phase 2) - 2848 erven	DoE, own	Medium	Insufficient capacity of current infrastructure to cater for future developments
Viljoenskroon ext. 14 - 109 erven	DoE	Medium	Insufficient capacity of current infrastructure to cater for future

Project Description	Funding Source	Priority	Risk
			developments
Vogelvlei - 800 erven	DoE, Eskom	Medium	Insufficient capacity of current infrastructure to cater for future developments
Northleigh phase 1 - 2126 erven	DoE, Eskom	High	Insufficient capacity of current infrastructure to cater for future developments
Northleigh phase 2 - 1964 erven	DoE, Eskom	High	Insufficient capacity of current infrastructure to cater for future developments
Northleigh phase 3 - 1509 erven	DoE, Eskom	High	Insufficient capacity of current infrastructure to cater for future developments
Tuinhof - 109 erven	DoE, own	High	Occupied stands without power
Matlwangtlwang ext. 2 - 605 erven	DoE, Eskom	Medium	Insufficient capacity of current infrastructure to cater for future developments
Rammulotsi ext. 6 (re planned hostel area) - 42 erven	DoE, Eskom	Medium	Insufficient capacity of current infrastructure to cater for future developments
66 kV overhead line bulk supply to Maokeng 10km phase 2	own, DoE, DBSA	High	Inadequate supply, insecure supply, risk of major interruptions
Ring feed to Rammulotsi Ext 5	Own funding	High	Reduce power interruptions
Crane Truck	Own Funding		Insufficient yellow fleet, vehicles, equipment, slowing progress of service delivery

Project Description	Funding Source	Priority	Risk
LDV's	Own Funding	Medium	Insufficient yellow flee, vehicles, equipment, slowing progress of service delivery
Cherry pickers	Own funding	Medium	Insufficient yellow flee, vehicles, equipment, slowing progress of service delivery
Testing equipment and accessories	Own funding	Medium	Insufficient yellow flee, vehicles, equipment, slowing progress of service delivery
Trailer for testing equipment	Own funding	Low	Insufficient yellow flee, vehicles, equipment, slowing progress of service delivery
Purchase or hire of heavy equipment (cherry picker, crane trucks)	Own Funding	Medium	Insufficient yellow flee, vehicles, equipment, slowing progress of service delivery
Upgrade LT Network – Steynsrus, Viljoenskroon	Own Funding	Medium	Interruptions, Safety
Bulk and zonal meters	Own Funding	High	Electricity losses
Conversion of conventional with prepaid meters and replacement of damaged prepaid meters	Own Funding	High	Electricity losses
Electricity network upgrade to accommodate increased NMD : Kroonstad / Maokeng	Own Funding	High	Inadequate supply, insecure supply, risk of major interruptions
Electricity office building repairs	Own funding	Low	building not maintained regularly
Extension of Streetlights - North Rd and Reitz Street	Own funding	Low	Safety risk
Insulators for pole/line anchors	Own funding	High	Risk of power interruptions
New 66kV substation in Maokeng - 20MVA transformer and	Own Funding	Medium	Inadequate supply, insecure supply, risk

Project Description	Funding Source	Priority	Risk
switchgear			of major interruptions
Phasing out of old propriety metering	Own funding	Medium	old technology
Replace 2 x 800 kVa transformers - Brand Street	Own funding	High	Old infrastructure, Inadequate supply, interruptions
Replace concrete electricity/streetlight poles with steel poles	Own funding	Medium	Safety risk, poles can break
Ring supplies in Steynsrus	Own funding	High	Reduce power interruptions
Ring supplies in Viljoenskroon	Own funding	High	Reduce power interruptions
Ring feed - Marock to Mark Street	Own funding	Medium	New development
Ring feed in Brentpark between Krelling and Brierley str	Own funding	High	Reduce power interruptions
Ring feed to Brentpark	Own funding	High	Reduce power interruptions
Substation building refurbishment in Moqhaka	Own funding	High	Risk of power interruptions
Upgrade computers and network electricity admin building	Own funding	Medium	slow old computers and internet connection affecting productivity
Upgrade LV switchgear panels in Kroonstad Substations	Own funding	High	Safety, interruptions, network damage
Upgrade of Max Demand Meters	Own Funding	Medium	Electricity Losses
Upgrade of MV and LV network in Brentpark	Own funding	Medium	Interruptions
Upgrade of overloaded electrical network (2 x 500kVa mini subs) Seeisoville & CBD	Own funding	High	Inadequate supply, interruptions
Upgrade transformer protection (Steiner, Ramsbottom and Piet de Vries subs)	Own funding	High	Safety, Interruptions, damage to network
Vrisgewaagd small holdings Repair and replace of faulty cable	Own funding	Medium	No ring feed, Interruptions

8.3.2 Sanitation

Project Description	Funding Source	Priority	Risk
Upgrading of the Steynsrus Waste Water Treatment Works	MIG/DWS/Own funding	High	Inadequate capacity of existing plant to cater for future development of 1436 erven
Increase capacity of the Viljoenskroon WWTW	MIG/DWS/Own funding		Inadequate capacity of existing plant to cater for future development of 1436 erven
Refurbishment of Steynburg sewer pump station at Viljoenskroon	Own funding	High	Health and environmental degradation due to Sewer Spillages
Refurbishment of Mphatlalatsane sewer pump station at Rammulotsi	Own funding	High	Health and environmental degradation due to Sewer Spillages
Refurbishment of abattoir sewer pump station at Viljoenskroon	Own funding	High	Health and environmental degradation due to Sewer Spillages
Waste Water master plan and implementation thereof	MIG/DWS/Own funding	High	
10ML Waste Water Treatment Plant in Constantia	Own funding	High	Health and environmental degradation due to Sewer Spillages
2km long Sewer pipeline from David Curry to Constantia Pump Station	MIG	High	Health and environmental degradation due to Sewer Spillages
2km long Nyakallong sewer line from Smit pump station (Gelukwaarts) to Pitso Pump station	MIG	High	Health and environmental degradation due to Sewer Spillages
200m long sewer line adjacent Johny's dam (Kroonheuwel)	Own funding	Medium	Health and environmental degradation due to Sewer Spillages
1km long Viljoenskroon line towards 4-way stop pump station	MIG	Medium	Health and environmental degradation

Project Description	Funding Source	Priority	Risk
			due to Sewer Spillages
1km long sewer mainline in 11th Avenue (Marabastad)	MIG	Medium	Health and environmental degradation due to Sewer Spillages
300m long sewer line from Rowan Street to Vermaak Street	Own funding	Medium	Health and environmental degradation due to Sewer Spillages
Refurbishment/Upgrading of Sewer Pump Stations	Own funding	High	Health and environmental degradation due to Sewer Spillages
Installation of water networks in areas where township establishment was done in all 3 towns	MIG/DWS/Own funding	High	hamper development due to lack of services in place
Sewer Reticulation for the 1436 new stands in Matlwangtlwang	Human Settlement/Own funding	High	Development cannot be done without first providing for infrastructure services
Sewer Reticulation for the 1086 new stands in Rammulotsi (Northleigh)	Human Settlement/Own funding	High	Development cannot be done without first providing for infrastructure services
Sewer Reticulation for the 109 new stands in Viljoenskroon	Human Settlement/Own funding	High	Development cannot be done without first providing for infrastructure services
Sewer Reticulation for the 5126 new stands in Maokeng	Human Settlement/Own funding	High	Development cannot be done without first providing for infrastructure services
Sewer Reticulation for the 326 new stands in Brentpark	Human Settlement/Own funding	High	Development cannot be done without first providing for infrastructure services
Sewer Reticulation for the 476 new stands in Kroonstad (Tuinhof, Heuwelsig and Elandia)	Human Settlement/Own funding	High	Development cannot be done without first providing for infrastructure services
Refurbishment of purified sewerage effluent irrigation system for parks and schools	MIG/DWS/Own funding	High	using clean/potable water for irrigation purposes
Expansion of purified sewerage effluent irrigation system	MIG/DWS/Own funding	High	using clean/potable water for irrigation purposes

8.3.3 Water

Project description	Source of Funding	Status	Expected Commencement	Expected Completion of date
Completion and development of Lab Scientific	Internal	Project concept reports and projection submitted	January 2024 submission of the concept	2024/2025 Financial year
		To spatial Planning	To Spatial planning	
Refurbishment of 15 ml Kroonstad	unfunded	Not yet	2024	2025
Construction of Viljoenskroon Off- channel storage Dam	Unfunded	Not yet	2025	20226
Expansion and refurbishment of Kroonstad WWTW: Water & sewer reticulation in new development	unfunded	Costed Analysis report is done	2022	2027
Replacement of 5km ac pipe at Du Toit Street	unfunded	Not yet	2024	2026
Construction of 1.5 MI Reservoir at Brentpark	Unfunded	Not yet	2025	2026
Constraction of 1km outfall sewer from Pitso Pump Station to Constantia	Unfunded	Not Yet	2026	2027

Project description	Source of Funding	Status	Expected Commencement	Expected Completion of date
Pump Station
